Report of The Minister of Education

1957

To The Honourable J. Keiller Mackay, D.S.O., V.D., LL.D.,

Lieutenant-Governor of the Province of Ontario.

Your Honour:

With all respect, I present to Your Honour the Report of the Department of Education for 1957. May I take this opportunity to comment upon some aspects of the educational system which are of special interest at this time.

In September, 1957, the total number of pupils enrolled in the elementary and secondary schools of the Province was 1,174,642, and I should like to point out that in the past decade the school enrolment in Ontario has nearly doubled. The increase in the past twelve months has been unprecedented, with 77,141 more pupils in attendance than in September, 1956. To meet the demands caused by this expansion the following accommodation was provided in 1957: for elementary schools, 417 new buildings and additions at an approximate cost of \$43,950,000; for secondary schools, 23 new buildings and 43 additions at an approximate cost of \$29,209,000.

There were 3,647 students attending the Teachers' Colleges in the autumn of 1957, the largest enrolment in the history of these institutions. This number was more than twice the enrolment four years ago. Pre-Teachers' College Summer Courses were in operation in 1957, with 996 students in the First Year and 712 in the Second Year obtaining Temporary Certificates.

Special attention has been given to the improvement of instruction in both elementary and secondary schools. Within the past year a Professional Development branch has been established to assist teachers in the elementary schools and an assistant superintendent appointed to help inexperienced teachers in secondary schools.

Post-secondary education offered at the technical institutes provided educational opportunities for students preparing to enter specific industries. There is a wide variety in the courses offered at these schools and each school has its own special organization and purpose. Steps have been taken to meet the need for expansion in this field by enlarging the facilities in existing schools and by the provision of new schools. The Eastern Ontario Technical Institute was opened in Ottawa in September, 1957; electrical, electronic, and mechanical technology courses were introduced in September, 1957, at the Hamilton Institute of Technology; the Lakehead Technical Institute became the Lakehead College of Arts, Science and Technology; and substantial progress was made in the construction of the first unit of the new buildings at the Ryerson Institute of Technology, Toronto.

While problems such as these—increased enrolments, teacher supply, higher education—are only a part of the complex pattern of education in Ontario, it is still true that the chief concern of the Department of Education must be the welfare of the individual pupil. To this the provision of schools, and books, and curricula, and the training of teachers are all directed.

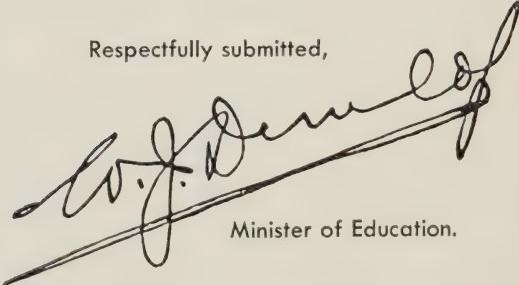

The schools of this Province are endeavouring, with a great measure of success, to impart the knowledge and the skills which will help our boys and girls to become useful citizens. Pupils must develop certain characteristics and ideals if they are to play an intelligent and useful part as adults. They must learn the value and the satisfactions of hard work and they must recognize the duty which they owe to their country. They must learn that the privileges of citizenship are attended by corresponding responsibilities.

The Department of Education continues to operate five railway school cars which carry educational facilities to 103 pupils in Northern and Northwestern Ontario who would otherwise have no accessible courses. Correspondence courses are provided for children who for any good reason are unable to attend school, for adults whose education has been interrupted, and for residents of Ontario who are temporarily living outside the Province.

Every effort is being made to see that no child is overlooked in the provision of education or training suited to his need. Local authorities are encouraged to establish and operate auxiliary classes and units for children who are unable to make progress in the regular grades. The Ontario School for the Deaf at Belleville has an enrolment of over 400 pupils and new buildings are under construction to meet the need for more accommodation. The Ontario School for the Blind at Brantford has an enrolment of 181 pupils. Grants have been paid since 1953 to parents' groups affiliated with the Ontario Association for Retarded Children; the total of such grants for both current operation and capital expenditure from 1953 to September 1, 1957, has been over \$850,000.

In this report information and statistics will be found dealing with many other features of the school system. With all its ramifications it will be seen that an essential unity pervades the whole system—a concern to provide for all people in the Province of Ontario those educational opportunities that will enable them to meet effectively the problems of the future.

Respectfully submitted,

L.O.J. Dennis

Minister of Education.

Toronto, January 8, 1958

Elementary Education

LEGISLATIVE GRANTS

The 1956 plan for distribution of General Legislative Grants was continued in 1957 with no major alterations. Grants to Elementary School Boards in 1957 totalled \$67,662,800.⁽¹⁾

Included in the total amount stated above is the special per pupil grant of \$11.00 per pupil of average daily attendance in 1956 paid to Elementary School Boards as a supplementary grant which amounted to \$8,833,500.⁽¹⁾

LARGER UNITS OF ADMINISTRATION

Eight new township school areas, including 27 former school sections, were formed in 1957, and one township school area was enlarged to include three former areas. Fourteen additional school sections were added to 12 existing areas. One township school area composed of three former school sections was dissolved, and eight other former school sections withdrew from four areas. The resultant increase of five brought the total number of township school areas at the end of 1957 to 574 and the total number of former school sections within larger units of administration to 3,607. Of all former school sections, 62.8% are now within township school areas.

Twenty-three former separate school areas were united in 1957 under 10 new union separate school boards. Two separate school areas were added to existing unions. The schools in 233 former separate school areas are now under the administration of 82 union separate school boards.

TRANSPORTATION OF PUPILS

The number of pupils who were transported during the school year 1956-57 increased by 8.6% over the previous year. The cost of transportation increased 13% and the approved cost increased by 10%. There was a slight decrease in the number of pupils transported to secondary schools by elementary school boards. There is a growing tendency for the boards of township school areas to purchase and operate buses to transport pupils to one or more central schools in the township.

RAILWAY CAR SCHOOLS

In some parts of Northern Ontario, the children of lumbermen, railway section workers, and others, live in isolated areas where there are not enough pupils for the organization of regular schools.

The Ontario Department of Education, in co-operation with the railway companies, provides an education for many of these children by means of railway car schools. During 1957, five car schools were in operation, three on the Canadian National Railway, one on the Canadian Pacific Railway, and one on the Ontario Northland Railway. The car schools made regular stops at 20 places and had a total enrolment of 103 pupils. Instruction was given by experienced, qualified teachers.

Each car remains at a stop for one week during which the pupils attend classes during regular school hours. While the car visits other stops on its route, the children do school assignments in their homes in preparation for the next visit of the car school.

This service is provided without charge by the Ontario Government.

⁽¹⁾ See Table 2

NEW CONSTRUCTION

In 1957, elementary school accommodation in Ontario was increased by 64,480 pupil places, provided in 417 new buildings and additions, at an estimated cost of \$43,950,000. From 1945 to 1957 inclusive, 442,275 pupil places were provided at an estimated cost of \$293,450,000.⁽³⁾

C.E.A. PROJECT IN EDUCATIONAL LEADERSHIP

In 1952, the Canadian Education Association received a substantial grant from the W. K. Kellogg Foundation towards the support of a five-year Project in Educational Leadership. This project, known as the C.E.A.—Kellogg Project, came to an end in 1956. An essential part of the programme was a series of inter-provincial short courses for school inspectors and superintendents. With the co-operation of the provincial Departments of Education, the project has continued as the C.E.A. Project in Educational Leadership, and the annual short course was offered again in 1957.

Seventy educationists from Canada's ten provinces met in Edmonton for three weeks beginning May 13 to study problems of educational leadership in local communities. Nineteen departmental and locally employed inspectors and superintendents from Ontario were in attendance. Of the total membership, 59 were inspectors and superintendents, two were members of the Canadian Trustees' Association, three represented the Canadian Teachers' Federation, and one represented the Canadian Home and School and Parent-Teacher Federation. In addition, two places were allotted to a Superintendent of Schools from the Northwest Territories, and a Regional Inspector of Indian Schools.

The theme of the course was "The Role of the Superintendent in Educational Leadership." The course was designed to serve four main purposes:

- A. To provide an opportunity for further exploration of problems in educational administration and supervision.
- B. To provide an opportunity for individual members to form definite plans for later local action.
- C. To provide members with an opportunity to gain further understanding of philosophies and techniques of leadership, including evaluation, group processes, and communication.
- D. To stimulate the intercommunication of educational ideas and practices between widely separated areas in Canada, looking towards the identification of emerging principles of supervision and administration in a Canadian setting.

The 1958 short course will be held at the Ontario College of Education in Toronto.

Secondary Education

1. SECONDARY SCHOOLS

ENROLMENT

The total enrolment of pupils in secondary schools in September, 1957, was 203,525. By courses the enrolments were as follows: General 155,641; Commercial 27,304; Industrial 18,169; Home Economics 515; Art 581; Special Industrial 1,315.⁽⁴⁾

⁽³⁾ See Table 19

⁽⁴⁾ See Table 59

The total number of full-time teachers in the secondary schools in Ontario in September, 1957, was 8,669,(5) an increase of 633 over the previous year. Making allowance for part-time teachers, the teacher-pupil ratio in September, 1957, was 23.2. In 1956 it was 22.8.

BUILDING PROGRAMME

Twenty-three new secondary schools were completed in 1957 at a cost of \$20,622,000. Additions were made to 43 existing buildings at a cost of approximately \$8,587,000.(6)

TRANSPORTATION

During the school year 1956-57, secondary school boards furnished transportation for 50,971 pupils, which is an increase of 10% over the previous year. These pupils were transported over 1,677 routes at a cost of \$24,373 per day.(7)

The number of pupils transported to secondary schools by elementary school boards decreased again this year.

Provision has been made for certain secondary school boards, with the approval of the Ontario Municipal Board, to enter into agreements with an operator to furnish transportation for more than one year but not more than five years.

GRANTS

Legislative Grants during the calendar year 1957 in support of academic secondary schools amounted to \$24,265,000. During the same period, grants in support of vocational schools totalled \$4,558,100. Included in these sums were special grants per pupil of average daily attendance (continuation schools, \$20.00 per pupil; high schools and collegiate institutes, \$25.00 per pupil; vocational schools \$30.00 per pupil). These attendance grants totalled \$3,323,100 to academic, and \$903,400 to vocational schools. (8) Also included in the original totals were grants on expenditures for approved textbooks for pupils in Grades 9 and 10. These grants enabled all schools to supply free of charge some of the necessary books, and some schools to provide almost all the books required by pupils in these grades.

On April 1, 1957, a new Dominion-Provincial Agreement known as the "Vocational and Technical Training Agreement No. 2", came into effect for a period of five years. It is designed to promote and develop vocational and technical education in this province to a greater extent.

2. TECHNICAL INSTITUTES

EASTERN ONTARIO INSTITUTE OF TECHNOLOGY

The Eastern Ontario Institute of Technology opened in September, 1957, with an initial enrolment of 101 students. This Institute, located in Ottawa, is intended to serve the needs of the eastern part of the Province.

The first year courses in Electrical, Electronic and Mechanical Technologies are being taught. The outlines of these courses are identical with those which are offered at the Ryerson Institute in Toronto. This is to make possible the transfer of students from Ottawa to Toronto in the event that the enrolment in Ottawa is insufficient to justify the offering of the second or third years of the courses.

Advanced technical evening classes at the senior level are being conducted in which the enrolment is 35 students.

(5) See Table 61

(6) See Table 19

(7) See Table 18

(8) See Table 2

HAMILTON INSTITUTE OF TECHNOLOGY

Late in the fall of 1956 a decision was made to discontinue the general first year technical course at the Hamilton Institute of Technology and to introduce courses in Electrical, Electronic and Mechanical Technologies identical to the corresponding courses given by the Ryerson Institute of Technology. The Textile Technology course was continued as previously established.

A conference on engineering-technician education was called on February 27, 1957, by the Minister of Education. The conference was held in the Hamilton Institute of Technology with the Superintendent of Secondary Education as chairman, and was addressed by representatives of industry and the Department of Education. The joint conference aided materially in explaining the objectives of the engineering-technician courses to be offered by the Institute.

Prior to the opening of classes in September, 1957, with the splendid co-operation of the Department of Public Works, vacant space in the Institute was converted into electrical, electronic and physics laboratories. In addition, equipment and supplies were purchased, a staff assembled and courses organized.

On September 17, 1957, the total enrolment was 114, of whom 100 were first-year students. There are 70 additional students enrolled in various evening school subjects.

LAKEHEAD COLLEGE OF ARTS, SCIENCE AND TECHNOLOGY

On August 1, 1957, the Lieutenant-Governor-in-Council issued the necessary order proclaiming the establishment of the Lakehead College of Arts, Science and Technology, formerly known as the Lakehead Technical Institute. From that date, the Department of Education relinquished responsibility for the direct operation of this establishment.

The full-time day enrolment for the school year 1957-58 has been reported as follows: University Division, 75; Technical Division, 48; Total Day Enrolment, 123.

THE PROVINCIAL INSTITUTE OF MINING

The architect's plans for an addition to the Provincial Institute of Mining, to accommodate steadily increasing enrolment, have been completed and the extension should be ready for September, 1958.

In twelve years of operation the Institute has graduated nearly 400 men, and by May, 1958, the number will be 450. The present enrolment is 108. Since its opening in September, 1945, the Institute has made a very important contribution to mining in Canada. It has provided much-needed technical personnel for engineering and survey departments of mines, for geological staffs and for mine, mill and smelter laboratories.

For the most part the graduates are employed in the Ontario mining areas of Sudbury, Blind River, Porcupine, Kirkland Lake, Larder Lake, Red Lake and Manitouwadge, but some have gone to the Quebec mining areas and to Newfoundland, New Brunswick, Manitoba, Saskatchewan, the Yukon, British Columbia, the United States, Central and South America.

THE PROVINCIAL INSTITUTE OF TRADES

In the designated trades, the enrolment of the Provincial Institute of Trades for 1957 was 1,988, which is an increase over the previous year. In the non-designated trades, the enrolment was 101. This also is an increase over the year before, despite the fact that three courses, namely Millwork, Tailoring and Building Construction Expediting, were closed.

The staff in December, 1957, consisted of 56 members; and the enrolment of full-time students on October 15, 1957 was 610.

A reconstruction building programme has been in operation since last June, under the direction of the Department of Public Works. When this is completed, there will be a considerable increase in the number of classrooms and shops. The heating and ventilating in the whole building will be vastly improved.

In addition, land has been purchased on Baldwin Street opposite the Motor Vehicle Repair shop entrance. The buildings have been demolished and the ground levelled in order to provide the much-needed parking facilities.

RYERSON INSTITUTE OF TECHNOLOGY

The Ryerson Institute of Technology is in its tenth year of operation. It opened in September, 1948, with a limited enrolment and a small staff of teachers who were dedicated to their task but somewhat inexperienced in teaching subjects of a technological nature, for this was a new educational venture in Canada, and there were few signposts to guide the way.

Although a change in emphasis has taken place, the objectives remain the same today as they were at that time, namely, to graduate good engineering technologists, and specialists of an equally high calibre in other fields. In keeping with this technological age, the standards demanded by industry in the intervening years have been raised and there is a considerable difference between the first curricula and those now in use. Much more stress than formerly is laid on fundamental principles and the number of subjects has been reduced.

At the opening of the academic year 1957-58, the registration reached the figure of 2,160 and in October the evening-school enrolment totalled 4,265. About 46% of the day-school students come from the Toronto Metropolitan area and almost 6% from Provinces other than Ontario. Because of the establishment of institutes in other cities in the Province, however, the percentage of students from Toronto and vicinity is likely to increase.

An important development during the past year was the recognition accorded the graduates by the Association of Professional Engineers of the Province of Ontario. The Association is prepared to certify such graduates as Engineering Technologists, Group 1, after they have had one year's experience in an engineering office or department.

The first of a series of new building units is nearing completion, and it is anticipated that the unit will be ready for occupancy by April 1, 1958. The plans for the second unit are finished, and the Department of Public Works has requested tenders for its construction. The projected building programme will aid materially in solving the problem created by the constantly increasing enrolment.

Teacher Education

TEACHERS' COLLEGE ENROLMENT

A total of 3,647 students enrolled in the teachers' colleges in the autumn of 1957.(9) This number was more than twice the enrolment of 1,732 four years ago, and represented a peak figure in teachers' college enrolment in Ontario. Of the number, 2,105 were registered in one-year courses, 620 in the first year of the two-year course, 404 in the second year of the two-year course, and 518 in the completing year of the In-Service Course. Approximately 20 per cent of the students were men.

At the Ontario College of Education, 352 students were enrolled in courses leading to the High School Assistant's, Library, Home Economics, Vocational and Industrial Arts Certificates. This enrolment was 43 fewer than that of the previous year. Approximately 57% of the students were men.

(9) See Table 11

TEACHER SUPPLY

More than 2,600 students graduated in June 1957 from the provincial teachers' colleges. Of this number, 297 were graduates of the two-year course, and 477 were successful in the completing year of the In-Service Course. In addition, Temporary Certificates were obtained in the year under review by 996 graduates of the Pre-Teachers'-College Summer Courses, First Year, and by 712 graduates of the Pre-Teachers'-College Summer Courses, Second Year. These summer courses were held in Toronto and Port Arthur. A summer session programme was also conducted at the University of Ottawa Teachers' College, where 74 persons with experience in teaching under Letters of Permission obtained Deferred Interim Second Class Certificates valid for teaching in elementary schools in which French is a subject of instruction with the approval of the Minister.

Letters of Standing granted to well-prepared elementary school teachers coming to Ontario from other provinces of Canada or other countries in the Commonwealth totalled 581 in the school year 1956-57. Letters of Permission, issued to boards of trustees on behalf of uncertificated teachers serving in elementary schools, totalled 710 by the end of November for the school year 1957-58.

The emergency summer course programme inaugurated in 1955 for the preparation of secondary school teachers proved so successful in helping to meet the steadily rising demand for qualified personnel in the secondary schools that the plan was continued in 1957. The response exceeded that of former years, with 499 university graduates registering in the ten-week course. If past experience is a guide, most of these student-teachers will teach successfully in the school year 1957-58, and, after a further five-week course in the summer of 1958, will be granted an Interim High School Assistant's Certificate, Type B.

For the school year 1956-57, a total of 141 Letters of Standing valid for teaching in Ontario were granted to secondary school teachers who had received their training in other provinces of Canada or in other countries of the Commonwealth. Letters of Permission issued to secondary school boards on behalf of teachers not holding the certification required for positions held totalled 641 in the same school year. Of this number, 161 held basic secondary school teaching certificates.

NEW BUILDINGS

The attractive new building of the Hamilton Teachers' College opened for use in February, 1957. This two-storied grey stone structure on a pleasant campus adjacent to McMaster University provides excellent accommodation for students and staff. In addition to the usual classrooms, the building contains a spacious gymnasium, an auditorium, library, medical centre, common rooms, and rooms for instruction in home economics and industrial arts. The official opening ceremony was held at the College on April 15.

The corner-stone of the new building for the London Teachers' College was laid on June 13, 1957. The new site adjoins the campus of the University of Western Ontario, and it is expected that the building will be ready for occupancy in September, 1958.

Plans were completed in the year under review for a building for the Lakeshore Teachers' College, a second institution for the preparation of elementary school teachers in the Metropolitan Toronto area. The new College will be located in New Toronto.

Curriculum Development

CURRICULUM

The Superintendent of Curriculum spent three months in the British Isles in 1957 visiting schools of all types and studying administrative methods, and also conferring with school authorities and publishers on matters relevant to curriculum and text-book problems in Ontario.

The functions of the Curriculum Branch include supervision of all work within the Department related to curriculum revision, recommendations for final approval of curricular materials including text-books, and maintenance of contact with local authorities and others interested in curriculum development. At this stage of curriculum development in Ontario, the provision of text-books to meet the requirements of the courses of study, particularly for the elementary schools, has become a matter of considerable importance. Consultation with authors and publishers regarding proposed publications is, at the present time, a major pre-occupation of the Curriculum Branch.

Other Departmental officials participating in curriculum-making include the directors of special subjects, inspectors of elementary and secondary schools, and instructors in teachers' colleges. For schools in which French is a subject of instruction with the approval of the Minister, a committee consisting of bilingual inspectors and teachers of the University of Ottawa Teachers' College, gives advice to the Superintendent of Curriculum regarding curriculum and text-books. Similarly, in preparation of courses of study in the French language the Director of French Instruction and a bilingual secondary school inspector advise the Superintendent of Curriculum.

The Curriculum Branch is now engaged in the development of courses in Geography and History parallel and alternative to the present Social Studies courses in Grades 7 to 10.

Within the last few years, many local groups of teachers have assumed, to some considerable extent, responsibility for curriculum development. Local co-ordinating committees, with the power and responsibility of appointing curriculum committees to make revisions, were first established in 1950. This departure from the former pattern represented an extension of freedom for teachers and an increase in responsibility for local authorities. This development was generally approved. The teachers responded to the new challenge with commendable professional zeal. They used their enlarged freedom with wisdom and intelligence. They initiated, and have continued to engage in, projects for curriculum study and improvement that are of inestimable value to the whole system.

TEXT-BOOKS

In any educational scheme, a text-book is second in importance only to the teacher as an educating agent. Instead of being restricted to a single authorized text in each subject, which has been the rule for nearly 100 years, the Ontario teacher now has a wide range of approved books from which to choose. This approved list is revised and published annually. The present policy of the Department requires that text-books of Canadian origin (written and edited by Canadians, published in Canada, illustrated, if possible, by Canadian artists) will be used if such books are available. Only if suitable books to meet the requirements of our courses of study are not available, will books of outside origin be approved. Where they are required to be used, they must be revised for Canadian use and printed and bound in Canada. As a result of this policy, several competent authors have been discovered among Ontario teachers.

Pupils in Grades 1 to 8 are not required to purchase text-books. They must be provided by the Board. In Grades 1 to 10, boards are reimbursed by the Department of Education for expenditures on text-books up to \$3 per pupil of average daily attendance each year.

In each subject there are several books from which teachers and boards may choose. There are, for example, five series of readers for the grades of the primary division. There are four books from which teachers may make a selection in the Grade 5 Social Studies. For subject matter fields not already covered by text-

books, books are in preparation. If a book should prove unsuitable, it can be dropped from the approved list at any time. New books having features superior to those already in use may be added to the list at the time of publication.

A publisher who has a text-book which he thinks is better than any of those on the approved list, or which has features that are superior, may present the book for examination at any time. The book is examined in the Department and if it appears to meet the needs of the course for which it was designed and to be suitable in other respects, it may be immediately placed on the approved list. Where there is doubt in the minds of the Departmental examiners, the book may be sent out for examination by specialists, or a committee may be convened to make the examination. Similarly, a book which is on the approved list but proves in the classroom to be unsatisfactory, may be removed from the list at any time. It is usual for a year's warning to be given before such a book is finally dropped.

Professional Development

In June, 1957, the Professional Development Branch was organized to promote the in-service growth of teachers. The Superintendent of Professional Development is assisted by an Assistant Superintendent and in the Secondary Education Branch an Assistant Superintendent of Secondary Education was appointed to give special attention to this work.

This Branch co-operates with the Elementary Education Branch in assisting school inspectors to set up various types of in-service education programmes so that professional competence will be developed in teachers and good levels of achievement maintained in the schools. Particular attention is given to teachers with limited training and experience through early assistance in their classroom work and through workshops conducted with the co-operation of the local inspector.

In co-operation with the Registrar's Branch and with the other superintendents in the Department, all Departmental Summer Courses for elementary school teachers are supervised by the Professional Development Branch, except those courses under the direct control of the Teacher Education Branch.

In the six-month period since the organization of the Branch of Professional Development, officials have visited the Departmental Summer Courses in Toronto, London, Hamilton, Ottawa, and Sudbury, and addressed 3,487 students. In addition, officials have addressed approximately 5,000 teachers at teachers' institutes, conducted workshops for teachers, and assisted at educational conferences and panel discussions. Many classrooms taught by teachers with limited experience were visited. In these classrooms, demonstration lessons were taught. Eleven Reading Councils were organized to promote improvement in instruction in Reading.

Schools Attended by French-speaking Pupils

TEACHER SUPPLY

On October 15, 1957, there were 280 teachers-in-training at the University of Ottawa Teachers' College, 19 of whom were enrolled in the course leading to the Elementary Teaching Certificate, 12 in the course leading to the Deferred Elementary Teaching Certificate, and 249 in the course leading to the Second Class Certificate.

In 1929-30, 25% of French-speaking teachers held First or Second Class Certificates; in 1956-57, 84% of French-speaking teachers held First or Second Class Certificates.

SECONDARY SCHOOL ENROLMENT

In December, 1957, the total enrolment of French-speaking pupils taking advanced French courses in public secondary schools was 3756. There were, in addition, 3516 French-speaking pupils enrolled in Grades 9 and 10 of elementary schools.

ELEMENTARY SCHOOL ENROLMENT

In September 1957, there were 72,378 French-speaking pupils enrolled in separate and public elementary schools, an increase of 2,520 over the preceding year.⁽¹⁰⁾

CORRESPONDENCE COURSES

Correspondence Courses for French-speaking pupils in Grades 1 to 8 have been available since 1946. The number of pupils enrolled in December, 1957 was 62, with enrolments in all grades.

Agriculture

ELEMENTARY SCHOOLS

Agriculture is an optional subject for elementary schools. No separate course of study is provided, but agricultural topics are included in the Natural Science and Science courses outlined in the Programme of Studies for Grades 1 to 6 and in Circular Curriculum I:1 for the Intermediate Division.

SECONDARY SCHOOLS

Instruction in Agriculture is provided in secondary schools in two ways. Courses in Agricultural Science may be given as alternatives to General Science, Physics and Chemistry in Grades 9 to 12. These courses are given in 133 schools in Grades 9 to 12 and in 22 schools in Grades 9 and 10 only. There are 58 schools in which this Agricultural Science option is taught.

The other provision for agricultural instruction is the creation of a Department of Agriculture in a school and the organization of a two-year course for Grades 9 and 10 which includes Agriculture and Shop Work for boys and Home Economics for girls. There are now 100 schools with Departments of Agriculture.

The total number of pupils taking Agricultural Science in 1956 was 53,620 and taking Agriculture, 9,934. There were 13,981 pupils carrying on home projects in connection with their school work.

TEACHER SUPPLY

Instruction in agricultural topics is included as a part of the Science Course in teachers' colleges, and student-teachers who took the Agricultural Science option in their secondary school course may qualify for an Interim Elementary Agriculture Certificate.

Graduates of the Ontario Agricultural College who have taken teacher training at the Ontario College of Education, and teachers who have taken qualifying Summer Courses in Agriculture, make up the majority of teachers of agriculture in secondary schools.

PRACTICAL WORK

Besides the regular classroom and laboratory work, most schools provide gardening or home projects. In addition, many schools are equipped with poultry houses, colonies of bees, and other special facilities for practical work.

⁽¹⁰⁾ See Tables 44 and 57

Art

RESEARCH

Saturday morning classes conducted for the purpose of studying the work of children with outstanding ability in Art, were held again in 1956-57 at the Ryerson Institute of Technology from October to March.

SUPERVISION AND TRAINING

In addition to assistance given to the programme of Art in the elementary schools, special attention was given to the subject as presented in the secondary schools. Schools, at which general inspections were held by the Secondary Education Branch, were visited and their programmes in Art evaluated.

Meetings of elementary teachers were held in several inspectorates and workshops conducted in a number of rural areas.

Enthusiastic teachers again attended the 1957 Summer Courses in Art, which had an enrolment of 538⁽¹¹⁾.

Audio-visual Education

SCHOOL BROADCASTS

A programme of 115 school broadcasts was prepared for use in the elementary and secondary schools of the province. Through the courtesy of the British School Broadcasting System, 25 broadcasts were made available to Ontario schools. In addition, five broadcasts from the Australian Broadcasting Commission proved quite useful. All broadcasts were presented in co-operation with the Canadian Broadcasting Corporation over a network of 26 radio stations.

Radio manuals outlining the broadcasts were distributed to all Ontario teachers in September. Two evaluation surveys to test the effectiveness of the broadcasts were conducted.

Ontario elementary schools have 8,803 classrooms served by central sound systems, and report the ownership of 9,267 radios.

FILM SERVICE

Films from the Visual Education Branch were shown on 154,421 occasions to a total school audience of 8,029,892 during the school year. In addition, some city boards of education are developing their own film service. The Visual Education Branch has 1,194 film titles, with 10,527 prints of sound films available for use in Ontario schools.

A summer course in Audio-Visual Methods offered teachers an opportunity to improve their professional training in Audio-Visual techniques.

Ontario schools have reported the ownership of 1,756 sound projectors, 2,370 filmstrip projectors, and 710 opaque projectors.

Auxiliary Education Services

SERVICES

In 1954, the elementary and secondary school inspectors assumed responsibility for the organization and inspection of auxiliary classes in their inspectorates, and local authorities were made responsible for administering surveys to discover the needs of pupils. Assistance is available, when it is requested, from the Auxiliary Education Services Branch.

The increase in the number of opportunity classes in the past three years, from 343 to 477, is an indication that local interest in Auxiliary Education has grown steadily.⁽¹²⁾

⁽¹¹⁾ See Table 15

⁽¹²⁾ See Table 31

The Branch provides information, specialized knowledge and assistance that may be helpful in modifying or supplementing the regular school programme to meet the needs of socially, physically, or educationally handicapped children.

At the request of local school inspectors, the staff of the Auxiliary Education Services Branch participated in in-service training programmes for both urban and rural teachers, and served as advisers and consultants to local authorities and officials.

Efforts are being made to make available the advantages of Auxiliary Education Services to every pupil requiring them in the province. There are 14 itinerant auxiliary teachers employed in small urban and rural areas to assist teachers to meet the educational needs of all pupils.

Financial assistance is provided for the education of persons with physical handicaps, including the cerebral-palsied, the paraplegic, the partially crippled, and certain patients in sanatoria and other hospitals.

A lending library of text-books in magnatype print is maintained to assist pupils with limited vision. There were 292 Sight Saving Units in operation during the year.

TEACHER EDUCATION

In 1957, a total of 337 teachers enrolled in the Auxiliary Education Summer Courses held at Toronto. These courses are available to all teachers after two years of successful teaching experience. Included in this number were 43 teachers and prospective teachers of trainable retarded children in classes operated by parents' groups affiliated with the Ontario Association for Retarded Children. This was the first five-week course of its kind offered by the Department of Education. The number of regular classroom teachers enrolling in the Auxiliary Education Summer Course is increasing.

TRAINABLE RETARDED CHILDREN

Under the authority of The Department of Education Act and its Regulations, assistance was provided toward the cost of education of children under 18 years of age whose mental capacity is incapable of developing beyond that of a child of normal mentality at eight years of age. In 1957, grants were paid to 43 parents' groups affiliated with the Ontario Association for Retarded Children. The number of pupils enrolled increased from 1,100 to approximately 1,250.

Community Programmes

SERVICES

The services of the Branch are conducted through two categories of staff members who work in co-operation with municipal recreation councils, recreation committees, and other interested organizations. In each of the district offices, located at Belleville, Fort William, Hamilton, Hanover, London, North Bay, Oakville, Ottawa, and Toronto, is a district representative who acts as a consultant to organizations in that area. The second service is through special advisers in the field of art, crafts, recreation facilities, social recreation, recreation for older people, puppetry, and programmes in rural areas. The Branch also provides a loan service in the fields of films, drama, music, and reference books.

RECREATION DEVELOPMENT

In 1957 there were 274 municipalities (an increase of 19 over 1956) with organized programmes. There were 81 communities (an increase of four over 1956) employing full-time recreation directors.

GRANTS

In accordance with Ontario Regulations 57/57 grants were paid in 1957 to 274 municipal councils to the amount of \$410,519.32. Twelve local museums were paid grants totalling \$7,089.87; four county museums received grants totalling \$2,400. Eleven provincial organizations, which contributed to recreation and related leisure-time activities were paid grants to an amount of \$14,300.

LEADERSHIP TRAINING

The Branch provides a continuous service to communities in helping them to train leaders in a variety of recreation activities. Summer courses held at Guelph and Kincardine to train community leaders in art, crafts and drama, were attended by 85 persons. Twelve courses for playground supervisors were attended by 1,068 persons. Among other courses were seven courses for nature study leaders which were attended by 591 persons; six special courses for general training of community leaders which were attended by 340 persons; and courses on rural leadership, held in collaboration with the Department of Agriculture, which were attended by 561 persons.

CITIZENSHIP EDUCATION

The work with newcomers to Canada continues to be a most important function of the Branch. In 1957, school boards conducted 668 classes in English and in the government, history, and geography of Canada; voluntary organizations conducted 214 classes; and the Community Programmes Branch conducted 37 classes. The 919 classes were attended by 19,361 persons.

In 1957 the Community Programmes Branch was responsible for providing language-training for Hungarian refugees at the Hungarian Reception Centre. Special day-classes were organized for the children of refugees. The Branch also provided a course of intensive language-training for Hungarian students from Sopron University most of whom are now studying at the University of Toronto.

The Branch is assisting in a special experiment in language-teaching methods which is being carried out as a co-operative project by the Department of Citizenship and Immigration, the Linguistic Society at the University of Toronto, and the Toronto Board of Education.

CO-OPERATION

In order to provide the most efficient service that is possible, the Branch continued to work in close co-operation with the following agencies: Canadian Association for Adult Education; Citizenship Branch of the Department of Citizenship and Immigration; University Extension Departments; Ontario Federation of Home and School Associations; Folk School Council; Ontario Department of Agriculture; Ontario Department of Public Welfare; Ontario Association of Film Councils; Ontario Recreation Association; Ontario Field Naturalists; Museum Association; Ontario Tuberculosis Association; and various sport associations.

Correspondence Courses

GENERAL INFORMATION

The Correspondence Courses Branch provides correspondence courses for Ontario persons who are unable to attend school. The courses include academic subjects (Grade 1 to 13) and seven trade courses (Automobile Mechanics I and II, Carpentry I and II, Machine Shop Practice I and II, and Radio Theory and Practice I). All academic courses are free and are available to residents of Ontario wherever they may be living. Trade courses are available to residents of all provinces at \$10 a course.

TRENDS

All correspondence courses have been prepared by teachers in the schools. All secondary school lessons are marked by teachers in the schools, and each year an increasing number of elementary school lessons are being sent out to the schools to be marked. This trend will continue until all lessons are marked by classroom teachers.

Although the number of children being enrolled continues to decrease, the number of adults enrolling, especially at the secondary school level, has been increasing at such a rapid rate that, of all students admitted during 1956, 89% were 16 years of age or over, and 72% of these were under the age of 30.

ENROLMENT

The active enrolment in elementary school courses on November 30, 1957 was 690, which included 57 in bilingual courses, and 184 adults. At the same date there were 2,513 persons enrolled in academic courses at the secondary level and 53 in trade courses.⁽¹³⁾

As in past years the majority of persons enrolled in the courses were residents of Ontario, although over two hundred were residents living temporarily outside Ontario. The Branch continues to supply courses to patients in sanatoria, and to inmates of penitentiaries, reformatories and training schools.

Examinations and Scholarships

DEPARTMENTAL EXAMINATIONS

Statistics showing the results of the Grade 13 examinations, as well as the number of Intermediate Certificates, Secondary School Graduation Diplomas, and Secondary School Honour Graduation Diplomas issued, will be found in tables 13 and 70.

DOMINION-PROVINCIAL STUDENT-AID BURSARIES

A programme of financial assistance to enable students of adequate ability to continue their education was inaugurated in Ontario in 1943. In that year, \$45,950 was awarded to Ontario students. In 1944 an agreement was made with the Dominion Government forming the Dominion-Provincial Student-Aid Bursary Programme, and since that time, over 16,000 awards totalling nearly \$3,500,000, have been made to students who would otherwise have been unable to complete their education because of lack of sufficient funds. In the school year 1956-57, complete figures show that 1,922 awards were made totalling \$469,625, of which \$100,000 was contributed by the Dominion Government.⁽¹⁴⁾

TRANSPORTATION ASSISTANCE

The transportation subsidies provided by the Department of Education, for persons who reside in the territorial districts and are enrolled in an eligible institution of university rank, have now been in operation for ten years.

In 1956 the sum of \$14,044.70 was paid to 646 students, of whom 430 resided east and 216 west of Sault Ste. Marie.⁽¹⁵⁾

⁽¹³⁾ See Table 79

⁽¹⁴⁾ See Table 71

⁽¹⁵⁾ See Table 72

SCHOLARSHIPS FOR STUDY OUTSIDE ONTARIO

In 1957, \$8,000 was available from the Consolidated Revenue Fund to provide four scholarships of \$2,000 each to teachers who are residents of Ontario, to enable them to carry on post-graduate work outside Ontario.

For the school year 1956-57, the holders of these scholarships were: Miss Marion W. Bell of Sir Adam Beck Collegiate Institute, London; Mrs. Helen E. J. Donaldson of Oakwood Collegiate Institute, Toronto; Mr. J. R. McAllister of the Ryerson Institute of Technology, Toronto; and Mr. John F. Stephenson of Fort William Collegiate Institute, Fort William.

TEACHER EXCHANGE

For the school year 1956-57, 25 Ontario teachers were on exchange—18 in the United Kingdom, 2 in other provinces, 2 in New Zealand, and 3 in the United States.

Guidance

SERVICES

The year 1957 showed a continued expansion and improvement of Guidance Services in Ontario schools, particularly in the major areas of counselling and testing. In even the smallest secondary schools, some attempt is now made to provide the facilities and staff necessary for an adequate service in Guidance. Almost all schools use the Ontario School Record System (OSR) for guidance purposes, and in many schools it has become the only official school record.

COURSES

A combined enrolment of 197 teachers in the three Departmental Summer Courses in Guidance was the highest since 1946. Nearly 1,400 Ontario teachers now have had at least the Elementary Summer Course in Guidance. During 1957, 28 teacher counsellors qualified as Guidance Specialists, and in the same period 1,084 principals, vice-principals, teachers and counsellors participated in short in-service training courses in Guidance held at centres as widely spread as Ottawa, Windsor, Sudbury, the Lakehead, Manitoulin Island, Terrace Bay, and London, in addition to many other towns, cities and rural areas.

Music

INSTRUCTION

Courses in Music under qualified music teachers were provided in more than 83% of the elementary schools of the province. Music was also taught in 340 secondary schools. There were 250 school choirs, 118 bands and 88 orchestras in these schools, and 33 operas were performed during the year. Music festivals, competitive and non-competitive, were held in all parts of the province.⁽¹⁶⁾

TEACHER EDUCATION

There were 955 certificated teachers and supervisors engaged in the elementary schools, and 346 in the secondary schools of the province during the school year 1956-57. Music is taught in all the teachers' colleges, and there was an enrolment of 597 teachers at the Summer Courses in Music in 1957.

⁽¹⁶⁾ See Table 82

MUSIC OPTION

Music is an optional subject in secondary schools, and pupils may obtain standing either through the regular school course or by presenting the certificates of certain accredited examining bodies. In 1957, Grade 12 standing was attained by 1,547 pupils. Credit in Music toward a Secondary School Honour Graduation Diploma was obtained by 261 pupils who tried the Departmental Grade 13 Examinations and by 708 pupils who presented equivalent certificates.

RADIO

Twenty-four music broadcasts were presented in four series during January, February and March. "Primary School Music," five 15-minute programmes for Grades 1 to 3; "Junior School Music," five programmes for Grades 4 to 6; "Music for Young Folks," ten 30-minute programmes for Grades 7 to 10; and "Ontario Sings," four 15-minute programmes for Grades 5 to 8, were broadcast with commentary prepared and given in each case by the Director of Music of the Department of Education.

CONCERTS

The concert series sponsored by the Department of Education for ten years was continued. Altogether 1,115 concerts have been provided in smaller communities throughout the province, and 312 young artists have been assisted in the beginnings of their professional careers. In 1956-57, 32 artists gave 40 concerts in 14 towns.

Ontario School for the Blind ENROLMENT

There were 181 students enrolled at the Ontario School for the Blind in September 1957. Of these 15 were from Alberta, 31 from Saskatchewan, 22 from Manitoba, 2 from Quebec, 1 from Peru, and 110 from Ontario. Of these students, 33 enrolled in the school for the first time, replacing 32 who withdrew in June because of graduation or other reasons.⁽¹⁷⁾

PROGRAMME

The programme of the school follows the provincial course of study for Grades 1 to 12, and every effort is made to meet the individual needs of the students. Special attention is given also to the physical, musical and social development of the pupils. Home Economics and allied crafts are emphasized with the girls, and Manual Arts with the boys. Seven students completed Grade 12 standing in June, qualifying for Secondary School Graduation Diplomas while five were successful in Royal Conservatory of Music examinations. Seven graduates of recent years are currently attending universities—five in Ontario and two outside of the province.

Ontario School for the Deaf ENROLMENT

The enrolment of the Ontario School for the Deaf on September 15, 1957, was 409. Most of these pupils were profoundly deaf. Their hearing losses in the better ear, as determined by the use of the pure-tone audiometer, were as follows: 90-100 decibels, 242 pupils; 80-89 decibels, 57 pupils; 70-79 decibels, 49 pupils; 60-69 decibels, 38 pupils; 50-59 decibels, 18 pupils; 40-49 decibels, 5 pupils. The five pupils with losses under 50 decibels were not only hard-of-hearing, but lived in communities where special provision could not be made for their education.⁽¹⁸⁾

⁽¹⁷⁾ See Table 81

⁽¹⁸⁾ See Table 80

PROGRAMME

Basic academic and vocational training formed the core of the school's programme. Emphasis on academic subjects for selected senior students was continued. Physical education and participation in interschool athletics with secondary schools provided valuable social and physical training. School plays and pageants were presented to large audiences in the school auditorium, and Wolf Cub, Boy Scouts, Brownie, Girl Guide, Art Club, and Handicraft Club activities continued to flourish under the leadership of members of the teaching staff.

Physical and Health Education

SERVICES

The Branch continued to work toward its objective of programme improvement. During 1957 steady progress toward this objective was made in various ways. The staff of the Branch spent more time in areas where the local or district inspector had noted situations that needed help. Teachers were encouraged to meet together in order to share in the identification and solution of their problems.

The Ontario Physical Education Council with representatives from elementary and secondary school teachers, teachers' colleges, Ontario College of Education, universities, and the Physical and Health Education Branch, took steps to increase recruitment and to study problems of certification.

ONTARIO ATHLETIC LEADERSHIP CAMP

Four hundred and fifty-six secondary school boys and girls were selected, on the basis of high academic standing, service to a school organization and activity on a school athletic team, to attend a two-week leadership course at the camp. A wide variety of athletic and camp activities was used as the medium to give these potential leaders experience in organization and evaluation. These school representatives leave camp challenged with a sense of responsibility to give service to their school and community when given an opportunity. There is evidence that a large percentage of these leaders are entering the teaching profession.

This camp site provided facilities for a work conference of the Society of State Directors of Physical Education and Health. Thirty-three states and four provinces were represented.

ONTARIO CAMP LEADERSHIP CENTRE

There were 220 counsellors-in-training selected by non-profit camps to complete the three weeks' leadership course and return to give further service to the camp sponsoring them. The 3000 acre camp site offered excellent opportunities for leadership experiences through nature lore, camp craft, water safety, planning and evaluation of a variety of camp activities. Members of the camp staff, by field visits, follow up the work of the counsellors and study the effectiveness of the course.

This camp was chosen for the first Camp Directors' and Committee Members' Work Conference to be held for non-profit camps. Seventy-five representatives from camps across Ontario attended this conference.

Besides making use of this service for training counsellors, 350 non-profit camps have applied for grants to assist their work. These grants paid in 1957 were in excess of \$43,000.

Public Libraries

BUILDINGS

It is interesting and gratifying to observe that the movement of the past few years towards improvement in the housing of public libraries appears to be gaining rather than losing momentum. This movement is not by any means confined to the larger and wealthier municipalities. Thirteen municipalities are listed as having undertaken library building operations in 1957, for a total expenditure of more than \$820,000. Ottawa spent over \$300,000; Hamilton about \$200,000; Peterborough, \$135,000; Windsor, \$95,000; Port Colborne, \$70,000; Waterdown, \$10,000; Pembroke, \$2,800; Fort Frances, \$2,000; Sutton, \$1,500; Creighton Mine, \$1,000; Hickson, \$1,000; and Pelee Island, \$400.

Ontario mobile libraries now total 30, two new book trailers having been purchased for North York, and another book mobile for Scarborough Township.

GRANTS AND TAX LEVIES

Legislative grants to all the libraries, public, association and county, amounted to \$990,000, or \$115,000 more than in the previous year. Local tax levies in support of public libraries reached an average of 91 cents per capita of the municipalities concerned. This is an increase of 6 cents per capita. The total per capita expenditure on public library service (which excludes county and association libraries) shows a startling, and much needed, increase of 19 cents per capita. It now stands at \$1.60.

THE USE OF LIBRARIES

The more generous support indicated above has enabled the libraries to offer improved service to the people. The increase in use of public library books in 1956 was 1,297,245 over that of 1955, or more than 5%. The total number of books borrowed in 1956 was 19,667,000. The total number of children and adults using the libraries was 3,645,000.

RURAL SERVICE

The number of books provided by the county library co-operatives and issued for individual use through public libraries, library associations and rural schools, grows each year, although not to the extent that might be hoped. The fact is that the county libraries seem to be coming to the end of the pioneering aspect of their task. They have explored and developed the reading potential of the rural population in many parts of the province to a point at which they can no longer, in their present form, keep pace with the demands that they themselves have been so powerfully instrumental in creating.

On the other hand, the first regional library co-operative in the province, established under 1957 legislation and embracing the districts of Thunder Bay and Rainy River, being still in the early stages of its development, proceeds upon its task with lusty vigour and is achieving most satisfactory results.

TRAVELLING LIBRARIES

Travelling Library service is reported on for 11 months only, from January 1 to November 30, 1957. No comparison with the work of the previous year, therefore, can be made, although the indications are that, by the end of 1957, the use of this service will have increased. For the eleven months of 1957, 1,404 cases were sent out. Of these, 1,110 went to rural schools in counties and districts where there is no local library co-operative, while the remainder went to secondary schools, small libraries, women's institutes, and other organizations. From the 1,404 cases sent out, 66,844 books were used.

The distribution of a new catalogue of the Teachers' Professional Library, a branch of the Travelling Libraries service, has resulted in the collection being more widely used by the rural teachers.

Public Records and Archives

BUILDING

For the Archives the outstanding event of the year was the erection of the addition to the Archives Building. The addition was practically completed by the end of 1957, and the available space was thus increased by about 50%.

MANUSCRIPT DIVISION

Government Records—In 1957 the Ontario Archives received files and photographs relating to Ontario House, London (1909-1934); the files of the Research Council of Ontario (1948-1954), both from the Department of Planning and Development; and the complete files transferred by the Department of Municipal Affairs of the records of the villages of Ontario for the first five years after their incorporation.

Inventories were prepared for the material which was received, and also for a large volume of files relating to the Communist Party of Canada (1925-1931) received some time ago from the Attorney-General's Department. Early records of the Hydro Electric Power Commission of Ontario (1920-1929) have also been processed. An inventory of a large collection of Labour Department records is being prepared, and work continued on the Department of Education records and Crown Land records.

Municipal, Legal and Land Records—Four interesting manuscript volumes relating to the Newcastle District were received from the Cobourg Historical Society.

For some time the Archives has been collecting a certain number of municipal records; because of lack of space, however, only a very small proportion of the records of the very larger number of municipalities in Ontario could be collected, even if the municipalities were allowed to part with them. This year, with the sponsorship of the Ontario Historical Society, permission was secured by the Genealogical Society of Salt Lake City to begin to microfilm the municipal and legal records of the counties of Ontario from the earliest times of which records are available to about 1900. A positive copy of every reel of film is given to the Archives without charge. These microfilm copies of records will be of great assistance to genealogists, but they should also prove of much value to local historians. The reels already received cover municipal, land, and church records for the counties of Middlesex and Kent.

Non-Government Records—This year the Archives has acquired a number of important collections of private papers, including those of the Honourable and Reverend Canon H. J. Cody, of the Honourable N. Clarke Wallace (M.P. for West York, 1878-1901), and of the MacLean-Howard family of Toronto. Additions to the Canada Company papers, the Nelles family papers, and the papers of Sir James and Lady Edgar have also been received. During the year the minute book of the Clergy Corporation of Upper Canada (1819-1835) was discovered in the Archives of the Anglican Diocese of Toronto. This was borrowed and a microfilm copy made.

Considerable progress has been made in organizing and describing private manuscript material, especially of the larger and more important collections. A chronological list of the Canadian papers of Lieutenant-Governor Simcoe, as well

as a name index to them, has been prepared. The organization of the Edward Blake papers has been completed and an inventory made. Another accomplishment has been the compiling of a detailed chronological description of the W. L. Mackenzie correspondence in the Mackenzie-Lindsey papers. The task of organizing the Canada Company papers and preparing an adequate guide to them is under way. Some work has also been done on the three principal collections which were received during the year; for instance a preliminary report on the Cody papers was compiled.

THE READING ROOM

The number of persons using the facilities of the reading room to the 30th of November was 1,474 in 1957, an increase of 223 over 1956.

THE LIBRARY

The books, pamphlets and government documents received during the year have been catalogued. Among these were books and periodicals received from the Ontario Historical Society, some early pamphlets and calendars lent for microfilming by the Niagara Historical Society, and the published material from the manuscript collections.

NEWSPAPERS

With regard to Ontario newspapers, efforts were concentrated during the year on microfilming. The files of the *Toronto Patriot* for several years after it began to be published (1853) were placed on film, and a number of years of the *Farmers' Sun* and the *Orillia Packet and Times* were similarly made available.

MAPS AND PICTURES

No early original maps were acquired during the year. Current topographic maps from the Department of Mines and Technical Surveys are being received regularly. Maps from various departments of the Ontario Government are also received from time to time. A number of the older and more valuable maps have been repaired and reinforced.

The preparation of a card catalogue for the picture collection has begun. Since it will include reference to secondary subject matter, it will greatly increase the utility and value of the collection. During the year 24 additions were made. Three of these were: an engraving of Sir John Beverley Robinson by Hoppner Meyer; a coloured photograph of a portrait of Colonel Alexander McKee (d. 1799), Superintendent of Indian Affairs; and coloured photographs of portraits of Captain and Mrs. Thomas G. Anderson.

School Attendance

ENROLMENT

The total enrolment in elementary and secondary schools in September, 1957 was 1,174,642, an increase of 77,141 over the preceding year. The elementary schools showed an increase of 59,221, and the secondary schools an increase of 17,920. For the school year 1956-57, the attendance efficiency of all elementary schools was 93.5%; of secondary schools, 94.9%⁽¹⁹⁾

⁽¹⁹⁾ See Tables 1, 4, and 7.

COMPULSORY SCHOOL AGE

Children who have attained the age of six years on or before the first school day in September are required to attend school from that date until the last school day in June of the calendar year in which they attain the age of 16 years.

A child may be granted a home permit or an employment certificate if his services are urgently needed at home, or in some gainful occupation elsewhere. A child under 14 years of age may be granted a home permit or an employment certificate for a period not covering more than six weeks in a term.

EMPLOYMENT

The number of home permits issued during the year 1956 was 1,663, an increase of 171 over 1955. The number of employment certificates issued was 5,169, an increase of 874 over 1955.

The increase in home permits and employment certificates was largely due to increased enrolment, and a stricter enforcement of the regulations. Fewer pupils are being absent for extended periods without home permits or employment certificates.

Trade Schools

Schools which are privately owned and operated and which are designated as trade schools under the Trade Schools Regulation Act and registered in 1957 with the Department of Education, numbered 166. This number includes six schools which ceased to operate during the year and 12 new schools or branches which were opened.

The demand for welders on the Trans-Canada Pipeline was probably responsible for the many enquiries from persons interested in schools in this field. Three new schools were registered to teach welding. They are situated in Sarnia, Windsor and Hamilton.

Standards in the schools are being maintained in relation to the quality of teaching, the accommodation, and the equipment. To maintain these standards, an increase in fees has been necessary.

In Memoriam

GEORGE A. CAREFOOT, B.A., B.Paed. Inspector of Public Schools, Lincoln County, from 1917 until his retirement in 1941, died suddenly on February 5, 1957, at Thorold.

DR. MCGREGOR EASSON, who retired as Chief Inspector of the Ottawa Public Schools on July 31, 1949, died in Ottawa on April 18, 1957.

RAYMOND R. MAURICE, B.A., passed away suddenly at the age of 54 at his home in Haileybury on December 5, 1957. Mr. Maurice was born in the Town of Sturgeon Falls and received his elementary and secondary education there. He then attended Sacred Heart College, Sudbury, from which he graduated in 1926. After attending normal school, he taught until 1931, when he was appointed public and separate school inspector. In 1934, he was transferred to the Haileybury Division, where he served as an inspector until his death. For his contribution to education, he was honoured in 1955 by L'Association canadienne-française d'Education d'Ontario, which awarded him the diploma of L'Ordre du mérite scolaire.

ROBERT H. ROBERTS, M.A., who retired from the position of Master, London Teachers' College, in 1951, died on September 2, 1957. Born in Perth County, Mr. Roberts attended secondary school in Stratford, and graduated with the M.A. degree from McMaster University. His early career as a teacher and inspector was pursued in Alberta, but in 1923 he returned to Ontario and joined the staff of London South Collegiate Institute. He was appointed to the Public Service of Ontario in 1928, serving as Public School Inspector in Waterloo North, 1928-35; York No. 1, 1935-38; and Leeds No. 1, 1940-42; and as Master in Peterborough Normal School, 1938-40, and in London Teachers' College, 1942-51. He was a specialist in the teaching of mathematics, but his special enthusiasms were health education and the education of the gifted child; his activities in these two fields continued after his retirement. Mr. Roberts was energetic and persistent in crusading for the realization of his educational ideals.

DR. EDWARD T. SEATON, Inspector of Public Schools for the City of Hamilton from 1922 until he retired in August, 1939, died in Hamilton on February 4, 1957, in his ninety-third year.

Retirements

C. C. ASHCROFT, B.A.Sc., B.Paed., Principal of the Hamilton Institute of Technology, retired from the service September 16, 1957. Mr. Ashcroft commenced his service with the Department of Education in November, 1930, as a member of the staff of the Ontario Training College for Technical Teachers. Following the retirement of the principal, Mr. F. P. Gavin, in December, 1944, Mr. Ashcroft assumed the principalship. In 1946, as a part of the plan for centralizing teacher training, the Ontario Training College for Technical Teachers became part of the Ontario College of Education, and the former college was reorganized into the Provincial Institute of Textiles, with Mr. Ashcroft as its first principal. In 1956, the Provincial Institute of Textiles was reorganized becoming the Hamilton Institute of Technology, with courses added in Electrical, Electronic and Mechanical Technologies, and Mr. Ashcroft continued as principal until his retirement.

LEONARD F. BISHOP, Bursar at the Ontario School for the Blind, retired from this position September 1, 1957. He received his elementary education in Brantford and his secondary education in Ridley College. After completing one year at McGill University, Mr. Bishop joined the army. He served almost continuously in the Canadian Militia from 1909 until 1942. His entire military career was in the cavalry

and, upon retirement from the army, he held the rank of Lieutenant Colonel. Mr. Bishop was awarded the efficiency decoration for his outstanding service. He was appointed bursar at the Ontario School for the Blind on April 1, 1949.

H. BOWERS, M.A., D.Paed., retired as Principal of the Stratford Teachers' College on August 31, 1957. Born in Northern Ireland, Dr. Bowers is an honour graduate of Trinity College, Dublin, holding its Master of Arts degree and the degree of Doctor of Pedagogy from the University of Toronto. He served in the secondary schools of Ontario as a teacher in Exeter and as principal in Fergus, prior to his appointment to the staff of the Ottawa Normal School in 1930. During World War II he was an education officer with the R.C.A.F., and upon his discharge, was appointed to the principalship of the Stratford Normal School in September, 1944. Dr. Bowers is the author of a number of books in science, mathematics, and psychology. Through his work as a teacher, principal, and writer he has influenced the careers of many young people. His former associates will miss the scholarly leadership which he has given in the field of teacher education.

OLIVE M. BROWNLEE, M.A., Secondary School Inspector of Home Economics, retired as of June 30, 1957 to become the wife of Mr. D. W. Gordon, also of the Secondary Education Branch. Miss Brownlee is a graduate in Arts of Victoria College, University of Toronto, and received the degree of Master of Arts from Teachers' College, Columbia University. She then attended the Ontario College of Education, and took the work leading to a First Class Elementary School Teaching Certificate and the High School Specialist's Certificate in Home Economics. Before joining the Department in 1948, she had teaching experience in both general subjects and Home Economics in the elementary school field, and also at Central Technical School, Toronto, in both Home Economics and Guidance. Miss Brownlee's keen interest in her subject, and her sympathetic understanding of the problems of the teachers whom she visited, made her work as an inspector extremely effective.

H. ELMER CAVELL, M.A., B.Comm., B.Paed., Assistant Superintendent of Public Schools, Toronto Board of Education, retired on July 31, 1957. Mr. Cavell was born in Teeswater, Bruce County. He attended public school in Woodstock and Ingersoll. His secondary school education was secured at Listowel. He attended Peterborough Normal School and, later, the Faculty of Education of the University of Toronto. In 1916 he graduated from Queen's University with his Master of Arts and Bachelor of Commerce degrees. As a result of post graduate studies, he obtained his Bachelor of Pedagogy degree from the University of Toronto. Mr. Cavell has had experience in all types of schools. He taught in rural schools in Oxford and Grey Counties and in Chesterville Public School. In 1912 he joined Kent School to take charge of commercial classes. He was promoted to the principalship of Deer Park School in 1925 and later served as principal of Brock and Williamson Road Schools. In 1930 Mr. Cavell was appointed a public school inspector in the City of Toronto. In 1954 he was promoted to the office of Assistant Superintendent of Public Schools.

Mr. Cavell was interested in all phases of educational work. He was the joint author of a text in English for Grades 9 and 10. He was president of the Ontario School Inspectors' Association 1956; a director of the Canadian Association of School Superintendents and Inspectors 1955-1957; Chairman of the Junior Red Cross Committee for Toronto and district 1944-1957; and Honorary Secretary of the Red Cross, Toronto Branch, 1950-1957. Mr. Cavell has the unique distinction of having been a member of each of the first four committees to receive the V. K. Greer Award.

WILLIAM J. GREENING, B.A., B.Paed., retired as Separate School Inspector for Port Arthur R.C.S.S. Division on November 4, 1957. He was appointed to this area September 1, 1930, as a successor of Mr. F. J. McDonald, B.A. Prior to his appoint-

ment he taught in the De La Salle separate school and in the preparatory school of St. Michael's College. His devoted service to schools in a particularly extensive geographical area will be recalled with gratitude by the teachers and pupils with whom he was associated.

FLORENCE E. JOHNSTON retired as Supervising Teacher for Carleton No. 1 and Russell No. 1 on August 31, 1957. Miss Johnston was born in Forfar near Portland, Ontario, where her elementary education was obtained. She attended Athens High School and Ottawa Normal School, and began her career as a teacher in a rural school of one room in S.S. 13 Nepean. After several years Miss Johnston joined the staff of the public schools in Westboro, on the outskirts of Ottawa. In 1937 she was appointed supervising teacher to assist the inspector of public schools for Carleton County. She continued in this capacity until her retirement and worked with several inspectors, each of whom spoke highly of her co-operation and excellent assistance. Miss Johnston was particularly interested in the work of the primary grades, and will be remembered by teachers and pupils as a sympathetic and helpful visitor of the schools in Carleton County.

ISABEL E. MCKONE retired from the position of Instructor in Home Economics at the Peterborough Teachers' College on August 31, 1957. Mrs. McKone is a graduate of the London Normal School and the Lillian Massey School of Home Economics. Her early teaching experience included service in the schools of Ontario, British Columbia, and Great Britain. In London, Ontario, she was first a teacher of Home Economics and then the supervisor of instruction in that subject. She taught on the staff of three teachers' colleges—London 1934-1942, Toronto 1946-1953, and Peterborough 1953-1957. As Dean of Women in these institutions, she assisted many hundreds of students with her counsel. Her instructional skill and sterling character enabled her to make a lasting contribution to teacher education.

ADAM MCLEOD, B.A., retired on December 31, 1957 from the position of Provincial School Attendance Officer after serving 35 years with the Department of Education. Mr. McLeod was born in Ripley, Bruce County. He received his elementary and secondary education in the Rainy River District, and taught in a rural school in Saskatchewan. He served overseas in the First World War with the 52nd Battalion, and was wounded in February, 1918. After his discharge from the armed forces, he attended Toronto Normal School, and taught in rural schools in Bruce County. From 1922 to 1941 Mr. McLeod was on the staff of the Toronto Normal Model School where he was appointed headmaster in 1941. In 1942 he graduated extramurally from the University of Toronto, and in 1942-43 was supervising teacher in Kent County. In 1944 he became Director of Correspondence Courses and was appointed Provincial School Attendance Officer in 1949. His former associates in the Department of Education join with his many other friends in wishing him continued good health and happy leisure in the years ahead.

LESLIE P. MENZIES, B.A., B.Paed., Inspector of Public Schools for Wellington No. 1, retired on August 31, 1957. He was born in Moore Township, Lambton County, and obtained his elementary school education in S.S. 15 Moore. He attended the Sarnia Collegiate Institute and obtained his teacher education at the Model School in Sarnia and the Faculty of Education in Toronto. In 1913 Mr. Menzies received the Bachelor of Arts degree from the University of Toronto, and in 1923 he completed post-graduate study resulting in a Bachelor of Pedagogy degree. His first teaching experience was in the Mooreline rural public school. He taught science in secondary schools in Toronto, Petrolia and Fergus. For three years he was principal of the Lucan High School and for five and one-half years he was principal of the Strathroy Collegiate Institute. In 1929 he was appointed Public School Inspector for Wellington No. 1, a position which he held until retirement. Mr. Menzies was highly regarded in the county in which he gave many years of splendid service.

WILLIAM J. STEWART, M.A., B.Paed., retired as Public School Inspector for Dundas No. 1 on August 31, 1957. He was born in Waterloo County and began his education in S.S. 5 Proton. He attended Dundalk Continuation School, Durham Model School and the Hamilton Normal School. He received the Bachelor of Arts degree from Queen's University, the Master of Arts degree from the University of Ottawa and the Bachelor of Pedagogy degree from the University of Toronto. After teaching in rural schools in Grey County for four years, Mr. Stewart taught for one year on the St. Catharines Public School staff and for nine years on the Ottawa Public School staff. On July 1, 1930, Mr. Stewart was appointed Public School Inspector for the County of Dundas, a position which he filled with understanding for 27 years. He was particularly interested in improving the rural schools of his inspectorate and assisted in having several larger units of administration established. His faithful work in the schools of Dundas County earned for him the respect of the teachers and pupils alike.

Service Record

DIED IN SERVICE

- R. R. Maurice.....Elementary School Inspector, Elementary Education Branch, December 5, 1957.
C. H. Norman.....Technological Instructor, Provincial Institute of Trades, June 15, 1957.

RETIREMENT

- L. F. Bishop.....Bursar, Ontario School for the Blind, September 1, 1957.

RETIREMENTS ON SUPERANNUATION

- C. C. Ashcroft.....Principal, Hamilton Institute of Technology, September 16, 1957.
Dr. H. Bowers.....Principal, Stratford Teachers' College, September 1, 1957.
W. J. Greening.....Elementary School Inspector, Elementary Education Branch, November 4, 1957.
Miss F. E. Johnston.....Supervising Teacher, Elementary Education Branch, September 1, 1957.
Mrs. I. E. McKone.....Instructor, Peterborough Teachers' College, September 1, 1957.
A. McLeod.....Provincial School Attendance Officer, Special Educational Services Branch, December 31, 1957.
L. P. Menzies.....Elementary School Inspector, Elementary Education Branch, September 1, 1957.
W. J. Stewart.....Elementary School Inspector, Elementary Education Branch, September 1, 1957.

RESIGNATIONS

- Mrs. O. M. Gordon.....Secondary School Inspector, Secondary Education Branch, June 30, 1957.
Miss M. G. Manchester....Stratford Teachers' College, Teacher Education Branch, January 28, 1957.

PROMOTIONS

- V. J. Byers.....Principal, Eastern Ontario Institute of Technology,
formerly Master, Ryerson Institute of Technology,
September 1, 1957.
- W. G. Chatterton.....Assistant Superintendent, Elementary Education Branch,
formerly Elementary School Inspector, September
1, 1957.
- W. K. Clarke.....Director, Auxiliary Education Services, formerly Special
Services Inspector, September 1, 1957.
- D. H. Craighead.....Principal, Hamilton Institute of Technology, formerly
Master, Ryerson Institute of Technology, August 1,
1957.
- G. O. Dickinson.....Principal, Stratford Teachers' College, formerly Acting
Principal, London Teachers' College, September 1,
1957.
- A. L. Lakie.....Assistant Superintendent, Secondary Education Branch,
formerly Secondary School Inspector, August 1,
1957.
- H. M. Matthews.....Registrar of Trade Schools, formerly Secondary School
Inspector, Secondary Education Branch, January 1,
1957.
- R. J. McNaughton.....Assistant Superintendent, Elementary Education Branch,
formerly Elementary School Inspector, September
1, 1957.
- C. B. Routley.....Superintendent of Professional Development, formerly
Assistant Superintendent, Elementary Education
Branch, June 1, 1957.
- J. F. Stinson.....Assistant Superintendent, Special Educational Services
Branch, formerly Director, Auxiliary Education
Services, September 1, 1957.
- R. H. Wallace.....Assistant Superintendent, Secondary Education Branch,
formerly Secondary School Inspector, June 1,
1957.
- J. C. Wilker.....Assistant Superintendent, Elementary Education Branch,
formerly Elementary School Inspector, September
1, 1957.

TRANSFERS

(A) Between Branches

- J. B. Healy.....Assistant Superintendent of Professional Development,
formerly Assistant Superintendent, Teacher Educa-
tion Branch, July 1, 1957.
- J. F. Kinlin.....Secondary School Inspector, Secondary Education
Branch, formerly Elementary School Inspector,
Elementary Education Branch, September 1, 1957.
- J. R. McCarthy.....Assistant Superintendent of Curriculum and Text-books,
formerly Assistant Superintendent, Elementary
Education Branch, April 1, 1957.
- R. M. Surtees.....Elementary School Inspector, formerly Master, North
Bay Teachers' College, September 1, 1957;
Inspectorate, North Bay R.C.S.S. Division No. 2.

(B) In Elementary School Inspectorates

- J. D. Bougie from Toronto R.C.S.S. Division No. 6 and Simcoe No. 11 to Sudbury R.C.S.S. Division No. 2 and Sudbury No. 12 and Algoma No. 11, September 1, 1957.
- L. Carrière from Ottawa R.C.S.S. Division No. 1 to Ottawa R.C.S.S. Division No. 5 (new inspectorate) and Russell No. 12 (new inspectorate), September 1, 1957.
- F. P. Cunningham from North Bay R.C.S.S. Division No. 2 to Hamilton R.C.S.S. Division No. 1, to assist Inspector J. V. Scanlan, September 1, 1957.
- L. J. Dupuis from Ottawa R.C.S.S. Division No. 2 to Ottawa R.C.S.S. Division No. 6 (new inspectorate), September 1, 1957.
- G. C. Filion from Sudbury R.C.S.S. Division No. 2 and Sudbury No. 12 and Algoma No. 11 to Hawkesbury R.C.S.S. Division and Prescott No. 12, September 1, 1957.
- A. E. Gillies from Simcoe No. 4 and Grey No. 4 to Lincoln No. 3, September 1, 1957.
- D. E. Kennedy from Cochrane No. 1 to Muskoka No. 1, Nipissing No. 3 and Parry Sound No. 2, September 1, 1957.
- J. R. Lalonde from Sudbury R.C.S.S. Division No. 3 and Sudbury No. 13 to Sudbury R.C.S.S. Division No. 1 and Sudbury No. 11, September 1, 1957.
- P. E. Piché from Sudbury R.C.S.S. Division No. 1 and Sudbury No. 11 to Ottawa R.C.S.S. Division No. 1 to assist Dr. A. Gascon, September 1, 1957.
- C. A. Rath from Carleton No. 1 and Russell No. 1 to Carleton No. 3 (new inspectorate), September 1, 1957.
- D. I. Young from Haldimand No. 1 to Toronto Metropolitan Area (York), September 1, 1957.

APPOINTMENTS

(A) By Boards which employ their own supervisory officers:

City of Brantford

R. N. MacLeod, Assistant Superintendent of Public Schools, September 1, 1957.
R. C. Davis, Public School Inspector, September 1, 1957.

City of Hamilton

J. W. VanLoon, Assistant to the Superintendent of Public Schools, September 1, 1957.
W. A. Tindale, Public School Inspector, September 1, 1957.

Middlesex No. 4 (London Township School Area No. 2)

G. S. Sleightholm, Superintendent of Public Schools, September 1, 1957.
C. W. Roberts, Public School Inspector, September 1, 1957.

City of Oshawa

W. J. MacDonald, Public School Inspector, May 1, 1957.

City of Sarnia

H. F. Froud, Superintendent of Public Schools, March 4, 1957.
B. A. McPhedran, Public School Inspector, September 1, 1957.

Toronto Metropolitan Area (City of Toronto)

R. S. Godbold, Public School Inspector, July 1, 1957.

Toronto Metropolitan Area (Etobicoke)

L. W. Smith, Assistant Superintendent of Public Schools, September 1, 1957.

Toronto Metropolitan Area (North York)

P. D. Windrim, Public School Inspector, September 1, 1957.

(B) By Province of Ontario:

Miss N. A. Arkles.....Instructor, Hamilton Teachers' College, September 1, 1957.

J. G. Beaulieu.....Elementary School Inspector, Elementary Education Branch, September 1, 1957; Inspectorate Simcoe No. 11 and Toronto R.C.S.S. Division No. 6.

R. G. Boyce.....Elementary School Inspector, Elementary Education Branch, September 1, 1957; Inspectorate, Cochrane R.C.S.S. Division No. 1.

T. R. Brown.....Elementary School Inspector, Elementary Education Branch, September 1, 1957; Inspectorate Halldemand No. 1.

A. T. Carnahan.....Master, London Teachers' College, September 1, 1957.

F. L. Carver.....Master, Toronto Teachers' College, September 1, 1957.

F. J. Clute.....Director of Guidance Services, Special Educational Services Branch, January 1, 1957.

P. Cremasco.....Master, Hamilton Teachers' College, September 1, 1957.

R. H. Field.....Elementary School Inspector, Elementary Education Branch, September 1, 1957; Inspectorate Renfrew No. 4.

Miss M. H. E. Glover.....Master, London Teachers' College, September 1, 1957.

D. F. Harris.....Master, London Teachers' College, September 1, 1957.

Miss F. R. Hignell.....Instructor, London Teachers' College, September 1, 1957.

M. N. Hutchinson.....Elementary School Inspector, Elementary Education Branch, September 1, 1957; Inspectorate Dundas No. 1.

A. J. Johnson.....Master, North Bay Teachers' College, September 1, 1957.

J. F. Laforet.....Master, London Teachers' College, September 1, 1957.

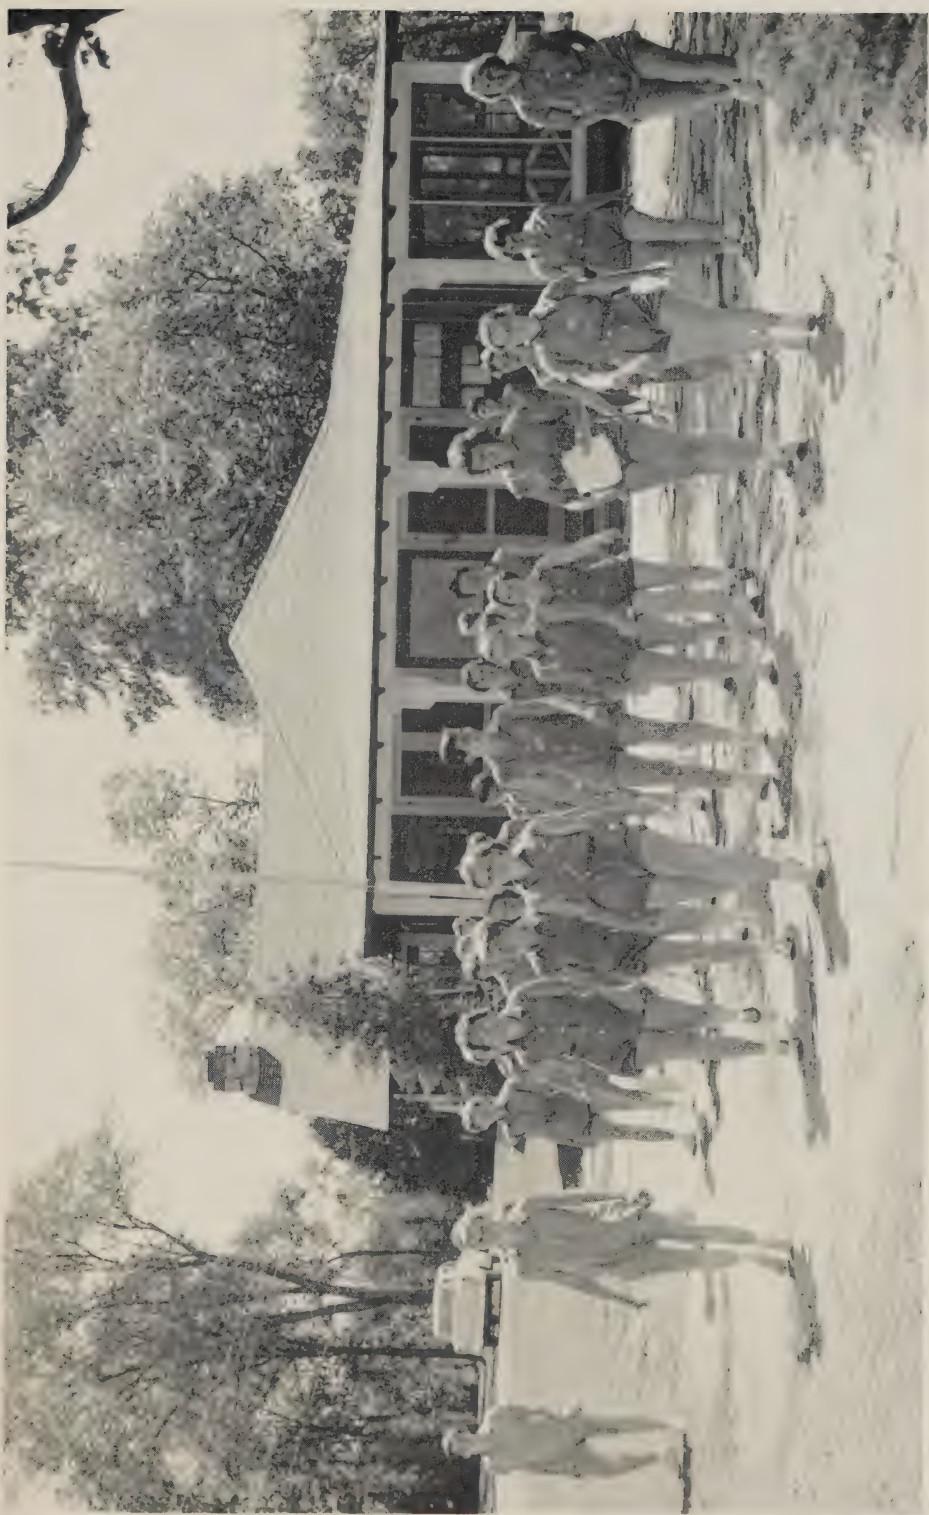

J. F. Leonard.....Elementary School Inspector, Elementary Education Branch, September 1, 1957; Inspectorate, Port Arthur R.C.S.S. Division (assisting Mr. Greening until his retirement on November 4, 1957).

L. E. MacCrimmon.....Master, Peterborough Teachers' College January 1, 1957.

F. J. MacDonald.....Elementary School Inspector, Elementary Education Branch, September 1, 1957; Inspectorate Simcoe No. 6 and Barrie R.C.S.S. Division.

- W. G. MacDonald.....Elementary School Inspector, Elementary Education Branch, September 1, 1957; Inspectorate Middlesex No. 3 (assisting).
- J. A. Martin.....Elementary School Inspector, Elementary Education Branch, September 1, 1957; Inspectorate Thunder Bay No. 4, and Rainy River No. 2.
- Miss M. J. McLellan.....Master, Peterborough Teachers' College, September 1, 1957.
- J. B. Mitchell.....Elementary School Inspector, Elementary Education Branch, September 1, 1957; Inspectorate Simcoe No. 4 and Grey No. 4.
- Miss G. R. Munnings.....Secondary School Inspector, Secondary Education Branch, August 1, 1957.
- K. D. Munroe.....Special Services Inspector, Special Educational Services Branch (Auxiliary Education), September 1, 1957.
- E. I. Nelson.....Elementary School Inspector, Elementary Education Branch, September 1, 1957; Inspectorate Wellington No. 1.
- J. O. Pelletier.....Elementary School Inspector, Elementary Education Branch, September 1, 1957; Inspectorate Sudbury No. 13, and Sudbury R.C.S.S. Division No. 3.
- E. R. Pipher.....Master, Hamilton Teachers' College, September 1, 1957.
- K. J. Regan.....Elementary School Inspector, Elementary Education Branch, September 1, 1957; Inspectorate London R.C.S.S. Division.
- E. H. Ryerson.....Bursar, Ontario School for the Blind, August 15, 1957.
- Miss V. E. Spera.....Librarian, Stratford Teachers' College, September 1, 1957.
- N. H. Stevenson.....Master, Hamilton Teachers' College, September 1, 1957.
- Mrs. J. K. Thurlow.....Master, Stratford Teachers' College, September 1, 1957.
- R. K. Vogan.....Elementary School Inspector, Elementary Education Branch, September 1, 1957; Inspectorate Carleton No. 1 and Russell No. 1
- J. Watson.....Master, Peterborough Teachers' College, September 1, 1957.
- M. R. Wilson.....Master, Toronto Teachers' College, September 1, 1957.

ONTARIO ATHLETIC LEADERSHIP CAMP, LONGFORD MILLS

STATISTICS

1. General

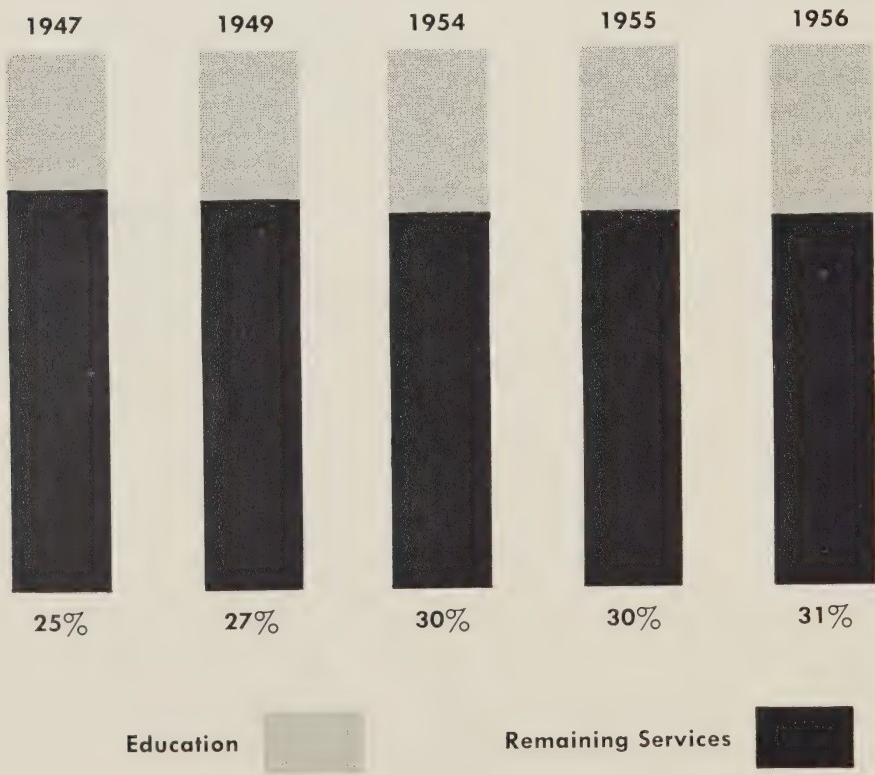

CHART 1. EDUCATION IN RELATION TO OTHER MUNICIPAL SERVICES

INCREASE IN EXPENDITURES, 1947-1956

(1947—100)

EXPENDITURE	1947	1949	1954	1955	1956
Education Levies, including debt charges.....	100.0	133.1	274.1	307.4	359.2
Remaining Municipal Services*.....	100.0	124.7	215.0	240.8	268.2
Municipal Taxation per Capita for Education.....	\$12	\$15	\$25	\$28	\$32

*The larger of these are: Public works; protection to persons and property; debenture principal and interest; general government; social welfare; sanitation and waste removal; conservation of health; recreation and community services.

G—THE SECONDARY SCHOOL GRADUATION DIPLOMA

Vocational Courses

	1956	1957
Number of Diplomas Issued		
Art Course.....	70	69
Commercial Course		
Accountancy.....	96	103
Clerical.....	225	242
General Business.....	1,349	1,384
General Business (Bilingual).....	8	13
Merchandising.....	34	42
Secretarial.....	236	250
Special.....	1,178	1,217
Special (Bilingual).....	17	35
Total, Commercial Course.....	3,143	3,286
Home Economics Course		
Clothing and Textiles.....	25	28
Food and Nutrition.....	12	10
Hairdressing and Beauty Culture.....	7	10
Homemaking.....	43	40
Salesmanship.....	2	4
Total, Home Economics Course.....	89	92
Industrial Course		
Aircraft Mechanics.....	15	17
Applied Electricity.....	274	280
Applied Electronics.....	50	55
Auto Mechanics.....	220	242
Chemistry.....	50	58
Drafting—Architectural and Building Construction.....	71	74
Drafting—Mechanical.....	207	210
Electrical and Steam Operating.....		3
Machine Shop Practice.....	292	295
Plastics.....		1
Plumbing.....	5	7
Printing.....	51	53
Sheet Metal Practice.....	36	45
Welding.....	14	16
Woodworking—Cabinet Making.....	7	7
Woodworking—Carpentry.....	49	51
Woodworking—General.....	74	80
Woodworking—Pattern Making.....	7	7
Total, Industrial Course.....	1,422	1,501
Total Number of Vocational Diplomas Issued.....	4,724	4,948

TABLE 72—TRANSPORTATION ASSISTANCE FOR PERSONS RESIDING IN THE TERRITORIAL DISTRICTS
1957-58

The Province of Ontario provided transportation assistance to 675 students during the school year 1957-1958. \$13,735.35 was paid to 470 students residing east of Sault Ste. Marie and 205 students residing west of Sault Ste. Marie. Of those assisted 230 were in the first year, 190 in the second year, 144 in the third year, 106 in the fourth year, 5 in the fifth year and 0 in the sixth year.

The institutions attended by these students were as follows:

Queen's University.....	193
University of Toronto.....	153
University of Western Ontario.....	158
University of Ottawa.....	49
Assumption College.....	43
Osgoode Hall Law School.....	37
Ontario College of Education.....	13
Ontario Agricultural College.....	13
MacDonald Institute.....	9
McMaster University.....	3
Sacred Heart College.....	3
Ontario Veterinary College.....	1

675

ADDITIONAL STATISTICS

Number of Free Libraries, November 1st, 1957.....	264
Number of Association Libraries.....	220
Number of County and District Libraries.....	15

Total.....	499
Branch Libraries.....	59
Bookmobiles (urban and suburban).....	15
Bookmobiles (county and district).....	13

Three new Free Libraries (Carmarvon Twp.; Maple; Toronto Twp.) were formed between November 1st, 1956 and October 31st, 1957.

Four new Association Libraries (Mount Brydges; Tottenham; Sioux Lookout; Trafalgar Twp.) were also formed.

Nine Association Libraries (Beachville; Bowmanville; Creighton Mine; Iroquois; Mount Brydges; Napanee; Ripley; Trafalgar Twp.) became Free Libraries.

Six Association Libraries (Clarkson; Cooksville; Gardens; Lorne Park; Walton; Meadowvale) were absorbed by the Toronto Twp. library.

Two District Library Co-operatives (Thunder Bay; Rainy River) were united to form the Northwestern Regional Library Co-operative.

Three Association Libraries (Chapleau; Howick Twp.; Rebecca) were removed from the list of active libraries.

Average local tax levy per capita.....

..... 91 cents

(1) Not included here are grants to the Metropolitan Toronto School Board; Public School Boards—\$7,436,197; Secondary School Boards—\$2,963,372. This item includes superannuation deducted by the boards in 1956.

(2) Includes receipts for the education of non-resident pupils from territorial districts and Ontario Government establishments, for the transportation of non-resident (elementary) pupils and for the use of schools for practice teaching.

(3) In the case of the municipalities composing Metropolitan Toronto, this item includes maintenance assistance payments from the Metropolitan Toronto School Board.

(4) Includes bank and other interest on current funds, transfers from capital fund, rentals, fees from individuals and subscriptions in lieu of taxation.

(5) Amount received during 1956.

(6) Includes: instruction, instructional supplies, administration, plant operation, plant maintenance, auxiliary services, tuition fees paid to other school boards and transportation.

(7) Comprises principal and interest paid or set aside in 1956 by the issuing authority.

(8) Includes transfers to capital fund, payment for milk for free distribution, rebates of receipts and refunds of taxation to individuals paying fees to other boards, payments for school health services, etc.

(9) Includes insurance due to losses, sales of buildings, furnishings and equipment, etc.

(10) Includes land and improvement of land, buildings, furnishings and equipment, etc.

Report of The Minister of Education

1958

To The Honourable J. Keiller Mackay, D.S.O., V.D., LL.D.,
Lieutenant-Governor of the Province of Ontario.

Your Honour:

With all respect I present the Report of the Department of Education for 1958. This volume contains, in the first part, summaries of the work of the several divisions and branches which are responsible for the organization and supervision of the educational system, and in the second part, a collection of general and comparative statistics showing the present state of the system in all its various aspects.

Several trends in education have been noticeable in the past decade. Through legislative grants, an effort has been made to help local authorities to maintain and improve educational standards in the face of rising costs. In 1948 these payments were approximately \$35,000,000; in 1958 they reached \$128,168,000.

As far as buildings are concerned, local school boards, since 1945, with the help of the Province, have built sufficient new schools or additions to accommodate 650,000 pupils. The total cost of this building programme is approximately half a billion dollars.

The school population has shown an increase much greater than the general growth of population. One factor which has contributed to this unprecedented growth in school population is the steadily increasing annual number of live births since 1946. This has resulted in a very great increase in elementary school enrolment. In the last ten years the enrolment in elementary schools has increased from 571,459 to 1,027,598, with an increase in 1958 alone of 56,481. At the secondary level, through the development of the district high schools with the accompanying provision of transportation, the percentage of young people attending secondary schools is much higher than was the case ten years ago. From 1948 to 1958 the secondary school population increased from 125,234 to 222,075. In September, 1958, the increase was 18,550 over September, 1957.

Although serious doubts were expressed ten years ago regarding the feasibility, under Ontario's climatic conditions, of providing an economical and satisfactory system of transportation for pupils, experience has shown that school buses can maintain, with proper precautions, a safe and reliable service throughout the school year. Evidence of this is shown in the fact that elementary and secondary school boards in the last ten years have increased their total expenditure for transportation from \$2,400,000 to \$9,300,000.

It is gratifying that, through an increase in the number graduating from the teachers' colleges, through the operation of the Pre-Teachers' College Summer Courses and a summer programme at the University of Ottawa, through issuing Letters of Standing to well-qualified teachers from other educational systems, and through issuing a limited number of Letters of Permission to boards of trustees on behalf of uncertificated teachers, the supply of teachers for elementary schools

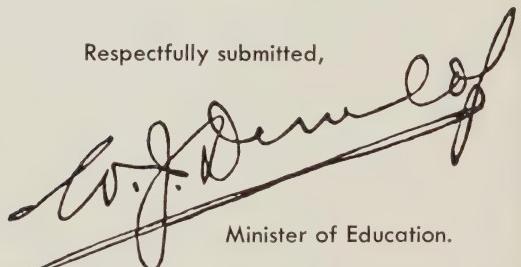

has been maintained. It is also gratifying to report that 1,041 more students registered at the teachers' colleges in the fall of 1958 than in the preceding year.

The provision of a technical education between the levels provided in the secondary schools and in the universities has been an accepted responsibility of the Department of Education. Although in the last ten years a change in emphasis has taken place, the objectives remain the same—namely, to graduate good technologists, and specialists of high calibre in other fields. In 1958 the Western Ontario Institute of Technology at Windsor was opened and admitted 100 students to its day classes; the first unit of the new buildings at the Ryerson Institute of Technology was completed; and excellent progress was made towards the completion of an addition to the Provincial Institute of Mining at Haileybury.

Accompanying the increased activity of the elementary, secondary, and teacher education branches to meet the needs of the remarkable increase in school population, there was also expansion of all services for assisting handicapped individuals. A new junior school and junior residence, a heating plant, a laundry, and a staff residence were opened at the Ontario School for the Deaf in Belleville. Plans have been completed for a new wing at the Ontario School for the Blind. Encouraging developments can be seen in the greatly increased number of auxiliary classes and other auxiliary services provided by local authorities with assistance from the Department of Education.

The following pages outline in some detail the various educational opportunities available for the youth and adults of Ontario. Through co-ordinated and sustained effort, the Department is striving to provide for each person, irrespective of age or background, the education and training that will enable him better to take his place in society.

Respectfully submitted,

L.O.J. Dewar Esq

Toronto, January 8, 1959

Minister of Education.

Elementary Education

THE GROWTH OF CENTRAL SCHOOLS

In some township school areas, accommodation has been centralized by replacing a number of small schools with a central school or schools. A survey of May, 1953, showed that 164 central schools had replaced 426 smaller schools. The average central school contained four classrooms, accommodated 130 pupils, and served four former sections. It is estimated that there are, at the present time, over 200 central elementary schools in the Province.

It has been noted that central schools tend to attract the services of some better-trained teachers seeking closer association with other teachers and preferring graded classes and more modern working and teaching facilities. In larger schools it is often possible to engage better-qualified principals, to provide specialized instruction in the regular subjects, and to give courses in Industrial Arts and Crafts, Home Economics, Physical Education, and to make provision for exceptional children. In a central school the number of pupils in each classroom can be more easily controlled, and it is frequently possible to reduce the number of classrooms required, with a consequent saving which may be applied to the necessary transportation costs.

THE INTERNSHIP PLAN

The Internship Plan in Supervision is an educational programme designed to provide practical field experience for those principals and teachers who are candidates for the Elementary-School Inspector's Certificate. The Internship Plan is sponsored by the Ontario College of Education and approved by the Department of Education.

The plan was inaugurated in 1955-56. During the three years it has been operating, 38 students undertaking work towards a post-graduate degree at the Ontario College of Education have each spent a two-week period with a public or separate school inspector to become as familiar as possible with the regular duties of such an official.

Aspects of the work such as the supervision of classroom teaching, curriculum, administration of elementary schools, and assisting boards of trustees, have received particular attention from the candidates when they have been in the field. Six of the 38 candidates have been appointed as school inspectors.

PROGRAMMES FOR GIFTED CHILDREN

The teachers in the schools of the Province have always been aware that some of their pupils possess unusual mental ability. This general ability is often accompanied by creative talents, advanced physical development, and emotional stability. Teachers have always tried to encourage these pupils to excel in their work. In many cases this has been attempted on an individual basis. With the development of improved methods and materials for instruction and testing, these pupils have been grouped within classes. In larger schools, the classes in each grade have been organized into three streams. Recently the public has become concerned lest a number of these gifted children be neither identified nor challenged to do their very best work. In 1958, five elementary school boards organized a total of 20 segregated classes for gifted pupils. The pupils have been carefully selected on the basis of results of tests of ability and achievement. These pupils are encouraged to undertake intensive individual research, to report to the class and discuss their findings in an orderly manner. It is hoped that this experimental approach may improve the personal achievement of each pupil and result in a more significant contribution to society by more of our most talented students.

BUILDING PROGRAMME

In 1958, elementary school accommodation in Ontario was increased by 74,735 pupil places, provided in 451 new buildings and additions, at an estimated cost of \$51,085,000. From 1945 to 1958 inclusive, 527,430 were provided at an estimated cost of \$344,535,000.⁽¹⁾

Secondary Education

1. SECONDARY SCHOOLS

ENROLMENT

The total enrolment of pupils in secondary schools in September, 1958, was 222,075. By courses the enrolments were as follows: General 170,263; Commercial 29,014; Industrial 20,366; Home Economics 465; Art 659; Special Industrial, 1,308.

The total number of full-time teachers in the secondary schools in Ontario in September, 1958, was 9,573, an increase of 904 over that of the previous year. After allowance is made for part-time teachers, the pupil-teacher ratio in September, 1958, was 22.9 to 1, as compared with 23.2 in 1957 and 22.8 in 1956.⁽²⁾

BUILDING PROGRAMME

Eighteen new secondary schools were completed in 1958 at a cost of \$16,065,000. Additions were made to 40 existing buildings at a cost of approximately \$10,016,000.⁽³⁾

TRANSPORTATION

During the school year 1957-58, secondary school boards furnished transportation for 56,827 pupils, an increase of 9 per cent over the previous year. These pupils were transported over 1,759 routes at a cost of \$27,000.00 per day.⁽⁴⁾

The number of pupils transported to secondary schools by elementary school boards decreased again this year.

Provision has been made for certain secondary school boards, with the approval of the Ontario Municipal Board, to enter into agreements with an operator to furnish transportation for more than one year but not more than five years.

2. TECHNICAL INSTITUTES

The technical institutes which are organized under the Department of Education Act, and which, in general, operate under advisory committees, offer advanced technological education between the level provided in secondary schools and that in the universities.

INSTITUTES OF TECHNOLOGY

Among these technical institutes are four institutes of technology, namely Ryerson Institute of Technology, Toronto; Hamilton Institute of Technology; Eastern Ontario Institute of Technology, Ottawa; and Western Ontario Institute of Technology, Windsor. These institutes provide a three-year programme leading to employment in business and industrial occupations; they also offer evening classes for employed persons who wish to improve their education. At all institutes of

(1) See Table 19

(2) See Tables 58 and 60

(3) See Table 19

(4) See Table 18

technology there is a common first-year course for aeronautical, chemical, electrical, electronic, instrument, gas, mechanical and metallurgical technologies. In October, 1958, there were over 2,800 students enrolled in the day courses, of whom 100 were in the first year at the Western Ontario Institute of Technology, which commenced classes in 1958. The popularity of the evening courses is shown by a registration of 3,997 at the four institutes.⁽⁵⁾

LAKEHEAD COLLEGE OF ARTS, SCIENCE AND TECHNOLOGY

When the Lakehead Technical Institute became the Lakehead College of Arts, Science and Technology in 1957, the Department of Education relinquished direct responsibility for the operation of this establishment. In addition to the university courses which the College now offers, it continues to give two-year technical courses in forestry, mining and industrial chemistry.

PROVINCIAL INSTITUTE OF MINING

The Provincial Institute of Mining at Haileybury, established in 1944, continues to offer a two-year Diploma Course in technological subjects relating to mining. On October 15, 1958, the enrolment was 85 students. Because of the need for more accommodation, an addition to the building is under construction and will be completed early in 1959. The addition will provide two classrooms, an ore-dressing laboratory, and administration facilities.⁽⁵⁾

PROVINCIAL INSTITUTE OF TRADES

The Provincial Institute of Trades, Toronto, was established in 1951 to provide "in-school" training for apprentices in trades designated under the Apprenticeship Act of the Department of Labour of the Province of Ontario. In 1958 the total number of apprentices enrolled in four different times in the year for the courses of approximately ten weeks was 2,399. In addition, the Institute provided advanced training in other trades; 102 students were enrolled in such courses in December, 1958. That evening courses through which individuals can improve their education and skills are popular at this Institute is shown by an evening enrolment in November of 1,300 persons.⁽⁶⁾

3. TRADE SCHOOLS

There were 159 privately owned and operated trade schools registered in 1958 under the Trade Schools Regulation Act. Twelve new schools were added during the year and applications for registration are pending in six cases.

The assistance received from the advertising managers of newspapers and other publications was a great help in maintaining the standards of trade schools. Only 19 cases of irregular advertising required investigation during this year.⁽⁷⁾

Teacher Education

TEACHERS' COLLEGE ENROLMENT

A total of 4,688 students enrolled in the teachers' colleges in the autumn of 1958. This represented an increase of 1,041 over the 1957 enrolment, a gain of 28.5 per cent. Of the number, 2,656 were registered in one-year courses, 942 in the first year of the Two-Year Course, 514 in the second year of the Two-Year Course, and 576 in the completing year of the In-Service Course. Approximately 25 per cent of the students were men, an increase of 5 per cent over the previous year.

⁽⁵⁾ See Table 74
⁽⁶⁾ See Table 75

⁽⁷⁾ See Table 76

At the Ontario College of Education, 484 students were enrolled in courses leading to the High School Assistant's, Library, Vocational and Industrial Arts Certificates. This enrolment exceeded by 132 that of the previous year. Approximately 59 per cent of the students were men, an increase of 2 per cent over the previous year.⁽⁸⁾

TEACHER SUPPLY

More than 2,700 students graduated in June, 1958, from the provincial teachers' colleges. Of this number 380 were graduates of the Two-Year Course, and 472 were successful in the completing year of the In-Service Course. In addition, Temporary Certificates were obtained in the year under review by 1,120 graduates of the Pre-Teachers'-College Summer Courses, First Year, and by 801 graduates of the Pre-Teachers'-College Summer Courses, Second Year. These summer courses were held in Toronto and Port Arthur. A summer session programme was also conducted in the University of Ottawa Teachers' College, where 78 persons with experience in teaching under Letters of Permission obtained Deferred Interim Second Class Certificates and 33 obtained Interim Second Class Certificates, valid for teaching in elementary schools in which French is a subject of instruction with the approval of the Minister.⁽⁹⁾

Letters of Standing granted to well-prepared elementary school teachers coming to Ontario from other provinces of Canada or other countries in the Commonwealth totalled 693 in the school year 1957-58. Letters of Permission, issued to boards of trustees on behalf of uncertificated teachers serving in elementary schools, totalled 667 by the end of November for the school year 1958-59.

Despite a considerable increase in the number of teachers qualified for secondary school teaching, the ever greater enrolment in the schools necessitated the continuance of the emergency summer course programme for the preparation of secondary school teachers. A total of 749 candidates attended the first ten-week summer session in 1958, an increase of 250 over the enrolment in 1957. In the second summer course of five weeks an enrolment of 470 represented an increase over 1957 of 110.

For the school year 1957-58, a total of 108 Letters of Standing valid for teaching in Ontario were granted to secondary school teachers who had received their training in other provinces of Canada or in other countries of the Commonwealth. By November 28, 1958, 52 Letters of Standing had been granted for the current school year. Letters of Permission issued to secondary school boards on behalf of teachers not holding the certification required for positions held totalled 768 by the end of November for the school year 1958-59. Of this number, 227 held basic secondary school teaching certificates.

NEW BUILDINGS

The new building of the London Teachers' College opened for use in September, 1958. This attractive grey stone structure, overlooking the campus of the University of Western Ontario, provides excellent accommodation for students and staff. The two-storey academic wing houses classrooms and staff office and the main block contains the auditorium, gymnasium, library, medical centre, cafeteria, common rooms and administrative offices. The official opening ceremony was held at the College on December 9, 1958.

The corner stone of the new Lakeshore Teachers' College building in New Toronto was laid on September 8, 1958. It is expected that the building will be ready for occupancy in September, 1959.

⁽⁸⁾ See Table 10

⁽⁹⁾ See Table 12

Curriculum Development

CURRICULUM

The Curriculum and Text-Books Branch, organized in November, 1956, exercises supervision over all work within the Department related to courses of study and text-books. Externally it maintains relations with local authorities and others interested in curriculum revision, and with authors and publishers concerned with the production of school text-books.

Departmental officials participating in curriculum-making include directors of special subjects, inspectors of elementary and secondary schools and instructors in teachers' colleges. Representative teachers are also called in consultation when courses are under revision, and in the case of secondary-school courses, where the universities of the Province have an interest in their standards and content, representatives of the universities assist in the work of revision. A number of committees are now at work on the preparation of new and revised courses.

Local co-ordinating committees were first established in 1950 with authority to appoint curriculum committees to prepare new courses or to adapt the courses provided by the Department to local needs. This devolution of the authority for curriculum-making was a radical departure from the Ontario tradition. In many areas advantage has been taken of this freedom to experiment, with results valuable to the whole school system as well as to the professional knowledge of the teachers and administrators concerned.

TEXT-BOOKS

Within the past fifteen years the Ontario text-book list has undergone a marked change. The one authorized reader for a grade, or the single subject text-book for a year or several years' work, have disappeared and there is now a wide choice of approved books from which a teacher may choose those which best suit her class or her teaching. Text-books of Canadian origin as to authorship and publication have been encouraged in building up the present list and with the appearance in 1958 of a series of primary readers prepared by Ontario teachers there are now Canadian books in every division of the list.

Ideally new courses of study and new books to fit the courses should appear simultaneously. It therefore becomes a part of the duties of the Branch when engaged in curriculum revision to encourage authors and publishers in the preparation of suitable text-books. New books for established courses are also presented by publishers for approval and provision must be made for the evaluation of new books. The services of other Departmental officials and of special advisory committees are called upon for this purpose.

Pupils in Grades 1 to 8 are not required to buy their own text-books, and these must be provided by the board. Boards may provide free text-books for Grades 9 and 10. Expenditures by boards on approved text-books, are refunded up to a limit of \$3.00 per year per pupil of average daily attendance in Kindergarten to Grade 10. Above Grade 10, pupils are generally above the age of compulsory attendance and parents must assume responsibility for the provision of text-books.

Professional Development

In June, 1957, the Professional Development Branch was organized to promote the in-service growth of teachers. The Superintendent of Professional Development is assisted for work in the elementary schools by an Assistant Superintendent. In the Secondary Education Branch an Assistant Superintendent of Secondary Education was appointed to give special attention to this work.

These officials assisted school inspectors and teachers to set up various types of in-service education programmes so that professional competence might be developed in teachers and good levels of achievement maintained in the schools. Particular attention was given to teachers with limited training and experience through early assistance in their classroom work and through workshops conducted with the co-operation of the local inspector.

In co-operation with the Registrar's Branch and with the other superintendents in the Department, all departmental summer courses for elementary school teachers were supervised by the Professional Development Branch, except those courses under the direct control of the Teacher Education Branch.

A pilot project in which 31 "helping teachers" were employed for the months of September and October, 1958, to assist teachers with limited training and experience, was supervised by the Branch. Reports from inspectors involved in this project indicate that many beginning teachers received invaluable assistance during their first weeks of teaching.

Schools Attended by French-speaking Pupils

TEACHER SUPPLY

On October 15, 1958, there were 319 student teachers at the University of Ottawa Teachers' College, 17 of whom were enrolled in the course leading to the Elementary Teaching Certificate, 9 in the course leading to the Deferred Elementary Teaching Certificate, and 293 in the course leading to the Second Class Certificate.

In 1929-30, 25 per cent of French-speaking teachers held First or Second Class Certificates; in 1957-58, 87 per cent of French-speaking teachers held First or Second Class Certificates.

SECONDARY SCHOOL ENROLMENT

In December, 1958, the total enrolment of French-speaking pupils taking advanced French courses in secondary schools was 4,073. There were, in addition, 4,027 French-speaking pupils enrolled in Grades 9 and 10 of elementary schools.⁽¹⁰⁾

ELEMENTARY SCHOOL ENROLMENT

In October, 1958, there were 76,667 French-speaking pupils enrolled in separate and public schools, an increase of 4,289 over the preceding year.

The number of French-speaking pupils in Kindergarten classes was 4,189.⁽¹¹⁾

CORRESPONDENCE COURSES

Correspondence Courses for French-speaking pupils in Grades 1 to 8 have been available since 1946. The number of pupils enrolled in November, 1958 was 49, and all grades were represented.

Provincial Student-Aid

What may now suitably be called the Provincial Student-Aid Programme began in modest fashion fifteen years ago when a number of "scholarships" were granted to senior secondary school students who desired to pursue their education but were unable to do so without some financial assistance.

⁽¹⁰⁾ See Tables 43, 56 and 66

⁽¹¹⁾ See Tables 43 and 56

In the fiscal year 1943-44 the number of awards and the total amount granted were as follows:

University.....	101	\$33,500
Normal School (now Teachers' College)...	38	7,200
Grade 13.....	53	5,250
Totals.....	192	\$45,950

In the following year, 1944-45, the scholarship programme was increased threefold and an agreement was reached with the Dominion Government whereby Dominion-Provincial Bursaries were inaugurated. These, now called Type B Bursaries, are awarded to post-secondary school students already "on course." The original "scholarships" are now designated Type A Bursaries. In that year a total of 566 Type A and Type B awards were made, representing a total grant of \$169,389.

The growth of the bursary programme over the years is indicated very clearly by the fact that, in the past year, 1957-58, the corresponding bursary total was \$499,083⁽¹²⁾, and in the current year, 1958-59, it will reach the sum of \$550,000. During this same period of fifteen years, the contribution of the Dominion Government rose from \$31,974 in 1944-45 to \$100,000 in 1952-53. Since that time it has remained constant.

Student-aid bursaries are awarded on the basis of recommendations to the Minister of Education by a Committee of Award composed of not more than five members appointed by him to represent Ontario and one member appointed by the Minister of Labour for Canada to represent Canada. The recommendations of the Committee are subject to the provisions of Regulations, Bursaries, Ontario Regulations 237/55, as amended by Ontario Regulations 146/58.

Since the awards are bursaries and not scholarships in the true sense of the term, the element of financial need must be present, although a qualifying academic standard is insisted upon as an indication of ability to profit by further formal education. Type A bursaries, which are fixed amounts, vary from \$100 to \$250 for resident students and from \$100 to \$500 for non-resident or self-supporting students, according to the institution to be attended in the ensuing year. They are awarded to applicants with established financial need who have obtained a minimum average of 66 per cent on the qualifying examinations of the current year.

The initial consideration of Type A bursary applications is given, by custom, by the Special Revising Board on which are representatives of the various Ontario universities, the teachers' colleges, and the Department of Education. Their nominations for university, teachers' college, technical institute, and secondary school awards are made in accordance with an established allotment of bursaries by counties and territorial districts based primarily on student population in Grades 12 and 13. These preliminary recommendations are then reviewed by the Committee of Award and are supplemented, according to a practice established in recent years, by awards to deserving students on a province-wide basis up to the total amount available for Type A bursaries.

In determining the comparative ratings of the various applicants, the family income is adjusted according to the number of dependent children and the candidate's degree of academic attainment above the specified minimum of 66 per cent is also considered. To establish financial need the adjusted income must fall below a pre-determined and quite modest ceiling.

⁽¹²⁾ See Table 68

Applications for Type B bursaries are accepted from students with the required academic standing and with established financial need who have graduated from secondary school and are pursuing a course at one of the eligible institutions, namely, a Canadian university or affiliated college (provided the student is taking a degree course in a faculty other than Divinity), the Ontario College of Art, Osgoode Hall Law School, the Ontario College of Education, a teachers' college, or a provincial technical institute.

These bursaries are of specified maximum amounts ranging from \$125 to \$250 for resident, and \$200 to \$500 for non-resident or self-supporting students, but the actual awards are modified according to the degree of need and the total amount available for Type B purposes.

It is worthy of mention that in the award of Type A bursaries for the current fiscal year, an allotment of \$50,000 was approved for special Type A bursary awards to applicants who had averaged at least 80 per cent on eight papers, including the two in English, of the Grade 13 Departmental Examinations of June, 1958. It is hoped that this innovation, marking official Departmental recognition of outstanding achievement at the Grade 13 level, apart from financial need, may be the beginning of a distinct scholarship phase in the Provincial Student-Aid Programme. This would complement the bursary scheme which has been in operation for the past 15 years, and the loan fund which has just been inaugurated.

The Provincial Student-Aid Loan Fund was set up under Ontario Regulations 134/58 and is in its first year of operation. The details of its provisions are set forth in Circular 120, "Provincial Student-Aid Loans 1958-59, Announcement and Conditions of Award," and requests for loans are made on Circular 121, Application Form, 1958-59.

Loans differ from bursaries in several respects, chiefly, of course, in the fact that they are repayable beginning with the first day of April following graduation or withdrawal of the applicant from the institution attended. They are interest-free until that same date, but thereafter bear simple interest at 4 per cent per annum.

The maximum amount obtainable on loan in any one year is \$500, and for the whole of a student's course, \$2,000. Repayment is at a minimum rate of \$25 a month.

Loans differ from bursaries in certain other respects as well. The minimum academic standing required is third class rather than second class honours. Students pursuing a course leading to a university diploma are eligible for loans, as well as those working towards a degree. The element of need must be present to a reasonable extent, but the income ceiling observed in the case of loans is considerably higher than for bursaries. Provision is also made for the granting of loans to students who have not been in attendance at an educational institution during the academic year preceding application. Finally, under special circumstances, a loan may be arranged to supplement a bursary award.

By the end of December, 1958, over 800 applications for loans had been received and new ones were still coming in daily. The great majority of these loans were approved. On the average, the amount borrowed was somewhat over \$400. It is anticipated that a number of this year's applicants for Type B bursaries, especially those students who are close to graduation and remunerative employment, will be diverted to loans, thus freeing bursary money for students in the early years of their course or for those with very limited financial resources. However, this integration of the bursary and loan phases of the Student-Aid Programme and of the scholarship phase when introduced, will have to be worked out carefully with developing experience.

School Attendance

ENROLMENT

The total enrolment in elementary and secondary schools in September 1958 was 1,249,673, an increase of 75,031 over the preceding year. The elementary schools showed an increase of 56,481, and the secondary schools an increase of 18,550. For the school year 1957-58 the attendance efficiency of all elementary schools was 93.3 per cent; of secondary schools, 93.8 per cent.⁽¹³⁾

COMPULSORY SCHOOL AGE

Children who have attained the age of six years on or before the first school day in September are required, unless excused under provisions given in The Schools Administration Act, 1954, to attend school from that date until the last school day in June of the calendar year in which they attain the age of sixteen years.

A child may be granted a home permit or an employment certificate if his services are urgently required at home, or in some gainful occupation elsewhere. A child under fourteen years of age may be granted a home permit or an employment certificate for a period of not more than six weeks in a term.

EMPLOYMENT

The number of home permits issued during the year 1957 was 1,711, an increase of 48 over 1956. The number of employment certificates issued was 5,480, an increase of 311 over 1956. It is encouraging that the increase in home permits and employment certificates in 1957 was much less than in preceding years.⁽¹⁴⁾

Agriculture

ELEMENTARY SCHOOLS

Agriculture is an optional subject for elementary schools. No separate course of study is provided, but agricultural topics are included in the Natural Science and Science courses outlined in the Programme of Studies for Grades 1 to 6 and in Circular Curriculum I:1 for the Intermediate Division.

Instruction in agricultural topics is included as a part of the Science Course in Teachers' Colleges, and student teachers who took the Agricultural Science Option in their secondary school course may qualify for an Interim Elementary Agriculture Certificate.

SECONDARY SCHOOLS

Instruction in Agriculture is provided in secondary schools in two ways. Courses in Agricultural Science may be given as alternatives to General Science, and Physics and Chemistry in Grades 9 to 12. These courses are given in 130 schools in Grades 9 to 12 and in 27 schools in Grades 9 and 10 only. There are 58 schools in which only this Agricultural Science Option is taught.⁽¹⁵⁾

The other provision for agricultural instruction is the creation of a Department of Agriculture in a school and the organization of a two-year course for Grades 9 and 10 which includes Agriculture and Shop Work for boys and Home Economics for girls. There are now 99 schools with Departments of Agriculture.

The total number of pupils taking Agricultural Science for the school year 1957-58 was 55,384 and taking Agriculture, 10,643. There were 15,444 pupils carrying on home projects in connection with their school work.

⁽¹³⁾Table 6

⁽¹⁴⁾See Table 15

⁽¹⁵⁾ See Table 72

Courses in Agriculture were first introduced in 1913. The present Department of Agriculture programme was revised and expanded in 1944. There has been an unbroken continuity since 1913 in Regulations of the Department of Education providing for Agricultural instruction in the secondary schools of Ontario.

Graduates of the Ontario Agricultural College who have taken teacher training at the Ontario College of Education, and teachers of Science who have taken qualifying summer courses in Agriculture, make up the majority of teachers of Agriculture in secondary schools.

PRACTICAL WORK

Besides the regular classroom and laboratory work, most schools provide gardening and home projects. In addition, many schools are equipped with poultry houses, colonies of bees, and other special facilities for practical work. Agricultural buildings and tractors have been provided at approximately 80 of the schools with Departments of Agriculture. At five schools, greenhouses have been provided.

DESTINATION OF PUPILS

A survey covering the period 1952-1957 reveals that many pupils who took courses in Agriculture in the secondary schools continued their education in this field. There were 104 boys who attended courses at Kemptville Agricultural School, 186 students who took courses at the Western Agricultural School in Ridgetown, 180 students who took the Diploma Course at the Ontario Agricultural College, and 316 students who enrolled in the Degree Course at the Ontario Agricultural College.

Art

RESEARCH

Saturday morning classes conducted for the purpose of studying the work of children with outstanding ability in Art, were held again in 1957-58 at the Ryerson Institute of Technology from October to March.

SUPERVISION AND TRAINING

In addition to assistance given to the programme of Art in the elementary schools, special attention was given to the subject as presented in the secondary schools. Schools, at which general inspections were held by the Secondary Education Branch, were visited and their programmes in Art evaluated.

Meetings of elementary school teachers were held in several inspectorates and workshops conducted in a number of rural areas.

Enthusiastic teachers again attended the 1958 Summer Courses in Art. Courses were offered as usual at the Ontario College of Art in Toronto while a new course leading to the Elementary Certificate in Art was offered in the North Bay Teachers' College. Total enrolment in the two centres was 667.

Audio-Visual Education

SCHOOL BROADCASTS

A programme of 117 school broadcasts was prepared for use in the elementary and secondary schools of the Province. Through the courtesy of the British School Broadcasting System, 23 broadcasts were made available to Ontario schools. In addition, four broadcasts from the Australian Broadcasting Commission

proved quite useful. All broadcasts were presented in co-operation with the Canadian Broadcasting Corporation over a network of 25 radio stations.

Radio manuals outlining the broadcasts were distributed to all Ontario teachers in September. Two evaluation surveys to test the effectiveness of the broadcasts were conducted.

Ontario elementary schools have 10,681 classrooms served by central sound systems, and schools reported the ownership of 9,909 school radios.

FILM SERVICE

Films from the Visual Education Branch were shown on 164,172 occasions to a total school audience of 8,372,772 during the school year. In addition, some city boards of education are developing their own film service. The Visual Education Branch has 1,266 film titles, with 11,463 prints of sound films available for use in Ontario Schools.

A summer course in Audio-Visual Methods offered teachers an opportunity to improve their professional training in audio-visual techniques.

Ontario elementary schools have reported the ownership of 1,529 sound projectors, 2,112 filmstrip projectors, and 477 opaque projectors.

Auxiliary Education Services⁽¹⁶⁾

NATURE OF ASSISTANCE TO LOCAL AUTHORITIES

Upon the request of local authorities and officials, or upon instructions of the Superintendent of Special Services and the Superintendent of Elementary Education, the staff of the Auxiliary Education Services Division provides the following services:

1. visits to special classes, special teachers, and schools where units are established in order to lend encouragement and assistance to the teachers concerned;
2. work with individual children in order to assist in the diagnosis of the problem and the recommendation of an educational programme;
3. assistance in the establishment of new classes through
 - (a) the organization of surveys,
 - (b) the testing of children,
 - (c) working with the local staff and school board; and
4. participation in the in-service training of teachers, on special education topics, not only as they affect special classes but also atypical pupils in regular grades.

TEACHER EDUCATION

In addition to the 279 teachers who enrolled in the Auxiliary Education summer courses in Toronto, 96 took the elementary course which was offered at Sault Ste. Marie. This was the first time such a course was offered outside of Toronto and it proved to be very successful. A total of 43 teachers completed the attendance part of the requirements for the Specialist Certificate in Auxiliary Education.

TRAINABLE RETARDED CHILDREN

Under the authority of the Department of Education Act and its Regulations, assistance was provided towards the cost of education of children under 18 years of age whose mental capacity is incapable of development beyond that of a child of normal mentality of 8 years of age.

⁽¹⁶⁾ See Table 30

In 1958, grants were paid to 47 parents' groups affiliated with the Ontario Association for Retarded Children. The number of pupils enrolled increased from 1,250 to 1,356.

A Special Services Inspector was appointed to assist teachers in their classroom programmes.

Community Programmes

SERVICES

The Community Programmes Branch assists communities to provide programmes of recreation and adult education in order that men and women may have greater opportunities to use their leisure time enjoyably and constructively. The Branch works in co-operation with municipal recreation committees, school boards, provincial and community organizations, university extension departments, and other interested organizations. In each of the district offices located at Belleville, Fort William, Hamilton, Hanover, London, North Bay, Oakville, Ottawa, and Toronto, is a district representative for that area. Another service is provided by special advisers in the fields of art, crafts, recreation facilities, social recreation, recreation for older people, puppetry, rural programmes, and citizenship. The Branch also issues a number of publications, makes available resource material for local committees, and provides a loan service in the fields of films, drama, music, and reference books.

PROFESSIONAL TRAINING AND CERTIFICATION

In the period 1951 to 1954, the Community Programmes Branch prepared and conducted a three-year in-service training course for municipal recreation directors. Successful completion of the course was a requirement for a certificate issued by the Department of Education under Ontario Regulations 10/54. Since January 1, 1955, the in-service course has been offered through the Extension Branch, University of Western Ontario, with assistance from the Community Programmes Branch. The number enrolled in this course on November 30, 1958, was 97.

RECREATION DEVELOPMENT

On November 30, 1958, there were 307 municipalities organized to provide recreation programmes. Of these, 263 actively provide such programmes. There were 86 communities (an increase of 5 over 1957) employing full-time recreation directors.

GRANTS

In accordance with the regulations, grants were requested in 1958 by 228 municipal councils. The sum of \$440,000 was provided in the estimates to make such grants. Nineteen local museums were paid grants totalling \$12,515.31; ten provincial organizations, which conducted programmes of recreation or adult education, were paid grants to an amount of \$13,700.

LEADERSHIP TRAINING

The Branch provides a continuous service to communities in helping them to train leaders in a variety of activities. Some of the courses were in the field of playground supervision, day camp leaders, nature study leadership, community arts and crafts, and, in co-operation with the Department of Agriculture, seminars for rural leaders. The 121 courses in these areas were attended by 4,997 persons.

CITIZENSHIP EDUCATION

A major responsibility of the Branch is to provide continuous service and assistance for teachers of classes for newcomers to Canada. In 1958, there were

1,096 classes attended by 26,117 persons. This is an increase over 1957 of 177 classes and 6,756 persons.

During the fall of 1958, as in 1957, the Branch was asked to establish day-time classes in English and Citizenship for unemployed newcomers to Canada. There were six such classes in operation on December 1, 1958.

CO-OPERATION

In order to provide the most efficient service that is possible, the Branch continued to work in close co-operation with the following agencies: Canadian Association for Adult Education; Citizenship Branch of the Department of Citizenship and Immigration; University Extension Departments; Ontario Federation of Home and School Associations; Folk School Council; Ontario Department of Agriculture; Canadian Nurses' Association; Ontario Department of Health; Ontario Parks Association; Ontario Federation of Agriculture; Ontario Department of Public Welfare; Ontario Association of Film Councils; Ontario Recreation Association; Ontario Field Naturalists; Museum Association; Ontario Tuberculosis Association; and various sport associations.

Correspondence Courses

GENERAL INFORMATION

The Correspondence Courses Branch provides correspondence courses for Ontario persons who are unable to attend school. Of all students for whom these courses are provided, more than 90 per cent are over sixteen years of age. The remainder include many who give distance from the school or illness as reasons for seeking enrolment. Also, 330 students were Ontario residents living temporarily outside Ontario. The Branch is also providing courses for 87 students in the secondary schools of Ontario who, while making full use of the programme the schools provide, find it impossible to complete Grade 11, 12, or 13 within the school year because the particular subjects they require are not taught. The courses which are offered include academic subjects for Grades 1 to 13, and seven trade courses in the fields of Automotive Mechanics, Carpentry, Machine Shop Practice, and Radio Theory and Practice. All academic courses are free to residents of Ontario wherever they may be living. Trade courses are available to residents of all provinces at \$10 a course.

TRENDS

All correspondence courses have been prepared by teachers in the schools. All secondary school lessons are marked by teachers in the schools, and each year an increasing number of elementary school lessons are being sent out to the schools to be marked. This trend will continue until all lessons are marked by classroom teachers.

Although the courses were originally intended for boys and girls who are unable to attend school, the number of such pupils is decreasing and is now less than half that recorded nine years ago. The number of adults admitted and enrolled in elementary and secondary courses continues to increase at a rapid rate. It is interesting that a large number of the students enrolled state that they are preparing to enter the teaching profession.

ENROLMENT

The number of students enrolled in elementary school courses, including the bilingual courses, was 659 on November 30, 1958. Although this was a decrease of 31 in one year, the number enrolled in secondary school academic and trade courses increased 954 in the same period to an all-time high of 3,520. The total enrolment of 4,179 is the highest enrolment in the history of the Branch.⁽¹⁷⁾

⁽¹⁷⁾ See Table 78

Examinations and Scholarships

DEPARTMENTAL EXAMINATIONS

Statistics showing the results of the Grade 13 Examinations, as well as the number of Intermediate Certificates, Secondary School Graduation Diplomas, and Secondary School Honour Graduation Diplomas issued, will be found in Table 67.

A Committee on Grade 13 Examinations was appointed with instructions to study ways of coping with increasing numbers of candidates, particularly with a view to having the results issued at the usual time.

The most important development from the study was the agreement with the University Matriculation Board that for the Departmental examinations of 1960, in some of the papers, 30 per cent of the total marks will be assigned to questions of objective type. It is believed that the use of this type of question will not only expedite the marking of the papers, but will improve the effectiveness of the examinations.

TRANSPORTATION ASSISTANCE

The transportation subsidies provided by the Department of Education, for persons who reside in the territorial districts and are enrolled in an eligible institution of university rank, have been in operation for 11 years.

For the school year 1957-58 the sum of \$13,735.35 was paid to a total of 675 students, 470 residing east of Sault Ste. Marie and 205 residing west of Sault Ste. Marie.⁽¹⁸⁾

SCHOLARSHIPS FOR STUDY OUTSIDE ONTARIO

For the school year 1957-58, the \$8,000 available from the Consolidated Revenue for scholarships for study outside Ontario was awarded to Mr. John Boyd, Ontario School for the Deaf at Belleville; Miss Margaret Brown of Etobicoke Public Schools; Miss H. Elizabeth McKeeman of Downsview Collegiate Institute, North York; and Mr. Charles K. Carrington of Sault Ste. Marie Collegiate Institute.

TEACHER EXCHANGE

For the school year 1957-58, 23 teachers were on exchange—20 in the United Kingdom, 1 in British Columbia, and 2 in the United States.

Guidance Services

SERVICES

The year 1958 has been one of challenge for guidance workers in Ontario schools. Increased enrolments, technological advances, and changes in educational emphases have required an exacting appraisal of guidance practices. Counselling, courses of study, test programmes, cumulative records—all have been carefully scrutinized and evaluated. Constant effort has been directed towards making guidance a functional service and an integrating factor in Ontario schools.

During the past eight years 72 per cent of the secondary schools of the Province have voluntarily adopted the Ontario School Record System, and 86 per cent now receive OSR cards from the elementary schools. Every secondary school has available for students a variety of occupational and educational information in printed form. A few years ago schools depended to a great extent upon the United States for printed occupational information; now more than 80 per cent of the pamphlet information used in Ontario schools is produced in Canada.

⁽¹⁸⁾ See Table 69

TRAINING

Since 1945, when the first Departmental summer course in Guidance was given, the following certificates have been issued: elementary 1,538, intermediate 652, and specialist 195. In the summer of 1958 attendance at Departmental courses in Guidance again was at a high level with, as is usual, several of the 188 registrants being school principals. During the calendar year 1958, twenty teachers gained specialist standing in Guidance, and during the same period, more than 1,450 teachers voluntarily attended short in-service courses in counselling and testing at numerous Ontario centres, courses conducted by inspectors of the Guidance Services Division at the request of local educational authorities through the resident elementary or secondary school inspector.

Music

MUSIC INSTRUCTION

Courses in music under qualified music teachers were provided in 82.5 per cent of the elementary schools of the Province. Music was also taught in 280 secondary schools. There were 266 school choirs, 119 bands, and 85 orchestras in these schools, and 29 operas were performed during the year. Music festivals, competitive and non-competitive, were held in 125 centres with more than 50,000 pupils participating.⁽¹⁹⁾

TEACHER TRAINING

There were 1,127 certificated teachers and supervisors engaged in the elementary schools and 355 in the secondary schools of the Province during the school year 1957-58. Music is taught in all the teachers' colleges, and there was an enrolment of 629 teachers at the summer courses in music in 1958. An experimental course on string instruments was offered in Toronto. This course was attended by 58 persons.

MUSIC OPTION

Music is an optional subject in secondary schools, and pupils may obtain standing either through the regular course or by presenting the certificates of certain accredited examining bodies. In 1958, Grade 12 standing was attained by 2,004 pupils. Credit in Music towards a Secondary School Honour Graduation Diploma was obtained by 188 pupils who tried the Departmental Grade 13 examinations and by 737 pupils who presented equivalent certificates.

RADIO

Twenty-three music broadcasts were presented in four series during January, February and March. "Primary School Music," five 15-minute programmes for Grades 1 to 3; "Junior School Music," five 15-minute programmes for Grades 4 to 6; "Music for Young Folk," ten 30-minute programmes for Grades 7 to 10; and "Ontario Sings," three 15-minute programmes for Grades 5 to 8, were broadcast with commentary prepared and given in each case by the Director of Music of the Department of Education.

CONCERTS

The concert series sponsored by the Department of Education for twelve years was continued. Altogether 1,200 concerts have been provided in smaller communities throughout the Province, and 328 young artists have been assisted in the beginnings of their professional careers. In 1957-58, 34 artists gave 45 concerts in 22 Ontario towns.

⁽¹⁹⁾ See Table 81

Ontario School for the Blind

ENROLMENT

In June, 1958, there were 182 students enrolled at the Ontario School for the Blind at Brantford. Of these, 34 withdrew during the summer vacation, 6 by graduation and the others either to attend a regular school or to seek employment. In September, 50 pupils were admitted for the first time—33 to Grade 1 and the others distributed from Grade 2 to Grade 10. The enrolment on October 15 was 198—114 boys and 84 girls. Of these, 133 were from Ontario, 17 from Alberta, 25 from Saskatchewan, 20 from Manitoba, 2 from Quebec and 1 from Peru.⁽²⁰⁾

PROGRAMME

The basic academic programme of the school is the Provincial course of study for Grades 1 to 12, leading to a three-option Secondary School Graduation Diploma. To this is added a practical course in home economics with varied hand-crafts for the girls, manual arts and piano tuning for the boys, and typewriting for both. A broad physical education programme; vocal, instrumental, and choral music training; and a full range of extra-curricular club and social activities for all age groups, round out the regular work of the school. Special attention is given to the particular needs of the individual.

Six students completed Grade 12 standing in June. Three of these are proceeding to further education, one has secured employment, and two have begun training with the Canadian National Institute for the Blind to become home teachers of the blind. Each year, several students are successful in Royal Conservatory of Music examinations. Five recent graduates of the school are presently attending university.

Ontario School for the Deaf

ENROLMENT

Completion of additional classroom, residential, and dining facilities has made possible the highest enrolment in the history of the Ontario School for the Deaf at Belleville. The actual enrolment as of September 15, 1958, was 363. In addition, 84 beginning pupils will be registered for enrolment on January 7, 1959, when the new facilities will be ready for full operation, bringing the total enrolment to 447 on that date.⁽²¹⁾

Most of the pupils were profoundly deaf with hearing losses in the better ear of over 60 decibels. Only six per cent of the total were hard-of-hearing with hearing losses of 40 to 60 decibels. These pupils lived in communities where suitable provision could not be made for their education.

PROGRAMME

The programme of the school was arranged to provide a well-balanced education in preparing our students for life as self-supporting citizens. It included basic academic courses to the Grade 10 level, vocational courses, physical education and participation in inter-school secondary school athletics, as well as cultural, social, and recreational activities such as Wolf Cub, Boy Scout, Brownie, and Girl Guide groups; hobby clubs, parties, dances, pupil-operated snack bar; annual Christmas pageant; and the school play.

NEW BUILDINGS

To take care of an increasing enrolment and to replace some obsolete buildings, the following buildings have been completed ready for use on January 7,

⁽²⁰⁾ See Table 80

⁽²¹⁾ See Table 79

1959: junior school and residence providing 18 classrooms, an audiological clinic, a rhythm room, a teachers' library and lecture room, an activities room, dormitories for 120 pupils, 14 housemothers' rooms, a pupils' dining-room, staff dining-room, and kitchen; a heating plant and a laundry, both to serve the entire school; a staff residence for 44 persons.

Physical and Health Education SERVICES

Physical activity, when used as a means rather than as an end in itself, can meet many of the physical needs, and some of the social and emotional needs of children. Improvement in meeting these individual needs through the physical education programme is being achieved in many schools of the Province. The greatest improvement is found, perhaps, in Grades 1 to 3 where recently developed methods offer more challenging activity based on individual needs.

A work conference of Elementary School Supervisors of Physical and Health Education was held in the year under review to plan ways and means of helping teachers and students to improve physical education programmes.

A refresher course was also held for heads of Physical and Health Education Departments in secondary schools.

The enrolment in physical and health education summer school courses exceeded that of 1957 by 63—an increase of over 12 per cent.

ONTARIO ATHLETIC LEADERSHIP CAMP

There were 462 young men and women selected from secondary schools on a basis of high academic standing, service to a school organization, and activity on a school athletic team, to attend a two-week leadership course at the Ontario Athletic Leadership Camp, Longford Mills. A variety of athletic and camp activities was used to give these potential leaders experiences in organization and evaluation. Reports show that these school representatives have returned home challenged with a sense of responsibility to give service when given an opportunity. Many of these leaders have entered the teaching profession as a result of the confidence they gained while at camp.

This camp site was also used for leadership courses by The Ontario Federation of Home and School, the Community Programmes Branch, the Guidance Branch, the Technical Research Council, the Ontario Physical Education Council, and the Ontario Recreation Association.

The excellent track and field facilities were used for the Provincial High School Track and Field Championships and for the Ontario Branch of the Amateur Athletic Union of Canada trials for the British Empire Games.

ONTARIO CAMP LEADERSHIP CENTRE

There were 222 counsellors-in-training selected by non-profit camps to complete the three-weeks' course at the Ontario Camp Leadership Centre at Irondale, and to return to give additional service to the camps sponsoring them. This camp site offered excellent opportunities for the counsellors-in-training to plan and evaluate programmes in nature lore, camp craft, water safety, and evening activities. Many of the graduates of these courses are planning to go into teaching.

This centre was used for the Camp Directors' Work Conference. Over 100 camp directors and camp committee members, representing camps from all parts of the Province, were in attendance.

A field staff of three people visited camps and made recommendations on facilities and programmes of over 200 camps. Over 350 non-profit camps have applied for grants. These grants exceeded \$40,000.

Public Libraries⁽²²⁾

PUBLIC LIBRARY USE

A substantial increase in the use of the public library service is taking place each year. In 1957 the public libraries issued 20,426,649 books for home use, and the library associations 817,462. If we add to these the 74,985 that were issued by the Travelling Libraries almost entirely through schools and miscellaneous groups, the total is 21,319,096. The improvement in quality of the books used still continues.

SUPPORT OF PUBLIC LIBRARIES

The vote for legislative grants to all libraries—public, association, county and regional—was \$1,105,000 in the fiscal year 1958-59. This was an increase of \$115,000 over that of the previous year. Once more the municipalities responsible for public libraries have increased their tax levies for this purpose. These levies have now reached a per capita level of 94 cents, an increase of 3 cents.

PROVINCIAL LIBRARY SERVICE

A milestone in the service was reached in 1957 when Dr. W. Stewart Wallace presented his report and recommendations on *Provincial Library Service in Ontario*. This report is likely to set the pattern which library developments will follow for many years. By December, 1958, three of Dr. Wallace's recommendations had been put into effect. Appointments have been made of an Assistant Director of Public Library Service, whose chief duties will pertain to the development of county and regional libraries, and of a Supervisor of Children's Library Service, whose efforts will be directed towards the improvement of book service for children in the smaller libraries. An extension of the Travelling Libraries has been effected by establishing a depot, or branch, at Moose Factory, under the direction of a librarian, which gives direct service to all residents of that area. It is intended that this depot will serve as a shipping point from which parcels of books will be sent to outlying posts along the coasts of James Bay. Consideration is also being given to the establishment, as recommended in the Wallace Report, of a second regional library, following the pattern of the Northwestern Regional Library Co-operative, in the territorial districts of Temiskaming and Cochrane.

BUILDINGS

New and highly satisfactory branch buildings have been provided for the library systems at Kingston, London, and Etobicoke Township. Northwestern Regional Library now has its own new headquarters building at Fort William. The Leaside Library has been greatly enlarged. The new public library at Bowmanville has moved into spacious quarters in the former post office building. The interiors of the buildings at Dryden and Woodbridge have been completely remodelled, and a further addition has been made to the comparatively new library buildings at Port Arthur. The cost of these building activities has been in the neighbourhood of \$360,000, borne chiefly by municipal tax levies, but supported also by legislative grants.

TRAVELLING LIBRARIES

As with the public libraries, the use made of the travelling library service continues to increase. During the twelve-month period, 1,583 cases of books were sent out, and from these, nearly 75,000 books were issued to local readers. It is noteworthy that the greatest use of this service is made by elementary schools in counties and territorial districts where there is no library service. Of the 1,583 cases

⁽²²⁾ See Table 77

sent out, 1,284 went to rural schools and only 166 to the small libraries. The Teachers' Reference Library issued 1,887 books to rural teachers individually. In fact, circulation increased in every department of this service.

Public Records and Archives

BUILDING

The two upper storeys of the new wing of the Archives and Canadiana Building were occupied by the Ontario Archives early in 1958. The space has been utilized for a microfilm room, a large and attractive map and picture room, and additional space for records, and offices.

MANUSCRIPT DIVISION

Government Records—During the year the original petitions presented to the Ontario Legislature and the original sessional papers, including those "not printed," with the corresponding indexes for each year covering the period 1867-1901, were transferred to the Archives by the Clerk of the Legislative Assembly. Other material, consisting chiefly of a well-organized collection of newspaper clippings covering events during the Hepburn administration, was received from the Office of the Prime Minister.

Preliminary inventories have been completed for the Department of Labour records and for the records of the Honourable George Drew as Leader of the Opposition, 1939-1943. Work is in progress on the records of the Ontario Rentals Administration.

Municipal, Legal, and Land Records—To date, over 2,700 reels of positive microfilm copies of municipal, legal, land, and church records have been received from the Salt Lake City Genealogical Society. These are principally copies of the records in a number of municipal offices and registry offices in Ontario. Each reel contains the equivalent of about 700 pages of manuscript, making a total of over a million and a half pages of these records now available in the Archives. Of these approximately 1,800 have been catalogued. Records are for municipalities in the following counties: Brant, Elgin, Essex, Haldimand, Halton, Huron, Kent, Lambton, Lincoln, Middlesex, Norfolk, Oxford, Perth, Waterloo, Welland, and Wentworth.

Non-Government Records—During the year several interesting groups of manuscripts have been acquired by the Archives. Most important are the private papers of the Honourable G. Howard Ferguson, Prime Minister of Ontario from 1923 to 1930, transferred to the Archives by the estate of the late Mrs. G. Howard Ferguson. This is a small collection, but contains many items of interest. Other acquisitions are the papers of Charles E. Ewing, a customs official at Cobourg, covering the years 1846-1898; the papers of the Cars family of Arnprior and Almonte (1863-1901); and four minute books of the Ontario Educational Association (1881-1923).

Microfilm copies of several diaries and family histories have also been obtained during the past year. The diaries include those of Captain William Johnson of Georgina Township, covering the years 1832-1850; that of Commander Henry Levisconté (1834-1835); and that of Hugh Nixon Shaw, concerning the early days of the oil industry (1861-1863). Among genealogical and similar studies are the Grubbe family history (1783-1934) and the autobiography and family history of the Rev. E. F. Wilson (1844-1915).

Additions were made during the year to an unusually large number of collections already in the Archives. Important additions were made to the papers of Sir James and Lady Edgar by Professor Keith Hicks; to those of T. C. Patteson, editor of

the *Toronto Mail*, by his daughter, Mrs. Charles MacInnes; to those of Sir John Beverley Robinson by his great-granddaughter, Mrs. Gilbert Bagnani; to the Honourable N. Clarke Wallace Papers by his daughter-in-law, Mrs. N. Clarke Wallace; and to the Henry Young Papers by Dean C. R. Young. The J. B. Robinson papers recently received consist of private letters to and from Sir John, private letters to Bishop Strachan, and journals and other notebooks of Sir F. P. Robinson, Sir J. B. Robinson, and Christopher Robinson. The journal of Sir F. B. Robinson (who for a brief period was Administrator of Upper Canada) is his diary when he was an officer in Wellington's army during the Peninsular War.

Microfilm copies of the Simcoe Papers in the Clements Library, Ann Arbor, Michigan, and of the T. G. Anderson Papers in the State Historical Society of Wisconsin, form interesting supplements to the Simcoe Papers and the few items in the Archives relating to T. G. Anderson. The librarian of the Huntington Library, Los Angeles, California, has kindly agreed to allow the Archives to purchase a microfilm copy of the J. G. Simcoe Letterbook in his possession.

Inventories of the Edgar Papers, the Ferguson Papers, and the papers of the Honourable S. B. Harrison were prepared during 1958. A guide to the land records (135 volumes) of the Canada Company, an important section of our Canada Company Papers, was also prepared. Preliminary descriptions of the Maclean Howard Papers and the Ewing Papers were made. The organization of the Clarke Wallace Papers and the preparation of a writer and subject index to the Mackenzie-Lindsey Papers are under way.

THE READING ROOM

The number of persons using the facilities of the reading room to the 30th of November was 1,485 in 1958, a slight increase over 1957.

THE LIBRARY

A large number of bound volumes of newspaper clippings, 1884-1942, a record of the debates in the Provincial Legislature during those years, was received from the Prime Minister's Office.

An important addition to the municipal and council records was the minutes and proceedings of the Council of the Township of Osprey, 1867-1892, and of the County of Grey for the years 1861 and 1864.

NEWSPAPERS

The chief acquisition in newspapers during the year was a fairly complete file (1851-1853) of the *St. Catharines Constitutional*, discovered in Cobourg by Mr. E. C. Guillet and presented to the Archives by the owner, Miss Etta Richardson, niece of the publisher. This has been placed on microfilm. Microfilm copies have also been made of the *Daily Toronto Leader*, 1853-1859, and of the *Orillia Packet and Times* (a continuation of last year's project) from 1894 to 1944.

Through the kindness of the librarian of the University of Pennsylvania, a microfilm copy was purchased of the *Provincial Freeman*, an influential abolitionist newspaper published principally in Chatham, 1853-1857.

MAPS AND PICTURES

Most of the maps were moved during the year from the basement to the new map room, thus ensuring better storage and an improved service to the public.

A card catalogue for pictures was begun last year and is now in the process of being completed. Preparations were also made to add to the picture collection. This year 2,421 pictures were added to the collection, nearly half being attributable to Mr. E. C. Guillet, who was appointed to the staff at the beginning of the year and travelled extensively in the Province. These new accessions were

drawn principally from the following areas: Toronto, Peterborough County, Gravenhurst, Cobourg, Mount Pleasant, Port Hope, Hamilton, Brantford, and Hastings County. Among these are reproductions, of which a number are in colour, of 180 paintings or drawings, the rest being reproductions of photographs or engravings.

In Memoriam

HARRY J. CLARKE, B.A., served as Public School Inspector for Hastings South until his retirement in August 1939. He died suddenly in Belleville on March 11, 1958. A tribute to the service of the late Mr. Clarke is to be found in the 1939 Report of the Minister of Education.

ROBERT C. EARL, B.A., B.Paed., passed away suddenly on December 17, 1958. He had been Inspector of Public Schools for Frontenac No. 1 and Addington No. 1 with residence at Sharbot Lake from his appointment on September 1, 1945, until his untimely death. Mr. Earl obtained his elementary school education in S.S. No. 3 Rear of Yonge and Escott. He attended Athens High School and Brockville Collegiate Institute. After attendance at Ottawa Normal School, he taught in Odessa Public School, Bath Public School, Mallorytown Consolidated School, Mount Elgin Public and Continuation Schools and Tamworth Continuation School. He was Principal of Flinton Continuation School at the time of his enlistment in the Royal Canadian Air Force as an education officer. Mr. Earl was a graduate of Queen's University in Arts and obtained his Bachelor of Pedagogy degree from the University of Toronto. His kindly visits to classrooms will long be remembered by those pupils and teachers with whom he came in contact.

RENE LAMOUREUX, B.A., Ph.D., who retired as Principal of the University of Ottawa Teachers' College on November 1, 1955, died in Ottawa on April 1, 1958, after a brief illness. A tribute to his service was given in the 1955 Report of the Minister.

J. ROBERT N. MACASKILL, B.A., Inspector of Separate Schools, Port Arthur Division No. 2, died suddenly on October 13, 1958. Mr. MacAskill had taught in the elementary separate Schools of Kirkland Lake and the Kirkland Lake Collegiate Institute and Vocational School. He was appointed an elementary school inspector on September 1, 1958.

ADAM MCLEOD, B.A., who was Provincial School Attendance Officer at the time of his retirement on December 31, 1957, died suddenly on June 26, 1958. A tribute to his service may be found in the 1957 Report of the Minister of Education.

FREDERICK P. SMITH, M.A., who retired on August 31, 1950, as Public School Inspector for Frontenac South No. 2 and the City of Kingston, passed away at his home in Kingston on November 29, 1958. A tribute to his service was given in the 1950 Report of the Minister of Education.

J. FRED UFFEN passed away in Wellesley Hospital, Toronto, on May 9, 1958, after a brief illness. Mr. Uffen had retired as an Executive Assistant, on October 31, 1955, after 35 years with the Government of the Province of Ontario. He gave outstanding service to Ontario in drafting regulations and other educational legislation.

Retirements

VERN N. AMES, B.A., B.Paed., was born in Northumberland County, attended Campbellville High School, Belleville Collegiate, Ottawa Normal School and the Ontario College of Education. He is a graduate of the University of Toronto in

Arts and in Pedagogy. His early experience was in rural and continuation schools after which he went to Hamilton in 1920 and served as principal of several large schools in that city. In 1938 he was appointed Inspector of Public Schools and in 1953 Superintendent of Public Schools by the Hamilton Board of Education. Mr. Ames has contributed greatly to the professional growth of principals and teachers, and has, through his interest in reading, arithmetic and curriculum revision, made an outstanding contribution to the standard of achievement throughout the City of Hamilton. Mr. Ames retired at the end of the 1957-58 school year.

ELMER C. BEACOM, B.A., B.Paed., retired as Principal of the North Bay Teachers' College on August 31, 1958. Born in Huron County, he attended elementary and secondary schools in Clinton. Upon graduation from high school, he served for three years during the first World War in the infantry, being wounded at Passchendaele. Upon his return to Canada, he attended the Faculty of Education, Toronto, graduating in 1919. For the next nine years Mr. Beacom served on the Toronto Public School staff with the exception of one year spent in England as an exchange teacher. During this period he obtained the Bachelor of Arts degree from the University of Toronto, and in 1928, was appointed Inspector of Public Schools for Huron West with residence at Goderich. In 1942 he was appointed to the staff of the Stratford Normal School; in 1947 he was appointed to the principalship of North Bay Normal School. He obtained in 1950 the Bachelor of Pedagogy degree from the University of Toronto. Mr. Beacom carried out his duties as Principal of North Bay Teachers' College with distinction, and during his long career as an educator, he influenced the lives of many young people through his work as teacher, principal and friend.

RALPH L. BURNS, B.A., resigned on August 31, 1958 from the position of Superintendent of Public Schools and Chief Inspector of Public Schools for the Scarborough Board of Education and returned to the school system of his native province of Nova Scotia. Mr. Burns was born in Annapolis County, Nova Scotia, and graduated from Acadia University. He taught in Nova Scotia for eight years, graduated from the Ontario College of Education and then taught in Keele St. Public School in Toronto for 18 years. He was appointed as a public school inspector by the Department for the inspectorate of Scarborough in September, 1952. When the Scarborough Board of Education was established in 1953, he was appointed Superintendent of Public Schools by that School Board. Mr. Burns made a significant contribution in the fields of administration and supervision of public schools during the formative years of this new organization.

WILLIAM E. EADE, B.A., B.Paed., retired on August 31, 1958, as Inspector of Public Schools for East York. He was a native of Scarborough Township in York County. His 23 years of teaching experience were spent in Gorme, Kincardine, Dryden and Fort William. In 1936, after serving as the Principal of Frances Public School in Fort William, he was appointed Public School Inspector for Rainy River with headquarters at Fort Frances. In 1943 he transferred to Haldimand County and in 1949 to East York. Mr. Eade is a graduate of Queen's University and the University of Toronto. Mr. Eade expected high standards of achievement in his classrooms. His sincerity, jovial manner and keen interest in people inspired his pupils, teachers and trustees to support his objectives with loyalty and enthusiasm.

CECIL C. GOLDRING, M.A., D.Paed., Director of Education, Toronto Board of Education, retired on September 30, 1958. Dr. Goldring was born in Port Whitby, Ontario County. He attended the Ontario College of Education and, on completion of that course, he was appointed to the staff of the Toronto Board of Education, beginning duty as an assistant master in Earl Grey School in September, 1912. As a result of extramural study and summer courses, he obtained his Bachelor of Arts, Master of Arts and Doctor of Pedagogy degrees. The Bachelor of Arts degree was obtained from Queen's University in 1918, the Master of Arts and the Doctor of Pedagogy degrees were obtained from the University of

Toronto in 1920 and 1924, respectively. In 1927 he was appointed a Public School Inspector for the City of Toronto, and in November, 1932, he became the first Superintendent of Schools for Toronto, having direction over all schools under the jurisdiction of the Toronto Board of Education. In 1945 his title was changed to Director of Education and in 1958 he was named Senior Official of the Board, in charge of all phases of the Board's administration. Dr. Goldring has written a number of books for the use of pupils, particularly in the field of citizenship. He is internationally known as an educationist and identified with many educational, civic and community organizations. The retirement of Dr. Goldring brought to a close an association of 46 years with the Toronto Board of Education, almost 26 of which were spent as its chief academic official.

WILLIAM MCKAY, B.A., B.Paed., Assistant Superintendent of Public Schools, Toronto Board of Education, retired on July 31, 1958. He was born in Uxbridge Township, Ontario County, and received his public and secondary school education in Uxbridge. He attended the Faculty of Education, Toronto, during the year 1912-13, obtaining a First Class certificate and a High School Assistant's certificate. In 1920 he graduated from Queen's University with a Bachelor of Arts degree and as a result of postgraduate studies, he obtained his Bachelor of Pedagogy degree from the University of Toronto in 1928. In the year 1911-12, before attending the Faculty of Education, Mr. McKay taught in the rural school No. 9 Mara and during the years 1913-15 he was principal of the town schools in Napanee. From Napanee he came to Toronto where he taught for thirteen years at Lansdowne Public School. He was appointed Principal of Victoria School in the year 1928 and later served as Principal of Pape Avenue, Gledhill and Park Schools. In May of 1945 he was appointed a Public School Inspector in the City of Toronto, acting in this capacity until August, 1956, when he was promoted to the office of Assistant Superintendent of Toronto Public Schools. Mr. McKay had the happy faculty of being able to give teachers the benefit of his wide experience and so he succeeded in raising the level of professional competence among all those who were fortunate enough to enjoy his influence.

ELIZABETH S. MITCHELL, M.S., B.A., Mus.Bac., retired from the position of Librarian at the North Bay Teachers' College on August 11, 1958. A graduate of the Faculty of Education, Toronto, she first taught in the Ottawa Public Schools. In 1925 Miss Mitchell joined the staff of the Ottawa Normal-Model School, transferring in 1940 to the staff of the Toronto Normal-Model School. When that school was discontinued in 1941, Miss Mitchell was transferred first to the staff of the Toronto Normal School and, then, in 1943, as Librarian, to the North Bay Normal School. A graduate of McGill University in Music and Toronto University in Arts, and a post-graduate student of Columbia University in librarianship, Miss Mitchell was eminently well qualified for her work and so was able to render excellent service to teacher education in the Province.

HELEN B. PAUL (Mrs.) B.A., Inspector of Public Schools, retired from the service August 31, 1958. Mrs. Paul's family home was at Lyn, Ontario. She attended Brockville Collegiate Institute and graduated from Queen's University with an Honour Degree in English and History. Following attendance at Model School, Mrs. Paul began her teaching career and then attended Ottawa Normal School. After service as Principal of Mallorytown Consolidated School and Continuation School, she was appointed a Supervising Teacher in Lanark County on September 1, 1938. She became an Assistant Inspector and Inspector of Public Schools continuing to serve in Lanark County until her retirement. Her visits to the public schools of Lanark County will be remembered by the many teachers and pupils whom she assisted.

JAMES V. SCANLAN, B.A., Separate School Inspector for the City of Hamilton retired on January 4, 1958. Mr. Scanlan was born in Walkerton and attended the local separate school. He received his secondary education in Montreal and taught

in St. Patrick's School, Montreal, De La Salle Institute, Toronto, and Brantford Collegiate Institute. He received his B.A., degree from Queen's University in 1920. Mr. Scanlan began his long service in the Department of Education in 1920 as an Inspector of English-French schools in the Counties of Russell, Prescott and the Districts of Nipissing, Temiskaming, Cochrane, Sudbury and Algoma. Next he served as Separate School Inspector for the County of Renfrew and the District of Nipissing. In 1931, he was appointed as a Separate School Inspector with an area east of Toronto. From 1935 to 1958 he was the Inspector of Separate Schools for the City of Hamilton. Mr. Scanlan was an able administrator, his leadership being characterized by a profound understanding of the needs and a kindly interest in the education of the separate school children in the areas where he served.

MR. L. L. SKUCE, B.A., B.Paed., who retired as Inspector of Public Schools of Halton No. 1 on September 1, 1958, was born in Victoria County and attended elementary and secondary schools there. He is a graduate of Peterborough Normal School, received his Bachelor of Arts from Queen's University and his Bachelor of Pedagogy from the University of Toronto. His teaching experience has included service in all grades from one to twelve in rural and urban schools. After teaching in the Continuation School at Sundridge he became a member of the staff of the North Bay Public Schools. In 1930 after having served as principal of the Dr. J. B. MacDougall Public School, North Bay, he was appointed Public School Inspector at Sudbury. In 1938 he was transferred to Halton County where he remained until 1958 with the exception of a two-year period during which he taught at Hamilton and Ottawa Normal Schools. His devoted service to the schools with which he was associated will be remembered by pupils, teachers and trustees. Recognition of his contribution was made when the Public School Board of Trafalgar Township School Area No. 1 received permission to name one of its new schools after Mr. Skuce.

ARCHIBALD STOUFFER, B.A., B.Paed., retired on August 31, 1958, as Inspector of Public Schools for Haliburton No. 1, Peterborough No. 3 and Victoria No. 2. He began his teaching career in S.S. No. 17 Markham Township in his native County of York. He then served as Principal of Stouffville Continuation School for ten and a half years and later as a science teacher in Weston Collegiate and Vocational School. He is a graduate of Queen's University and of the University of Toronto. He was appointed as a public school inspector in September, 1939, with headquarters in Minden. During the next nineteen years he served that inspectorate with patience and devotion. During that period most of the rural school sections were included in township school areas, and the boards established central graded schools. In like manner he encouraged the establishment of the Haliburton County High School District and the erection of the new high school. Mr. Stouffer is the editor of a set of science books for grades one to six.

BERTHA WATTS retired from the position of Instructor in Art at the Ottawa Teachers' College on December 31, 1958. Miss Watts is a graduate of the Ottawa Normal School and holds the Art Supervisor's Certificate from the Ontario College of Art. For many years she was employed by the Ottawa Public School Board which, from 1940 to 1954, made her services available on a part-time basis to the Ottawa Normal School. In September, 1954, Miss Watts retired from the public school staff but continued as part-time instructor at the Teachers' College. Bringing to her work the practical knowledge gained during her years as art supervisor, as well as marked artistic and creative ability, Miss Watts gave skilled leadership to the students in her classes and to the many teachers who sought her advice and assistance.

Service Record

DIED IN SERVICE

- R. C. Earl.....Elementary School Inspector, Elementary Education Branch, December 17, 1958.
J. R. N. MacAskill.....Elementary School Inspector, Elementary Education Branch, October 13, 1958.
H. E. Talbot.....Vice-Principal, Provincial Institute of Trades, March 12, 1958.

RETIREMENTS ON SUPERANNUATION

- E. C. Beacom.....Principal, North Bay Teachers' College, September 1, 1958.
W. E. Eade.....Elementary School Inspector, Elementary Education Branch, August 21, 1958.
Miss E. M. Mitchell.....Librarian, North Bay Teachers' College, August 11, 1958.
Mrs. Helen B. Paul.....Elementary School Inspector, Elementary Education Branch, September 1, 1958.
J. V. Scanlan.....Elementary School Inspector, Elementary Education Branch, January 4, 1958.
L. L. Skuce.....Elementary School Inspector, Elementary Education Branch, September 1, 1958.
A. Stouffer.....Elementary School Inspector, Elementary Education Branch, September 1, 1958.

RESIGNATIONS

- Mrs. C. M. Dubois.....Master, London Teachers' College, June 30, 1958.
J. D. Hanmer.....Elementary School Inspector, Elementary Education Branch, August 31, 1958.
G. F. Mann.....Elementary School Inspector, Elementary Education Branch, July 31, 1958.
J. E. Paterson.....Community Programmes Representative, May 31, 1958.
Miss Bertha Watts.....Instructor, Ottawa Teachers' College, December 31, 1958.

PROMOTIONS

- J. Boyd.....Audiological Services Adviser, Ontario School for the Deaf, formerly Teacher, Ontario School for the Deaf, September 1, 1958.
A. J. Clare.....Dean of Residence, Ontario School for the Deaf, formerly Teacher, Ontario School for the Deaf, September 1, 1958.
P. H. Cunningham.....Superintendent, Business Administration, formerly Chief, Grants Office, October 1, 1958.
A. J. Hanchard.....Assistant to Superintendent, Business Administration, formerly Executive Officer, October 1, 1958.
D. E. Kennedy.....Assistant Superintendent, Ontario School for the Deaf, formerly Elementary School Inspector, September 1, 1958.

- D. G. W. McRae.....Principal, The Western Ontario Institute of Technology, Windsor, formerly Vice-Principal, Ryerson Institute of Technology, April 1, 1958.
- M. B. Parnall.....Principal, North Bay Teachers' College, formerly Master, Toronto Teachers' College, September 1, 1958.
- F. S. Wilson.....Chief, Grants Office, formerly Assistant to the Superintendent, Business Administration, October 1, 1958.

TRANSFERS

A—Between Branches

- Miss H. Fletcher.....Master, Toronto Teachers' College, formerly Master, Stratford Teachers' College, September 1, 1958.
- Miss W. U. K. Pauli.....Master, Stratford Teachers' College, formerly Master, North Bay Teachers' College, September 1, 1958.

B—To Other Government Departments

- A. E. Stacey.....Superintendent, Business Administration, to become Chairman of the Ontario Civil Service Commission, July 1, 1958.

C—In Elementary School Inspectorates

- B. H. Bennett.....from Renfrew No. 3 to Waterloo No. 1 and City of Waterloo, September 1, 1958.
- L. L. Charette.....from Hearst R.C.S.S. Division to Haileybury R.C.S.S. Division and Temiskaming No. 11, September 1, 1958.
- W. G. MacDonald.....from Middlesex No. 3, assisting Inspector E. Oakes, to Lambton No. 3 and Middlesex No. 5 (new inspectorate), September 1, 1958.
- N. E. Ward.....from Brant No. 1, assisting Inspector J. C. Webster, to Haliburton No. 1, Peterborough No. 3 and Victoria No. 2, September 1, 1958.

APPOINTMENTS

A—By Boards which employ their own supervisory officers

Fort William

- J. O. Lees.....Public School Inspector, September 1, 1958.

Halton No. 2 (Trafalgar T.S.A. No. 1) (New Inspectorate)

- L. L. Skuce.....Superintendent of Public Schools, September 1, 1958.
W. K. M. Armstrong.....Public School Inspector, September 1, 1958.

Hamilton

- J. W. VanLoon.....Superintendent of Public Schools, September 1, 1958.
P. W. Diebel.....Public School Inspector, September 1, 1958.

Kitchener

- R. W. MacLean.....Public School Inspector, September 1, 1958.

Ottawa

- C. B. Storr.....Public School Inspector, August 1, 1958.

Port Arthur (New Inspectorate)

TABLE 12—PROFESSIONAL CERTIFICATES ISSUED DURING 1957-58
(September 1, 1957 to August 31, 1958)

A—Interim Certificates

1. Intramural

	First Certificate	Up- Grading
Elementary		
1. Second Class (University of Ottawa Teachers' College)		
(a) One-year Course	208
(b) Completion of Three Summer Sessions	33
2. Elementary-School Teacher's Teachers' Colleges		
(a) One-year Course, including, 12 Deferred Elementary-School Teacher's Certificate from University of Ottawa Teachers' College	1,636
(b) Second year of Two-year Course	359
(c) Completing Year (at Teachers' College) of In-Service Course	452
Ontario College of Education		
Elementary-School Teacher's Option	18
3. Primary School Specialist's		
(a) to candidates entering with B.A. degree only	21
(b) to candidates entering with Elementary-School Teacher's Certificate		13
Total, Elementary	2,727	13
Secondary		
4. High School Assistant's, Type B		
(a) One-year Course	120
(b) Completion of 10-week Summer Session 1957 and 5-week Summer Session 1958	425
(c) Departmental 5-week Summer Course		107
5. High School Assistant's Type B (endorsed)		152
6. High School Assistant's, Type A (taken concurrently with Type B but not included in the 120 above)		
(a) One-year Course	84
7. Vocational, Type B		
(a) One-year Course	50
(b) From Summer Sessions	1
8. Vocational, Type A		27
9. Intermediate Home Economics		30
10. Intermediate Industrial Arts	5	25
Total, Secondary	685	341
Elementary		
2. Extramural		
1. Second Class		
(a) raised from Third Class		16
(b) to candidates re-writing Teachers' College papers	15
(c) to holders of Letters of Standing	70
2. First Class		
(a) raised from Second Class		6
(b) to candidates re-writing Teachers' College papers	57
(c) to holders of Letters of Standing	77
3. Elementary-School Teacher's		
(a) raised from Second Class		287
(b) to candidates re-writing Teachers' College papers	81
(c) to holders of High School Assistant's Certificate		5
(d) to holders of Letters of Standing	290
(e) to holders of Kindergarten-Primary Certificates		1
Total, Elementary	590	315
Secondary		
4. High School Assistant's, Type B		
(a) from O.C.E. having written the final examinations after exemption from attendance because of training elsewhere	51	25
(b) to holders of Letters of Standing	64
5. High School Assistant's, Type A		
(a) from O.C.E. having written the final examinations subsequent to obtaining the Type B certificate		102
(b) to holders of Letters of Standing	2	1
Total, Secondary	117	128
Grand Totals	4,119	797
Total Number of Interim Certificates Issued		4,916

NOTE: The figure, 4119, does not include:

- (a) the 1120 Temporary Certificates granted upon successful completion of the Pre-Teachers'-College Course, First Year, or
- (b) the 713 Temporary Secondary School Certificates granted upon successful completion of the 10-week (1958) session of the 10-week and 5-week course at O.C.E., or
- (c) the 50 Deferred Second Class Certificates issued upon successful completion of the first summer session of the In-service course at the University of Ottawa Teachers' College.

1956	11,043	46	14,080	17,285,000
1957	17,920	66	22,890	29,209,000
1958	18,550	58	18,750	26,081,000
Totals	111,567	492	132,630	176,330,000

Notes: 1. Enrolment increases are calculated on September enrolments.

2. Building projects are counted in the year of completion.

3. No account is taken in this table of pupil-places lost as a result of the following factors; shift from urban to suburban areas, fire losses, replacement of temporary and obsolete accommodation, and abandonment of small buildings to permit centralized facilities.

TABLE 45—ROMAN CATHOLIC SEPARATE SCHOOL ENROLMENT

(Continuous Record from September, 1957, to September, 1958)

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1957 223,881

ADMISSIONS SINCE LAST SCHOOL DAY IN SEPTEMBER:

(a) Beginners: pupils whose names were entered on the roll of a separate school for the first time.....	32,865
(b) Pupils enrolled previously in another public or separate school in Ontario.....	47,785
(c) Pupils entering from private schools.....	718
(d) Pupils re-entering school after a period of non-attendance at any school.....	658
(e) Pupils from outside Ontario.....	5,260

TOTAL ADMISSIONS 87,286

TOTAL, SEPTEMBER, 1957 ENROLMENT AND ADMISSIONS 311,167

TRANSFERS SINCE LAST SCHOOL DAY IN SEPTEMBER 55,051

RETIREMENTS SINCE LAST SCHOOL DAY IN SEPTEMBER:

(a) Left Ontario.....	2,880
(b) To private schools.....	4,270
(c) Died.....	94
(d) Health reasons.....	586
(e) Ceased to attend school (other than in (a), (b), (c), or (d))..	4,855

TOTAL RETIREMENTS 12,685

TOTAL TRANSFERS AND RETIREMENTS 67,736

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1958 243,431

TABLE 57—SECONDARY SCHOOL ENROLMENT
(Continuous Record from September, 1957 to September, 1958)

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1957..... **203,525**

ADMISSIONS SINCE LAST SCHOOL DAY IN SEPTEMBER:

(a) Beginners: pupils whose names were entered on the roll of a secondary school for the first time:	
(i) from public and separate schools.....	64,534
(ii) from private schools.....	1,327
(b) Pupils enrolled previously in another secondary school in Ontario.....	17,259
(c) Pupils re-entering school after a period of non-attendance.	2,224
(d) Pupils from outside Ontario.....	2,409

TOTAL ADMISSIONS..... **87,753**

TOTAL, SEPTEMBER, 1957 ENROLMENT AND ADMISSIONS..... **291,278**

TRANSFERS SINCE THE LAST SCHOOL DAY IN SEPTEMBER..... **16,603**

RETIREMENTS SINCE THE LAST SCHOOL DAY IN SEPTEMBER:

(a) Death, disability, marriage, etc.....	1,316
(b) Left Ontario.....	2,013
(c) To continue their education.....	13,482
(d) Ceased to attend school (other than (a) and (b)).....	35,789
TOTAL RETIREMENTS.....	52,600

TOTAL TRANSFERS AND RETIREMENTS..... **69,203**

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1958..... **222,075**

**TABLE 61—EVENING CLASSES HELD IN SECONDARY SCHOOLS
1957-1958**

Evening classes were conducted in 177 centres throughout the Province for 91,093 pupils during 1957-58. The table below shows the percentage distribution of the enrolment in evening classes by subjects of study:

Subject	Percentage Distribution of Enrolment
Academic.....	25.1
Industrial.....	23.7
Commercial.....	19.5
Home Economics.....	15.5
Arts and Crafts.....	9.0
Agriculture.....	0.5
Other.....	6.7
Total.....	100.0

TABLE 69—TRANSPORTATION ASSISTANCE FOR PERSONS RESIDING IN THE TERRITORIAL DISTRICTS
1957-58

The Province of Ontario provided transportation assistance to 675 students during the school year 1957-1958. \$13,735.35 was paid to 470 students residing east of Sault Ste. Marie and 205 students residing west of Sault Ste. Marie. Of those assisted 230 were in the first year, 190 in the second year, 144 in the third year, 106 in the fourth year, 5 in the fifth year and 0 in the sixth year.

The institutions attended by these students were as follows:

Queen's University.....	193
University of Toronto.....	153
University of Western Ontario.....	158
University of Ottawa.....	49
Assumption College.....	43
Osgoode Hall Law School.....	37

Report of The Minister of Education

1959

To The Honourable J. Keiller Mackay, D.S.O., V.D., LL.D.,
Lieutenant-Governor of the Province of Ontario.

Your Honour:

With all respect I present the Report of the Department of Education for the year 1959.

For over eleven months of the year the Department of Education was administered by The Honourable William J. Dunlop. My association with the Department as Minister began on December 17, 1959.

In September, 1959, the enrolment in elementary and secondary schools reached an all-time high of 1,319,225. In that month the enrolment in elementary schools was 1,081,649, or twice the enrolment of September, 1946; the enrolment in secondary schools was 237,756, or 92 per cent higher than the enrolment in September, 1948. While this unprecedented increase in elementary school enrolment has been largely caused by the sharp increase in the number of births since September, 1946, the increase in secondary school enrolment must be chiefly attributed to the facts that a much higher percentage of young people are enrolling in secondary schools and that they are, on the average, staying longer in school.

It is encouraging to note that, accompanying this increase in the number of pupils, the number of prospective teachers attending the Teachers' Colleges has been rapidly increasing. In the autumn of 1959 there were 5,951 student-teachers enrolled in the Teachers' Colleges. This enrolment was over four times the number enrolled ten years ago.

Egerton Ryerson reported in 1850 that there were in existence 3,407 school sections, with schools in 3,057 of them. He deplored the tendency to increase the number of sections and to reduce them to too narrow limits by frequent changes in their boundaries. The modern reflection of this view is to be found in the development of township school areas and large central schools. By June, 1959, a total of 459 central schools, with 2,426 classrooms, had brought about the closing of 1,035 one-room schools. The fact that 86 of these central schools were opened since September, 1958, indicates that the trend towards centralization is gathering momentum.

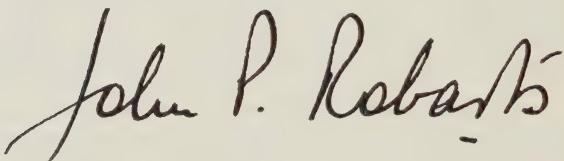

The Ontario Student-Aid Programme has been expanded in two major ways in 1959. The first was the introduction of Ontario Scholarships valued at \$400 each and available to all secondary school students attaining a minimum average of 80 per cent on eight papers, including two in English, of the Grade 13 examinations. The second development has been the increase from \$550,000 to \$1,200,000 in the appropriation for bursaries and scholarships, quite apart from the \$3,000,000 available for Student-Aid Loans. Also noteworthy is the inauguration of the Queen Elizabeth II Scholarship Fund of \$500,000 for the encouragement and support of post-graduate studies in Ontario universities.

The programme of Grade 12 objective-style tests in both scholastic aptitude and subject achievement, begun on an experimental basis in the spring of 1958 and extended to all Grade 12 pupils in the General Course in 1959, is being continued and further extended during the current school year to include Grade 12 pupils of all courses in both provincial and private schools.

In 1953, an amendment to The Department of Education Act made it possible for the Province to provide financial assistance to local Associations for Retarded Children which operate classes for trainable retarded children. Subsequent developments in this special field have far exceeded expectations. In June, 1959, there were 54 local Associations for Retarded Children operating classes with a total enrolment of approximately 1,600 children.

Developments in various branches of educational endeavour are dealt with in this, the annual Report of the Department of Education for 1959. Statistical summaries covering all aspects and phases of the system are to be found in Part Two of this volume. The school system of Ontario, as the following pages show, is an exceedingly complex structure, developed to meet the educational needs of adults as well as children, and operating in a period of tremendous growth and expansion. In this period substantial efforts are being made to maintain and raise standards and to provide the widest possible range of educational facilities to meet the needs of all the citizens of our Province.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "John P. Robarts".

Minister of Education.

Toronto, January 8, 1960.

Elementary Education

ENROLMENT

The total enrolment of pupils in elementary schools in September, 1959, was 1,081,649, of whom 817,880 were enrolled in public schools and 263,769 in separate schools. This was an increase of 54,051 in one year. It is significant that the enrolment in September, 1959, in elementary schools was double that of September, 1946.

BUILDING PROGRAMME

In 1959, elementary school accommodation in Ontario was increased by 73,605 pupil places, provided in 427 new buildings and additions, at an estimated cost of \$56,672,000. From 1945 to 1959 inclusive, 601,000 pupil places were provided at an estimated cost of \$401,207,000.⁽¹⁾

CENTRAL SCHOOLS

In many parts of the Province, smaller schools have been replaced by a central school or schools. A survey of June, 1959, revealed that 459 central elementary schools with 2,426 classrooms were in operation. There were 1,035 one-room schools which were closed when these central schools were established. When it is noted that 86 of the 459 central schools have been opened since September, 1958, the trend towards centralization becomes very evident.

In the larger schools thus provided, it is generally possible to engage better-qualified principals capable of giving enlightened supervision, to make available specialized instruction in the regular subjects, to give courses in special subjects such as Industrial Arts, Home Economics and Physical Education, and to make some specific provision for exceptional children. Central schools tend to attract better-trained teachers who seek closer association with other teachers and who prefer graded classes and more modern teaching facilities. In a central school the number of pupils in each classroom can be more easily controlled and it has been frequently possible to reduce the number of classrooms needed, with a consequent saving which may be applied to the necessary transportation costs.

The tremendous increase in paved-road mileage since World War II, and the high standard of highway maintenance, have made the bus service required by the central school much easier for school boards to provide. The broader and more effective educational opportunities made available to rural children by larger graded schools are a source of satisfaction to pupils, parents, teachers, trustees and ratepayers in the centralized areas, as well as a powerful motivating force for the establishment of similar schools in those areas not presently served by them.

INTERNSHIP PLAN

With the increasing enrolment in the elementary schools of the Province and the building of many new schools, the need for elementary-school inspectors has increased and the number of candidates for the examinations for the Elementary-School Inspector's Certificate has grown larger each year. Since 1955, a number of these candidates have been able to take part in a new programme in preparation for the examinations for the certificate. The programme is called the Internship Plan in Supervision and is sponsored by the Ontario College of Education and approved by the Department of Education.

Sixty-two teachers who have been working towards a post-graduate degree in Education have been placed with experienced inspectors in the field for the two-week period of their internship, since the plan was inaugurated. During January to

¹⁾ See Table 19

March, 1959, twenty-four students each spent a two-week period studying certain practical aspects of school inspection. This included the supervision of classroom teaching, the administration of elementary schools, and other duties of an elementary-school inspector, who is charged with the responsibility of bringing about improvement in the work done in the classrooms by inspiring the teachers and pupils, and by sympathetically assisting the teachers to improve their practice. Sixteen elementary-school inspectors who have participated in the Internship Plan are now employed by the Department of Education.

Secondary Education

ENROLMENT

The total enrolment of pupils in secondary schools in September, 1959, was 237,576. By courses, the enrolments were as follows: General 118,337; Commercial 29,248; Commercial Special 1,887; Technical 20,516; Home Economics 412; Art 638; Special Industrial 1,318; and Special Courses 2,220.

The total number of full-time teachers (including principals) in September, 1959, was 10,464, an increase of 891 over that of the previous year. With an allowance for part-time teachers, the pupil-teacher ratio in September, 1959, was 22.4 to 1, as compared with 22.9 in 1958 and 23.2 in 1957.⁽²⁾

BUILDING PROGRAMME

There were 14 new secondary school buildings completed in 1959 and additions were made to 56 existing school buildings at a total cost of approximately \$25,193,000.⁽³⁾

TRANSPORTATION

During the school year 1958-59, secondary school boards furnished transportation for 62,152 pupils, an increase of 9 per cent over the previous year. These pupils were transported over 1,885 routes at a cost of \$29,992 per day.⁽⁴⁾

The number of pupils transported to secondary schools by elementary school boards decreased again this year.

Provision has been made for certain secondary school boards, with the approval of the Ontario Municipal Board, to enter into agreements with an operator to furnish transportation for more than one year but not more than five years.

PROVINCIAL STUDENT-AID PROGRAMMES

With the inauguration this year of Ontario Scholarships and a generous increase in the bursary appropriation, the Provincial Student-Aid programme has assumed a well-rounded, comprehensive form. Through the provision of scholarships, bursaries, and loans, it now gives an incentive to students to do the best work of which they are capable, and at the same time it takes care of the needs of those who have shown that they merit financial assistance in pursuing a formal education.

In the fiscal year 1958-59, \$549,521 was expended in bursary awards to a total of 2,346 students. Of this sum, the Dominion Government contributed \$100,000. During the same period, loans totalling \$545,870 were made to 1,380 applicants—a substantial number for the first year of the Loan Fund's operation.

For the fiscal year 1959-60, the sum of \$1,200,000 has been set aside for bursaries and scholarships, while the "drawing account" for student-aid loans remains at \$3,000,000. Under these circumstances, it will be possible to assist an even larger number of capable and deserving students.⁽⁵⁾

(2) See Tables 56 and 58
(3) See Table 19

(4) See Table 18
(5) See Table 66

DEPARTMENTAL TESTING PROGRAMME IN GRADE 12

In order to assist principals and teachers, especially the many young teachers in secondary schools, to set and maintain adequate standards of promotion and to recommend on a uniform provincial basis their candidates for the Secondary School Graduation Diploma, tests were administered to all Grade 12 pupils in the General Course of the secondary schools and of provincially-inspected private schools in the subjects of English and French. The results of these tests, held in the spring term of 1959, were made available to the principals for use at their discretion in making promotions in June. This programme has proved of such value to the schools and to the Department that it will be continued and extended in 1959-60.

TECHNICAL INSTITUTES

The technical institutes, which are organized under The Department of Education Act, and which, in general, operate under advisory committees, offer advanced technological education between the levels provided in secondary schools and in the universities.⁽⁶⁾

INSTITUTES OF TECHNOLOGY

Four institutes of technology—Ryerson Institute of Technology, Toronto; The Hamilton Institute of Technology; The Eastern Ontario Institute of Technology, Ottawa; and The Western Ontario Institute of Technology, Windsor—provide a three-year programme leading to employment in business and industrial occupations; they also offer evening classes for employed persons who wish to improve their education. At all of these institutes there is a common first-year course for aeronautical, chemical, electrical, electronic, instrument, gas, mechanical, and metallurgical technologies.

The Provincial Institute of Mining at Haileybury offers a two-year Diploma Course in technological subjects relating to mining. An addition to its building and some remodelling have just been completed, providing a suitable milling laboratory, a new classroom to serve both milling and fire assaying, administrative offices, a staff room, students' common room, and a school library.

On September 30, 1959, there were 2,734 students enrolled in the day courses in the five institutes mentioned, and 3,343 in the evening courses.

LAKEHEAD COLLEGE OF ARTS, SCIENCE AND TECHNOLOGY

Although The Lakehead College of Arts, Science and Technology, Port Arthur, now operates under a Board of Governors, it continues to receive financial assistance from the Ontario Department of Education. This institution offers first-year university courses in arts and science, and also conducts two-year technological courses in forestry, mining, and industrial chemistry.

THE PROVINCIAL INSTITUTE OF TRADES

The Provincial Institute of Trades, Toronto, was established in 1951 to provide "in-school" training for apprentices in trades designated under The Apprenticeship Act of the Department of Labour of the Province of Ontario. In 1959, the enrolment on the last day of September included 660 students on a ten-week course in the designated trades, and 103 students in courses of varying lengths in the non-designated trades. In the designated trades, four classes are admitted per year. The evening class programme, designed to encourage tradesmen to up-grade their training, had 1,569 persons enrolled on November 1, 1959.

PRIVATE TRADE SCHOOLS

Under The Trade Schools Regulation Act, 156 privately owned and operated trade schools were registered in 1959. Of this group, 8 ceased to operate during the year and 12 were new registrations. There are 12 applications pending.

⁽⁶⁾ See Table 72

The co-operation of the Better Business Bureau and certain newspaper advertising managers has been of great assistance in maintaining the standards of these private schools. In the main, the quality of instruction appears to be adequate. The students are receiving satisfaction from their training and few complaints have been received.(7)

Teacher Education

TEACHERS' COLLEGE ENROLMENT

A total of 5,951 students enrolled in the Teachers' Colleges in the autumn of 1959—an increase of 1,263 or approximately 27 per cent over the enrolment in the previous year. Of these students, 3,091 were registered in the One-Year Course, 1,442 in the first year of the Two-Year Course, 779 in the second year of the Two-Year Course, and 639 in the completing year of the In-Service Course. Approximately 27 per cent of the students were men, an increase of 2 per cent over the previous year. An additional 38 instructional staff members were appointed in September, 1959, to serve the increased enrolment.(8)

At the Ontario College of Education, 581 students were enrolled in the various courses leading to the High School Assistant's, Library, Vocational, and Industrial Arts Certificates—an increase of 97 over the previous year. The proportion of men students enrolled increased from approximately 59 per cent in 1958 to 62 per cent in 1959.(8)

TEACHER SUPPLY

The supply of teachers for elementary schools was maintained by an increase in the number of graduates of the Teachers' Colleges and the operation of Pre-Teachers'-College Summer Courses. Approximately 3,400 students graduated in June, 1959, from the provincial Teachers' Colleges. Of these, 2,396 were in the One-Year Course, 448 were in the second year of the Two-Year Course, and 505 were in the completing year of the In-Service Course.

The steady improvement in teacher supply made possible the raising of academic requirements for admission to the Pre-Teachers'-College Summer Courses, and in 1959 the Secondary School Graduation Diploma of the General Course with at least four options was required instead of three options as previously demanded. A total of 734 graduates of the Pre-Teachers'-College Summer Courses, First Year, all of whom held standing in at least four options as required, and 923 graduates of the Pre-Teachers'-College Summer Course, Second Year, were granted Temporary Certificates at the Toronto and Port Arthur centres. In addition, at the University of Ottawa Teachers' College, 88 candidates with teaching experience under Letters of Permission obtained Deferred Interim Second Class Certificates, and 33 obtained Interim Second Class Certificates. These certificates are valid in elementary schools where French is a subject of instruction with the approval of the Minister.(9)

Announcement has also been made that, beginning in September 1961, the academic requirement for admission to the Two-Year Course at the Teachers' Colleges will be the Secondary School Graduation Diploma of the General Course with at least four options, instead of the three options previously demanded.

Letters of Standing, valid in Ontario's elementary schools and granted to well-prepared teachers from other provinces of Canada or other countries in the Commonwealth, totalled 610 in the school year 1958-59. Letters of Permission issued to boards of trustees on behalf of uncertificated teachers in elementary schools totalled 638 by the end of November for the school year 1959-60.

(7) See Table 74

(8) See Table 10

(9) See Table 12

The summer course programme for the preparation of secondary-school teachers was continued in 1959. A total of 915 candidates enrolled in the first ten-week summer session, an increase of 166 over 1958. In the second summer session of five weeks, 687 candidates represented an increase of 217 over 1958.

For the school year 1958-59, a total of 134 Letters of Standing valid for teaching in Ontario were granted to secondary-school teachers trained in other provinces of Canada or other countries of the Commonwealth. By November 30, 1959, a total of 45 Letters of Standing had been granted for the current school year. Letters of Permission, issued to school boards on behalf of secondary-school teachers not in possession of certificates for the position held, totalled 521 by the end of November for the school year 1959-60. Of this number, 251 were for teachers holding basic secondary-school teaching certificates.

NEW BUILDINGS

The new building of the Lakeshore Teachers' College opened for use in September, 1959, with 809 student teachers in attendance. This attractive two-storey structure is located on a site overlooking Lake Ontario in New Toronto and contains an auditorium, gymnasium, library, cafeteria, offices and general and special instructional classrooms. The official opening ceremony of the newly established Teachers' College was held on November 18, 1959.

Planning has been completed for the new Lakehead Teachers' College at Port Arthur and construction on this building is expected to begin early in 1960.

Curriculum Development

CURRICULUM

The Curriculum and Text-books Branch exercises supervision over the preparation of courses of study and is also concerned with the provision of suitable textbooks. The officials of the Branch are assisted in the work of curriculum revision by committees made up of inspectors, directors of special subjects, instructors in Teachers' Colleges, and well-qualified classroom teachers.

New courses introduced in 1959 include a programme in Physical Education for the Junior Division, courses in History for Grades 7, 8 and 9, and courses in Art for Grades 11 and 12. Revised courses included the Technical course and senior History and Geography courses, all for secondary schools. Committees are continuing work on the revision of Science courses for the Intermediate Division and senior Mathematics and Biology.

Local co-ordinating committees continue to exercise the powers granted them in 1950 to make adjustments in existing courses to meet local requirements. In practice, the divergence from the courses outlined in departmental circulars is not great because the available text-books are related to the departmental courses. In Grades 11, 12, and 13, schools are expected to follow the courses laid down to meet the requirements for the graduation diplomas and the departmental examinations.

TEXT-BOOKS

In recent years encouragement has been given to publishers to develop text-books written specifically for Ontario courses of study by Canadian authors. It has, indeed, been the declared policy of the Department of Education that, in preparing the list of approved books to which text-book grants were applicable, preference would be given to books of Canadian authorship. Under this policy there has been a gradual removal of books of foreign origin from the approved list, until at the present time there are few such books left.

In the past year, books written specifically for the new History courses of Grades 7, 8 and 9 have been published, and in their preparation the authors and publishers have been in frequent consultation with the Curriculum Branch. At the same time, the first series of Canadian readers for the Primary Division and a series of spellers for all the elementary grades have appeared. The publication of these books and their addition to the approved list made possible the removal of books of American origin which have monopolized these fields for many years. Other books—readers, spellers, history, geography, and science books—are in preparation.

Professional Development

SERVICES

The Professional Development Branch, organized in June, 1957, promotes the in-service growth of teachers in the elementary schools. An Assistant Superintendent of Secondary Education gives special attention to this work in the secondary schools.

Officials of the Branch assisted school inspectors and teachers to organize various types of in-service education programmes designed to improve teaching techniques. At conferences, workshops and discussion groups, efforts were made to acquaint teachers with the latest trends and practices in the teaching of the various subjects of the curriculum.

HELPING TEACHERS

During September and October, 1959, forty-seven experienced "helping" teachers were employed to assist teachers with limited training and experience. The supervision and administration of this project were the responsibility of the Professional Development Branch. Reports from inspectors in whose inspectorates "helping" teachers were employed, indicate that many beginning teachers received invaluable assistance during the first two months of their teaching experience.

SUMMER COURSES

In co-operation with the Registrar's Branch and the other superintendents in the Department, the Professional Development Branch supervised various summer schools and courses operated for elementary school teachers, other than those supervised by the Teacher Education Branch.

READING COUNCILS

Reading Councils to improve the teaching of reading were organized in many centres throughout the Province. Through attendance at meetings of these Councils, many teachers become aware of the best practices in the teaching of reading.

Schools Attended by French-speaking Pupils

TEACHER SUPPLY

On October 15, 1959, there were 384 student teachers at the University of Ottawa Teachers' College, 22 of whom were enrolled in the course leading to the Elementary Teaching Certificate, 18 in the course leading to the Deferred Elementary Teaching Certificate, and 344 in the course leading to the Second Class Certificate.

In 1929-30, 25 per cent of French-speaking teachers held First or Second Class Certificates; in 1958-59, 89.9 per cent of French-speaking teachers held First or Second Class Certificates.

SECONDARY SCHOOL ENROLMENT

On September 30, 1959, the total enrolment of French-speaking pupils taking advanced French courses in secondary schools was 4,737. There were, in addition, 4,457 French-speaking pupils enrolled in Grades 9 and 10 of elementary schools.⁽¹⁰⁾

ELEMENTARY SCHOOL ENROLMENT

On September 30, 1959, there were 80,084 French-speaking pupils enrolled in separate and public schools, an increase of 3,417 over the preceding year. The number of French-speaking pupils in kindergarten classes was 5,007.⁽¹¹⁾

CORRESPONDENCE COURSES

Correspondence Courses for French-speaking pupils in Grades 1 to 8 have been available since 1946. The number of pupils taking these courses in November, 1959, was 44, and all grades were represented.

School Attendance

ENROLMENT

The total enrolment in elementary and secondary schools in September, 1959, was 1,319,225, an increase of 69,552 over the preceding year. The elementary schools showed an increase of 54,051 and the secondary schools an increase of 15,501. For the school year 1958-59 the attendance efficiency of all elementary schools was 94.3 per cent; of secondary schools, 94.0 per cent.⁽¹²⁾

COMPULSORY SCHOOL AGE

Children who have attained the age of six years on or before the first school day in September are required, unless excused under the provisions of The Schools Administration Act, 1954, to attend school from that date until the last school day in June of the calendar year in which they attain the age of sixteen years.

A child may be granted a home permit or an employment certificate if his services are urgently required at home, or in some gainful occupation elsewhere. A child under fourteen years of age may be granted a home permit or an employment certificate for a period of not more than six weeks in a term.

EMPLOYMENT

The number of home permits issued during the year 1958 was 1,643, a decrease of 68 from 1957. The number of employment certificates issued was 5,279, a decrease of 201 from 1957. It is an encouraging fact that the number of home permits and employment certificates is decreasing.⁽¹³⁾

Agriculture

ELEMENTARY SCHOOLS

Agriculture is an optional subject for elementary schools. No separate course of study is provided, but agricultural topics are included in the Natural Science and Science courses.

⁽¹⁰⁾ See Tables 42, 54 and 64

⁽¹²⁾ See Table 1

⁽¹¹⁾ See Tables 42 and 54

⁽¹³⁾ See Table 15

SECONDARY SCHOOLS

Instruction in Agriculture is provided in secondary schools in two ways. Courses in Agricultural Science may be given as alternatives to General Science, Physics, and Chemistry in Grades 9 to 12. These courses are given in 130 schools in Grades 9 to 12 and in 27 schools in Grades 9 and 10 only. There are 55 schools in which only the Agricultural Science option is taught. The other provision for agricultural instruction is the creation of a department of Agriculture in a school and the organization of a two-year course for Grades 9 and 10, which includes Agriculture and Shop Work for boys and Home Economics for girls. In September, 1959, there were 102 schools with departments of Agriculture.⁽¹⁴⁾

The total number of pupils taking Agricultural Science for the school year 1958-59 was 57,591 and taking Agriculture, 10,643. There were 13,977 pupils carrying on home projects in connection with their school work.

PRACTICAL WORK

In addition to the regular classroom and laboratory work, most schools provide gardening or require home projects. In addition, many schools are equipped with poultry houses, colonies of bees, and other special facilities for practical work. Agricultural buildings and tractors have been provided by 85 of the schools with departments of Agriculture. At five schools, greenhouses have been provided.

DESTINATION OF PUPILS

A survey made in January, 1959, shows that many secondary school pupils have continued their education in Agriculture. There were 26 pupils from 14 schools attending the Kemptville Agricultural School, 43 pupils from 16 schools taking courses at the Western Ontario Agricultural School in Ridgetown, 26 pupils from 17 schools taking the Diploma Course at the Ontario Agricultural College, and 90 pupils from 52 schools taking the Degree Course at the Ontario Agricultural College.

Art

RESEARCH

Saturday morning classes were conducted for children with outstanding ability in art at the Ontario College of Art from October to March in the year under review. A staff of four artist-teachers was employed to teach 80 gifted pupils. At the close of the session, a large and attractive display of the children's work was arranged in the College. Many teachers visited the display to study the results of these special classes.

SUPERVISION AND TRAINING

The programme of Art in secondary schools was given special attention. Schools at which general inspections were held were visited and their programmes in Art evaluated.

Meetings of elementary school teachers were held in several inspectorates and workshops were conducted in a number of rural areas.

The Summer Courses in Art were again attended by large numbers of enthusiastic teachers. Courses were offered in two centres—Toronto and North Bay. In Toronto, courses leading to all Art certificates were held, while in North Bay, those leading only to the Elementary certificate were made available.

⁽¹⁴⁾ See Table 70

ART PUBLICATIONS

The five booklets on Art, prepared by the Art Branch and distributed to teachers through Inspectors of Schools, were in heavy demand.

Audio-Visual Education

SCHOOL BROADCASTS

A programme of 134 school broadcasts was prepared under the supervision of the Departmental Radio Committee for use in the elementary and secondary schools of the Province. Through the courtesy of the British School Broadcasting System, 16 broadcasts were made available to Ontario schools. In addition, four broadcasts from the Australian Broadcasting Commission proved quite useful. All broadcasts were presented in co-operation with the Canadian Broadcasting Corporation over a network of 27 radio stations.

Radio manuals outlining the broadcasts were distributed to all Ontario teachers in September. Two evaluation surveys to test the effectiveness of the broadcasts were conducted.

Ontario elementary schools have 12,848 classrooms served by central sound systems, and 10,494 additional schools reported the ownership of school radios.

FILM SERVICE

Films distributed from the Visual Education Branch directly to schools were shown on 103,300 occasions to a total of 5,291,627 students during the school year. In addition, 14 Boards of Education are operating their own film service, with a total of 4,073 film prints on extended loan from the Visual Education Branch. There were 82 additional film titles added this year, and there are now 1,348 titles, with 16,742 prints of sound films, available for use in Ontario schools.

Two summer courses in Audio-Visual Methods at Toronto and Sault Ste. Marie offered teachers an opportunity to improve their professional training in Audio-Visual techniques.

Ontario elementary schools have reported the ownership of 1,697 sound projectors, 2,358 filmstrip projectors and 533 opaque projectors.

Auxiliary Education Services⁽¹⁵⁾

SERVICES

It is gratifying to report that, where formerly the establishment of auxiliary classes appeared feasible only in the larger urban areas, more and more small urban and rural areas are now offering this service. The major emphasis of the work of the staff of the Auxiliary Education Services Division in 1959 was in (1) organizing and conducting surveys in areas contemplating the establishment of services for exceptional children, and (2) working with teachers and inspectors in rural areas for the purpose of planning suitable school programmes for children with learning difficulties. The staff also participated in numerous in-service training programmes for teachers on special education topics.

The Division maintains a library of magnatype books to assist pupils with limited vision, as well as a large professional library for the use of teachers and inspectors. Such books are lent free of charge.

⁽¹⁵⁾ See Table 30

TEACHER EDUCATION

Summer Courses leading to the Elementary, Intermediate and Specialist Certificates in Auxiliary Education are offered to all teachers and principals. A total of 487 enrolled in these courses held at Toronto and Brockville, an increase of 112 over the previous year. Eight different options were offered, one of which was concerned with the Education of Gifted Children, given for the first time. It is encouraging to note that the number of secondary school teachers enrolled in the option "Auxiliary Education in Secondary Schools" is increasing each year. Forty-nine teachers completed the attendance requirement for the Specialist Certificate.

The Department of Education conducted a five-week course for teachers of trainable retarded children in schools affiliated with the Ontario Association for Retarded Children. Fifty-three teachers attended the course.

TRAINABLE RETARDED CHILDREN

By June, 1959, there were 54 local Associations for Retarded Children, affiliated with the Ontario Association for Retarded Children which were operating classes with a total enrolment of approximately 1,600 trainable retarded children. Most of these classes were visited by a Special Service Inspector for the purpose of assisting the teachers in organizing and conducting classroom programmes.

Community Programmes

SERVICES

The Community Programmes Branch assists communities to provide programmes of recreation and adult education in order that men and women may have greater opportunities to use their leisure time enjoyably and constructively. The Branch works in co-operation with municipal recreation committees, school boards, provincial and community organizations, university extension departments, and other interested organizations. In each of the district offices located at Belleville, Fort William, Hamilton, Hanover, London, North Bay, Oakville, Ottawa and Toronto, is a district representative for that area. Another service is provided by special advisers in the fields of art, crafts, recreation facilities, social recreation, recreation for older people, puppetry, rural programmes, and citizenship. The Branch also issues a number of publications, makes available resource material for local committees, and provides a loan service in the fields of films, drama, music, and reference books.

PROFESSIONAL TRAINING AND CERTIFICATION

In the period 1951 to 1954, the Community Programmes Branch prepared and conducted a three-year in-service training course for municipal recreation directors. Successful completion of the course was a requirement for a certificate issued by the Department of Education under Ontario Regulations 10-54. Since January 1, 1955, the in-service course has been offered through the Extension Branch, University of Western Ontario, with assistance from the Community Programmes Branch. The number enrolled in this course on November 30, 1959, was 149.

RECREATION DEVELOPMENT

On November 30, 1959, there were 314 municipalities organized to provide recreation programmes. Of these, 278 actively provide such programmes. There were 91 communities (an increase of 5 over 1958) employing full-time recreation directors.

GRANTS

In accordance with the regulations, grants were requested in 1959 by 249 municipal councils. The sum of \$490,000 was provided in the estimates for such grants. A supplementary estimate was required to pay the grants which totalled \$498,642. Thirteen provincial organizations which conducted programmes of recreation or adult education were paid grants to an amount of \$18,150.

LEADERSHIP TRAINING

The Branch provides a continuous service to communities in helping them to train leaders in a variety of activities. Some of the courses were in the fields of playground supervision, day camp leaders, nature study leadership, community arts and crafts, and, in co-operation with the Department of Agriculture, seminars for rural leaders. The 164 courses thus provided were attended by 6,809 persons.

CITIZENSHIP EDUCATION

A major responsibility of the Branch is to provide continuous service and assistance for teachers of classes for newcomers to Canada. In 1959, there were in operation 921 classes for such newcomers attended by 20,934 persons. This is a decrease since 1958 of 175 classes and 5,183 persons.

During the fall of 1959, as in 1958, the Branch was asked to establish day-time classes in English and Citizenship for unemployed newcomers to Canada. There was one such class in operation on December 1, 1959.

CO-OPERATION

In order to provide the most efficient service, the Community Programmes Branch continued to work in close co-operation with the following agencies: Canadian Association for Adult Education; Citizenship Branch of the Department of Citizenship and Immigration; University Extension Departments; Ontario Federation of Home and School Associations; Folk School Council; Ontario Department of Agriculture; Canadian Nurses' Association; Ontario Department of Health; Ontario Parks Association; Ontario Federation of Agriculture; Ontario Department of Public Welfare; Ontario Association of Film Councils; Ontario Recreation Association; Ontario Field Naturalists; Ontario Tuberculosis Association; and various sport associations.

Correspondence Courses

GENERAL INFORMATION

The Correspondence Courses Branch provides correspondence courses for Ontario persons who are unable to attend school. Of all students for whom these courses are provided, more than 90 per cent are over 16 years of age. The remainder enrol for reasons of distance from school, temporary absence from Ontario, or illness. It is interesting to note the scattering of about 500 of the students around the world—in the other provinces of Canada and the Northwest Territories, the United States, Mexico, Costa Rica, Cuba, Jamaica, Haiti, Dominica, Barbados, Trinidad, Bolivia, Colombia, Ecuador, Peru, Chile, Argentina, Brazil, England, Holland, France, Belgium, Portugal, Germany, Czechoslovakia, Switzerland, Ethiopia, Liberia, Nigeria, French Equatorial Africa, Congo, Kenya, Southern Rhodesia, Portuguese West Africa, Portuguese East Africa, South Africa, Turkey, Pakistan, India, Ceylon, Burma, Malaya, Dutch New Guinea, Hong Kong, and Japan. The courses which are offered are academic subjects for Grades 1 to 13 (including bilingual courses in Grades 1 to 8) and eight trade courses in the fields

of Automotive Mechanics, Carpentry, Machine Shop Practice, and Radio Theory and Practice. All academic courses are free to residents of Ontario wherever they may be living. Trades courses are available to residents of all provinces at \$10 a course.

TRENDS

All correspondence courses have been prepared by teachers in the schools. All secondary school lessons are marked by teachers in the schools and each year an increasing number of elementary school lessons are being sent out to teachers to be marked.

Enrolment of children in the elementary grades continues to decrease, while enrolment of adults in secondary grades continues to increase, with enrolment in Grade 13 being nearly twice the enrolment in any other grade at the secondary school level.

ENROLMENT

The maximum active enrolment at any one time reached a peak of 5,074 on March 27, 1959. A total of 7,433 new students were admitted during the year. The rate of increase is such that this figure is almost twice as large as the figure for total admissions in 1955. The number of new admissions was made up of 849 students taking elementary academic courses, 6,281 enrolled in secondary academic courses and 303 in trades courses. In addition to those admitted in the regular way, 78 persons in sanatoria received correspondence courses, 58 persons in penitentiaries, reformatories and training schools, and 4 children in school cars. Eighteen teachers teaching Grades 9 and 10 in elementary and continuation schools received courses as teaching aids. The Branch is also providing courses for 19 students attending 16 secondary schools of Ontario who, while making full use of the programme the schools provide, find it impossible to complete Grade 11, 12 or 13 within the school year, because the subjects they require are not taught.⁽¹⁶⁾

Examinations and Scholarships

DEPARTMENTAL EXAMINATIONS

Statistics showing the results of the Grade 13 examinations, as well as the number of Intermediate Certificates, Secondary School Graduation Diplomas, Secondary School Honour Graduation Diplomas, Advanced Technical Evening Class Certificates, and Provincial Institute of Technology Diplomas issued, will be found in Table 65.

The Committee on Grade 13 Examinations appointed in 1958 continued its study of ways of dealing with increasing numbers of candidates. Experimental use of sectional marking whereby each examiner marks only a part of each paper indicated that this method is faster than the plan by which each examiner marks the whole paper.

TRANSPORTATION ASSISTANCE

The transportation subsidies provided by the Department of Education, for persons who reside in the territorial districts and who are enrolled in an eligible institution of university rank, have been in operation for twelve years. In the school year 1958-59, the sum of \$15,318.05 was paid to a total of 694 students of whom 471 resided east of Sault Ste. Marie, and 223 resided west of Sault Ste. Marie.⁽¹⁷⁾

⁽¹⁶⁾ See Table 76

⁽¹⁷⁾ See Table 67

SCHOLARSHIPS FOR STUDY OUTSIDE ONTARIO

For the school year 1958-59, from the \$8,000 provided by the Province for scholarships for study outside of Ontario, awards were made to Mr. Peter H. Hennessy, Port Arthur Collegiate Institute; Mr. Gordon E. Jorgenson of Alexandra Public School, London; Mr. Robert J. DeMille of North Toronto Collegiate Institute, Toronto; and Mr. Ashton McKinnell of Norwood Park Public School, Hamilton.

TEACHER EXCHANGE

During the school year 1958-59, 22 teachers were on exchange—21 in the United Kingdom, and 1 in British Columbia.

Guidance Services

SERVICES

The prime function of Guidance in Ontario schools is to provide a service to students—a service which includes counselling, provision of educational and occupational information, assistance towards self-appraisal through tests and records, and some job placement. Parents, teachers, school administrators, and indeed society in general, all benefit where effective Guidance services are part of the school programme.

During 1959, province-wide use of the Ontario School Record System (OSR) as the official cumulative record was instituted. Distinctively Canadian educational and vocational information in increasing quantity was distributed to Ontario secondary schools. Over the past year, Guidance workers have contributed much time to assisting in the current Carnegie Study, the findings of which could be far-reaching in effect.

A comprehensive survey of Guidance Services in the elementary schools of Ontario established a standard with which future comparisons may be made, provided to local schools a set of criteria for evaluating their own Guidance activities, and stimulated study and expansion of desirable Guidance services.

TRAINING

Registration at the 1959 Summer Courses in Guidance showed an increase of approximately 15 per cent over the previous record enrolment of 230 in 1946. Thirty-three Ontario teachers gained Specialist certification in Guidance during the year and, through the completion of thesis requirements for the certificate, added considerable data to several areas of educational research.

Guidance Services Inspectors held in-service training courses at fourteen different Ontario centres in co-operation with local District Inspectors, and these courses in testing and counselling continued to be popular and worthwhile.

Music

MUSIC INSTRUCTION

Courses in Music under qualified music teachers were provided in 79.7 per cent of the elementary schools of the Province. Music was also taught in 239 secondary schools. There were 274 school choirs, 148 bands, and 91 orchestras in these schools, and 33 operas were performed during the year. Music festivals, competitive and non-competitive, were held in 150 centres with more than 60,000 pupils participating.⁽¹⁸⁾

(18) See Table 79

TEACHER TRAINING

There were 966 certificated teachers and supervisors engaged in the elementary schools and 375 in the secondary schools of the Province during the school year 1958-59. Music is taught in all of the Teachers' Colleges, and there was an enrolment of 667 teachers at the Summer Courses in Music in 1959. An experimental course on string instruments was offered in Toronto; this course was attended by 78 persons.

MUSIC OPTION

Music is an optional subject in secondary schools, and pupils may obtain standing either through the regular course or by presenting the certificates of certain accredited examining bodies. In 1959, Grade 12 standing was attained by 2,318 pupils. Credit in Music towards a Secondary School Honour Graduation Diploma was obtained by 218 pupils who tried the Departmental Grade 13 examinations and by 841 pupils who presented equivalent certificates.

RADIO

Twenty-five music broadcasts were presented in four series during January, February and March. "Primary School Music," five 15-minute programmes for Grades 1 to 3; "Junior School Music," five 15-minute programmes for Grades 4 to 6; "Music for Young Folk," ten 30-minute programmes for Grades 7 to 10; and "Ontario Sings," five 15-minute programmes for Grades 5 to 8, were broadcast, with commentary prepared and given in each case by the Director of Music of the Department of Education.

CONCERTS

The concert series sponsored by the Department of Education for thirteen years was continued. Altogether, 1,227 concerts have been provided in smaller communities throughout the Province, and 344 young artists have been assisted in the beginnings of their professional careers. In 1958-59, 26 artists gave 27 concerts in 14 Ontario towns.

Ontario School for the Blind

ENROLMENT

There were 192 students in attendance at the Ontario School for the Blind in Brantford at the end of the school year in June. While 15 of these withdrew during the summer vacation period, 48 new students were admitted in September to bring the enrolment up to 225—the largest student body in the history of the school. Of the total enrolment, 130 are boys and 95 girls; while 155 are Ontario residents, 15 come from Alberta, 24 from Saskatchewan, 23 from Manitoba, 5 from Quebec, 2 from the Northwest Territories, and 1 from Peru.⁽¹⁹⁾

PROGRAMME

The provincial courses of study for Ontario for Grades 1 to 12 inclusive form the basic programme of the school. This leads to a Secondary School Graduation Diploma with four options. Practical courses in Home Economics and Industrial Arts are begun in Grade 6 and Typing in Grade 7, and these are continued through the high school grades. A thorough course in Piano Tuning with professional standards being maintained, is provided for the senior boys. A varied physical education programme and a rich musical training involving vocal, choral and instrumental work, supplement the academic studies. Special attention is given to the needs of

⁽¹⁹⁾ See Table 78

the individual in the regular classes as well as in the wide range of extra-curricular club and social activities in out-of-school hours.

Three students completed Grade 12 in June, 1959, and all are continuing their education. One is working towards her A.R.C.T. (vocal), another is studying to be a dictaphone typist, and the third is taking Grade 13 with university as his goal. Seven recent graduates are attending university at the present time.

NEW BUILDINGS

Work was begun in August, 1959, on the construction of a new wing on the main administration building. It is expected that the work will be completed in July, 1960, and will provide a new auditorium, music studios and practice rooms, a piano tuning department, and a recreational playroom for the physical education department.

Ontario School for the Deaf

ENROLMENT

The opening last January of new classroom and residential facilities for junior pupils at the Ontario School for the Deaf made possible the admission in September, 1959, of children as young as five years on September 1. The result was an almost capacity enrolment of 482 pupils by October 15, 1959, all from Ontario.⁽²⁰⁾

Most of the pupils were profoundly deaf with hearing losses in the better ear of over 60 decibels. Only seven per cent of the total were hard-of-hearing-with hearing losses of 40 to 60 decibels; these pupils came from communities where suitable provision could not be made for their education.

PROGRAMME

The programme of the school provided a well-balanced education to meet the varied needs of individual children whose ages ranged from five to twenty years. In the beginning or preparatory grades, vocabulary and language development were emphasized. In the senior grades, basic academic courses to the Grade 10 level, vocational courses, physical education, and participation in inter-school secondary school athletics, were provided. Cultural, social and recreational activities included: Wolf Cub, Boy Scout, Brownie, and Girl Guide groups; hobby clubs; parties; dances; a pupil-operated snack-bar; the annual Christmas Pageant; and the school play.

IMPROVEMENTS

A well-equipped audiological clinic, included in the new Junior buildings, made possible improved services in the assessment of the educational needs of children being considered for admission and those already in attendance.

The monthly school paper, *The Canadian*, published as an exercise in printing, increased its circulation to 1,200.

Landscaping and paving have provided additional play areas for the pupils.

Physical and Health Education

SERVICES

The Physical and Health Education Branch continued in the year under review to work towards an objective of programme improvement. Among the various

⁽²⁰⁾ See Table 77

efforts in this direction were in-service training courses, visits to schools to confer with principals and those teachers working in the Physical Education and Health programme, assisting with training courses at teachers' colleges and universities, summer courses, and leadership training at summer camps.

The publication of the Junior Division Curriculum Guide in Physical Education has already helped to improve the programme in Grades 4 to 6. A forty per cent increase in the enrolment of the Physical Education and Health summer courses for elementary school teachers has resulted in a much better programme and an increase in the use of playrooms of the schools.

ONTARIO ATHLETIC LEADERSHIP CAMP

A total of 508 young men and young women from Grade 11 who were selected on a basis of high academic standing, ability to get along with people, and a desire to accept leadership, attended the Ontario Athletic Leadership Camp for a two-week period. It was found possible to provide the camp with a staff of qualified teachers who were campers and leaders in 1948 to 1952. The purchase of an additional 120 acres of property now makes it possible to double the capacity of the camp in the future.

ONTARIO CAMP LEADERSHIP CENTRE

There were 260 counsellors-in-training selected by the directors of non-profit camps to take the three-week course at the Ontario Camp Leadership Centre in Haliburton. These Grade 11 and 12 students were selected for their leadership qualities and high academic standing. While they were at the camp, they were given opportunities for leadership experience through planning, teaching and assessing lessons on nature-lore, camp craft, water safety, and evening activities. The camp also acted as host to the Camp Directors' and Camp Committees' Work Conference.

GRANTS TO NON-PROFIT CAMPS

Camp grants are paid to non-profit camps in accordance with the regulations. The grants paid in 1959 to 396 non-profit camps were in excess of \$44,000.

Public Libraries⁽²¹⁾

PUBLIC LIBRARY USE

Books borrowed for home use from public libraries in the Province increased by more than two million to 23,503,181 in 1958. There were 563 libraries and branches which were open, and 35 bookmobiles and book trailers which were in use serving rural and urban areas. Public libraries have been established for nearly 4,000,000 of the population, and some measure of service through associations and co-operatives is available to an additional half million. The travelling libraries, also, offer a valuable service to small communities and to schools.

SUPPORT OF PUBLIC LIBRARIES

The vote for legislative grants to all libraries was \$1,500,000 for the fiscal year 1959-60. This was an increase of \$395,000 over the previous year. The total cost of the libraries in 1958 was \$7,428,927, and the average municipal levy per capita rose to \$1.94. An additional \$413,254 was spent by associations and co-operatives.

⁽²¹⁾ See Table 75

BUILDINGS

The construction of new quarters for libraries continued through 1959. New buildings were opened in Port Elgin (which is the Bruce County Library headquarters), North York, Richmond Hill, Eldon Township, Etobicoke Township and Stoney Creek. Additions to library buildings were made in Leamington and Belleville.

PROVINCIAL LIBRARY SERVICE

With the establishment of this enlarged branch of the Department of Education in 1959, advisory work increased in scope and now includes children's library service. The small branch library, established in Moose Factory on James Bay, continued its service in that isolated area. A second regional library co-operative, with headquarters in Kirkland Lake, was opened and began bookmobile service among the small public and school libraries of Northeastern Ontario. This form of co-operative service has been extended to five of the eleven territorial districts, as well as the fourteen co-operatives under county government.

The Travelling Libraries division continued valuable service to small communities and schools, with 1,534 cases of books sent out. The total number of books lent was 75,509 including 1,927 from the Teachers' Reference Library.

An amendment to The Public Libraries Act, passed by the Legislature early in 1959, permitted the commencement of a programme of improvement in the organization and financing of libraries in Ontario.

In Memoriam

THOMAS BINGLE, M.C., B.A., B.Paed., who retired in 1951 after serving in the schools of Brantford for thirty-nine years, died on April 18, 1959. During the Second World War he was appointed in an acting capacity to replace Inspector Russell Reid, who had been granted leave-of-absence for military service. Mr. Bingle served in France in the First World War with the 125th Battalion. He was for many years principal of King George Public School and of Central Public School in Brantford. Mr. Bingle was prominent in church, professional, fraternal and community activities in Brantford. His contribution in all of these fields was of a very high order.

A. J. BÉNÉTEAU, M.A., Ph.D., who retired as Master at the University of Ottawa Teachers' College on August 31, 1956, died suddenly on June 24, 1959. A tribute to his service was given in the 1956 Report of the Minister.

J. ARTHUR G. EASTON, F.R.A.I.C., P.Eng., Technical Adviser to the Department of Education, died October 16, 1959, at his Lorne Park home. Prior to entering the teaching profession, Mr. Easton was engaged in aircraft design and in practice as a consulting engineer. In 1927 he joined the staff of Danforth Technical School where he became Director of Shops and Drafting. For eight years, beginning 1937, he was with the Ontario Teachers' College, Hamilton, as organizer of General Shop Classes and, later, as adviser to the Commandant for the Army Trade Schools. From 1944 to 1947 he was in charge of construction of the school buildings which were to become the present Ryerson Institute of Technology, Toronto.

Mr. Easton was appointed Technical Adviser to the Ontario Department of Education in 1947. In this capacity he established standards for school buildings and equipment, and reviewed the plans for all school construction in the Province, both additions to existing structures and new buildings, on which departmental

grants became payable. His influence on school planning was therefore wide-spread and devoted to the provision of modern functional schools in which, while aesthetic values were not neglected, extravagance was curbed and useless expenditure of public funds rigidly prevented. Mr. Easton's twelve years of service in this office have made a most valuable contribution to the public good in a period of very rapid renovation and expansion of school buildings in Ontario.

J. M. GAME, B.A., B.Paed., who was Inspector of Public Schools for Bruce No. 1, died in Madrid, Spain, on April 16, 1959. He was born at Smithville near Hamilton and taught in elementary schools in the Canadian West and in Toronto. He served in France in the First World War with the Canadian Artillery. In 1931 he was appointed Public School Inspector for East Bruce with residence in Walkerton. Later, he became Inspector of Bruce No. 1 comprising all of the southern part of the County of Bruce. His keen interest in the education of the pupils in the schools which he visited and the energetic leadership he gave to projects of an educational nature in Bruce County, will be remembered by both young and old in the area in which he served.

WILLIAM E. HUME, B.A., D.Paed., who retired from the position of Inspector of Public Schools for the City of Toronto in 1950, died on October 28, 1959. A tribute to his service was given in the 1950 Report of the Minister.

NEIL S. MACDONALD, B.A., D.Paed., served as Public School Inspector for the City of Toronto from 1918 until his retirement in August 1937. He passed away in Brampton on December 14, 1959, at the age of 86. A tribute to the late Dr. MacDonald is to be found in the 1937 Report of the Minister.

WILLIAM K. SHEA, B.A., M.Ed., Inspector of Separate Schools, Ottawa Division No. 4, died suddenly on June 9, 1959, at Ottawa. Mr. Shea was born in Chatham and received his elementary and secondary education in the Chatham schools. He attended London Normal School in 1933-34 and was graduated from the University of Western Ontario with a Bachelor of Arts degree in 1947. He was a graduate of the Ontario College of Education and received his Master of Education degree from the University of Toronto in 1957. Mr. Shea taught in the separate schools of Chatham, the public schools of Kent County, St. Jerome's High School, Kitchener, and Welland High and Vocational School. He was appointed a Separate School Inspector for Ottawa on September 1, 1952. Mr. Shea gave faithful service as a teacher and as an inspector.

THOMAS C. SMITH, who had served as Public School Inspector in Lanark County from 1922 until his retirement in 1934, passed away on October 16, 1958, in his ninety-eighth year. The 1934 Report of the Minister of Education records that his years as an Inspector were devoted to the maintenance of high standards in his schools.

J. FRED WILSON, Bursar at the Ontario School for the Deaf, died suddenly in his sixty-third year in Belleville on December 12, 1959. He was born in Sydney Township and attended public schools in that township and the Trenton High School. Throughout his life he was prominent in the civic, political, and church life of the Belleville district. From 1945 to 1948 he served as Member of the Legislature for West Hastings. On August 23, 1948, he was appointed Bursar at the Ontario School for the Deaf, a position which he capably filled until his death.

Retirements

ARTHUR ARCHIBALD, B.S.A., retired on August 31, 1959, from the position of Inspector of Public Schools for Ontario No. 2. Mr. Archibald was born in Huron County and secured his education at a rural school, Seaforth Collegiate, and the

Faculty of Education in Toronto. He taught rural schools in Lambton County for two and one-half years. Mr. Archibald then attended the Ontario Agricultural College and graduated with a B.S.A. degree. Following his graduation, he taught in the Northern Academy at Monteith and Stamford Collegiate. Later he served as principal of Cayuga High School and Whitby High School. He was appointed Public School Inspector for Haldimand County on September 1, 1942. The next year he transferred to Ontario County where he gave sound leadership to his teachers and school boards in a sixteen-year period of rapid expansion in the southern part of the county.

Mr. Archibald was a valued member of the inspection staff. He was thorough in his classroom duties, dependable as an administrator, and kind in his relationship with his teachers.

FRANK C. ASBURY, M.A., retired from the position of Assistant Superintendent of Secondary Education on December 31, 1959. Appointed as Secondary School Inspector in 1945 and Assistant Superintendent in 1956, he had served with distinction as principal of the Sarnia Collegiate Institute and Vocational School from 1932 to 1945. His career has been marked by high scholastic achievement and outstanding professional service. Entering the University of Toronto from Parkdale Collegiate Institute, Toronto, as winner of the First Edward Blake Scholarship in Classic and Mathematics, he graduated in 1911 with Honours in Mathematics and Physics and as a gold medallist in Physics. In 1913 he was awarded the Master of Arts degree and, after a year with the research department of the Western Electric Company, New York, he qualified at the Ontario College of Education for the Specialist's Certificate in Mathematics and Physics. In 1922 he was appointed head of the mathematics department at the Sarnia Collegiate Institute and Vocational School, having previously taught at the Ridgetown High School and Harbord Collegiate Institute, Toronto.

During the First World War, Mr. Asbury enlisted for active service with the Overseas Training Company, University of Toronto, from which he was called for special scientific service with the British Admiralty in anti-submarine work.

Mr. Asbury brought to his duties as Secondary School Inspector not only much teaching and administrative experience in the secondary schools, but also broad scholarship and a clear understanding of essential aims in education. These qualifications, together with his careful judgment and gracious personal qualities, enabled him to render service of a high order to teachers, principals and school boards.

JOHN M. BENNETT, Ph.D., Inspector of Separate Schools for Toronto Division No. 1, retired on August 27, 1959. Dr. Bennett was born in Toronto and obtained his elementary school education in St. Peter's Separate School. He attended St. Michael's College School and the University of Toronto where he received his Bachelor of Arts degree in Honour Philosophy in 1912. He later received a Master of Arts degree from the University of Toronto and a Doctorate in Philosophy from the University of Ottawa. His early teaching experience was in the Hamilton separate schools. He was appointed a Separate School Inspector on September 1, 1917. His forty-two years of service as a school inspector have left an indelible imprint on the teachers and pupils of this Province with whom he was associated.

DAVID W. BURNS retired from the position of Instructor in Health and Physical Education at Hamilton Teachers' College on October 17, 1959. Born in Ireland and educated in Scotland, Mr. Burns served in France with the Argyle and Sutherland Highlanders during the First World War. After coming to Canada, he served for a time on the staff of the Hamilton public schools as an instructor in physical education until his appointment to the staff of the Hamilton Normal School in 1933. From 1939 to 1951 he taught Physical Education to the students attending the Normal

Schools at both Hamilton and Toronto. He assumed full-time duty at the Toronto Normal School in 1952, but returned in 1955 to the staff of the Hamilton Teachers' College where he served until his retirement. A skilful teacher and a man of buoyant energy and warm personality, Mr. Burns gave outstanding leadership to the students in his classes and to the many teachers who sought his advice and assistance.

G. ROY FENWICK, Mus.Doc., retired on August 31, 1959, from the position of Director of Music, an appointment he had accepted in 1935. Previous to his entering the civil service, he had been Director of Music in the Hamilton public schools since 1922. His academic degrees are: Licentiate in Music, University of Toronto, 1911; Bachelor of Music, University of Toronto, 1927; and Doctor of Music, University of Montreal, 1950.

Dr. Fenwick initiated, organized and directed the Ontario School Music Programme, edited the text-books for courses, superintended a vast system of School Music Festivals, originated and developed the extensive School Music Broadcasts, for which he acted as commentator. The annual Department of Education Summer Courses in Music, with Dr. Fenwick as Principal, were attended by approximately five hundred teacher-pupils, who were regularly formed into the now famous Summer School Choir under his direction. The present state of music in Ontario schools reflects the energy and enthusiasm which he brought to the task of introducing and developing a greater appreciation of music among teachers and pupils.

COLIN W. LEES, B.A., B.Paed., retired on October 25, 1959, from the position of Inspector of Public Schools for Victoria No. 3 after a term of twenty years in that Inspectorate and eight years in Renfrew County. His father, Richard Lees, M.A., had been Inspector of Public Schools in Peterborough East from 1905 until 1930.

Colin Lees was born in Brampton and educated in St. Thomas and Peterborough. He graduated with an honour Bachelor of Arts from Queen's University, Kingston, Bachelor of Pedagogy from the University of Toronto, and took post-graduate work in Washington University, Seattle. He taught in Millbrook and Ottawa and was the first principal of Hugh Beaton Public School in Windsor. He also taught in British Columbia for twelve years. Mr. Lees' visits to the classrooms of his Inspectorates will be remembered with pleasure by pupils and teachers alike.

W. L. LOVELL, B.A., B.Paed., Public School Inspector for Dufferin No. 1, retired on August 31, 1959. Mr. Lovell was born in Turnberry Township in Huron County, where he received his elementary school education. He attended Wroxeter and Brussels Continuation Schools and graduated from the North Bay Normal School in 1917. He taught on Manitoulin Island and later became principal of the Englehart Public School. After receiving an honour degree in Science from Queen's University, Mr. Lovell accepted, in 1931, the position of vice-principal of the Kirkland Lake Collegiate Institute and retained that position until his appointment as Public School Inspector in 1937 with residence at Haileybury. On September 1, 1942, he was transferred to Dufferin County where he served until his retirement. During his years in Dufferin County he earned the respect of the many school boards as he pressed for improvement in the rural schools.

MAURICE H. PARK, B.A., B.Paed., retired from the position of Master at the Toronto Teachers' College on July 15, 1959. Born in Uxbridge, he attended the elementary and secondary schools of the community, later obtaining the High School Assistant's and First Class Certificates from the Faculty of Education, University of Toronto; his degrees in Arts and Pedagogy were subsequently obtained at the same University. Mr. Park began his teaching career in Moose Jaw, Saskatchewan, moving to Ontario in 1911 to assume the principalship of East City Public School, Peterborough. After serving in the Armed Forces during the First World War, he returned to duty in the Peterborough public schools until his appointment in 1932 to the staff of the Peterborough Normal School. During World War II, Lt.

Col. Park was commanding officer of the Prince of Wales Rangers Reserve Battalion in Peterborough. In 1942 he was transferred to the Toronto Normal School which he served with distinction as master in the social studies and, later, as director of practice teaching. Mr. Park's instructional skill, his enthusiasm for teaching, his gifts as a soloist, and his devotion to duty, will long be remembered by his former students and associates.

RUSSELL REID, B.A., was born in Kinloss Township, Bruce County. He attended a rural elementary school at Langside and later, Lucknow High School. His teacher education was received at Model School and at Hamilton Normal School, after which he taught in rural schools in Markham Township in York County, and at Vinedale in Lincoln County. During 1917-18 he served in the army, and on November 12, 1918, was appointed principal of Bellview School, Brantford. In October, 1935, he was appointed Inspector of Public Schools for the City of Brantford. From 1942 to 1945 he served in the army in Canada and overseas as a captain in the personnel section. He was appointed Superintendent of Brantford Public Schools in 1953, and retired in December, 1959, having completed over forty-one years of service in the Brantford system. Mr. Reid carried out his duties with sincerity and an unfailing sense of humour. His contribution to the school system in Brantford and to education in general was outstanding.

MARJORIE G. SEAVEY, retired from the position of Instructor in Art at Hamilton Teachers' College on August 31, 1959. Born and educated in Hamilton she graduated from the Hamilton Normal School and for some years was a member of the Hamilton Public School staff. Upon the retirement in 1931 of her father, Mr. J. R. Seavey, she succeeded him as Art Instructor at the Hamilton Normal School. Employed for some years on a part-time basis, she became a full-time Instructor in September, 1955, an appointment she held until her retirement. Bringing to her work the practical knowledge gained during her years in the classroom, as well as marked artistic and creative ability, Miss Seavey was able to render excellent service to teacher education in the Province, and will long be remembered by the many teachers and students to whom she gave kindly guidance.

Service Record

DIED IN SERVICE

- J. A. G. Easton.....Technical Adviser, October 16, 1959.
J. M. Game.....Elementary School Inspector, Elementary Education Branch, April 16, 1959.
W. K. Shea.....Elementary School Inspector, Elementary Education Branch, June 9, 1959.
J. F. Wilson.....Bursar, Ontario School for the Deaf, December 12, 1959.

RETIREMENTS ON SUPERANNUATION

- A. Archibald.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Ontario No. 2, August 31, 1959.
F. C. Asbury.....Assistant Superintendent, Secondary Education Branch, December 31, 1959.
J. M. Bennett.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Toronto R.C.S.S. Division No. 1, August 27, 1959.

- D. W. Burns.....Instructor, Teacher Education Branch, Hamilton Teachers' College, October 17, 1959.
- G. R. Fenwick.....Director of Music, Music Branch, August 31, 1959.
- C. W. Lees.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Victoria No. 3, October 25, 1959.
- W. L. Lovell.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Dufferin No. 1, August 31, 1959.
- M. H. Park.....Master, Teacher Education Branch, Toronto Teachers' College, July 15, 1959.
- Miss Marjorie G. Seavey..Instructor, Teacher Education Branch, Hamilton Teachers' College, August 31, 1959.

RETIREMENT

- W. P. Ferguson.....Acting Principal, Provincial Institute of Trades, June 30, 1959.

RESIGNATIONS

- A. Cummins.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Hastings No. 2 and Prince Edward No. 2, August 31, 1959.
- T. J. Heath.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Frontenac No. 3 and Lennox No. 2, August 31, 1959.
- M. W. Holmes.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Toronto Metropolitan Area (Forest Hill, Leaside), August 31, 1959.
- E. E. Huff.....Special Services Inspector, Guidance Division, Special Educational Services Branch, August 31, 1959.
- D. S. Lawless.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Norfolk No. 2, August 31, 1959.
- A. R. MacKinnon.....Master, Teacher Education Branch, North Bay Teachers' College, August 31, 1959.
- G. S. McIntyre.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Muskoka No. 3, August 14, 1959.
- K. D. Munroe.....Special Services Inspector, Auxiliary Education Services Division, Special Educational Services Branch, August 31, 1959.
- F. G. Runacres.....Special Services Inspector, Physical and Health Education Branch, July 3, 1959.
- Miss N. Timlin.....Librarian, Peterborough Teachers' College, August 31, 1959.
- W. S. Turner.....Secondary School Inspector, Secondary Education Branch, June 30, 1959.
- E. W. Young.....Elementary School Inspector, Elementary Education Branch, Inspectorate, Essex No. 2, July 31, 1959.

PROMOTIONS

- Miss N. A. Arkles.....Master, Hamilton Teachers' College, formerly Instructor, Hamilton Teachers' College, September 1, 1959.
- Mrs. F. R. Devereux.....Master, London Teachers' College, formerly Instructor, London Teachers' College, September 1, 1959.
- J. W. Hazelton.....Vice-Principal, Ryerson Institute of Technology, formerly Master, Ryerson Institute of Technology, April 1, 1959.
- W. S. Hougham.....Elementary School Inspector, Elementary Education Branch, placed in charge of the Inspectorate of Bruce No. 1, September 1, 1959.
- T. H. Houghton.....Elementary School Inspector, Elementary Education Branch, placed in charge of the Inspectorate of Ontario No. 2, September 1, 1959.

(1) Excludes payments by the Province to Boards for services rendered, such as for the education of pupils from certain unorganized areas, and for the use of schools for practice teaching.

(2) Commencing with 1953, the former special grants were incorporated into the general legislative grant. The special legislative grants for 1955, 1956, and 1957 are special per pupil grants.

(3) The Province has been reimbursed by the Government of Canada in connection with the costs of citizenship and language instruction for new-comers to Canada by the following amounts: 1955—\$124,278; 1956—\$139,865; 1957—\$161,044; 1958—\$166,802 and 1959—\$197,589 and in connection with grants in respect of vocational schools to this extent: 1948—\$589,000; 1949—\$275,549; 1950—\$1,522,261; 1951—\$1,051,149; 1952—\$1,246,343; 1953—\$976,972; 1954—\$597,500; 1955—\$597,500; 1956—\$597,500; 1957—\$337,250; 1958—\$337,250.

These figures are based on the monthly reports of the Family Allowance Division of the Department of National Health and Welfare; these reports give the number of families transferring in and out of each province. The data is compiled for a census year, June to May. In order to show the number of children rather than families, the average for Canada—a 2.3 children per family—has been used as a multiplier for the years 1947-48 to 1953-54 and 2.41 for 1958-59. For the years 1954-55 to 1957-58 the average number of children per family in each of the provinces for the particular year was used as a multiplier.

(1)—Name changed from "Normal Schools" in 1953.

(2)—At Toronto and Port Arthur.

(3)—At London

(4)—Plus 81 at special summer session.

Source: Teacher Education Branch.

(5)—Plus 77 at special summer session.

(6)—The first year these departments were part of the Ontario College of Education.

*As of October 15th.

TABLE 12—PROFESSIONAL CERTIFICATES ISSUED DURING 1958-59
(September 1, 1958 to August 31, 1959)

A—Interim Certificates

1. Intramural

	First Certificate	Up- Grading
Elementary		
1. Second Class (University of Ottawa Teachers' College)		
(a) One-year Course.....	252
(b) Completion of Three Summer Sessions.....	33
2. Elementary-School Teacher's Teachers' Colleges		
(a) One-year Course, including 9 Deferred Elementary-School Teacher's Certificates from University of Ottawa Teachers' College.....	2,111
(b) Second year of Two-year Course.....	448
(c) Completing Year (at Teachers' College) of In-service Course.....	505
3. Ontario College of Education		
Elementary-School Teacher's Option.....	32
4. Primary School Specialist's		
(a) to candidates entering with B.A. degree only.....	23
(b) to candidates entering with Elementary-School Teacher's Certificate.....	11
Total, Elementary.....	3,404	11

Secondary

4. High School Assistant's, Type B		
(a) One-year Course.....	181
(b) Completion of 10-week Summer Session 1958 and 5-week Summer Session 1959.....	593
(c) Departmental 5-week Summer Course.....	110
5. High School Assistant's, Type B (Endorsed).....	490
6. High School Assistant's, Type A (Taken concurrently with Type B but not included in the 181 above)		
(a) One-year Course.....	109
7. Vocational, Type B		
(a) One-year Course.....	69
(b) From Summer Sessions.....	34
8. Vocational, Type A.....	36
9. Intermediate Home Economics.....	50
10. Intermediate Industrial Arts.....	9	44
Total, Secondary.....	995	730

Elementary

2. Extramural

1. Second Class		
(a) raised from Third Class.....	26
(b) to candidates re-writing Teachers' College papers.....	94
(c) to holders of Letters of Standing.....	10
2. First Class		
(a) raised from Second Class.....	14
(b) to candidates re-writing Teachers' College papers.....	27
(c) to holders of Letters of Standing.....	2
3. Elementary-School Teachers'		
(a) raised from Second Class.....	113
(b) to candidates re-writing Teachers' College papers.....	314
(c) to holders of High School Assistant's Certificates.....	2
(d) to holders of Letters of Standing.....	1
(e) to holders of Kindergarten-Primary Certificates.....	588
Total, Elementary.....	307	

TABLE 12—PROFESSIONAL CERTIFICATES ISSUED DURING 1958-59 (Continued)

	First Certificate	Up- Grading
Secondary		
4. High School Assistant's, Type B		
(a) from O.C.E., having written the final examinations after exemption from attendance because of training elsewhere.....	62	36
(b) to holders of Letters of Standing.....	82
5. High School Assistant's, Type A		
(a) from O.C.E., having written the final examinations subsequent to obtaining the Type B certificate.....	123
(b) from O.C.E., having re-written the final Examinations failed in a previous year.....	7
(c) to holders of Letters of Standing.....	3
Total, Secondary.....	154	159
Grand Totals.....	5,141	1,207
Total number of Interim Certificates issued.....		6,348

NOTE: The figure 5141 does not include:

- (a) the 734 Temporary Certificates granted upon successful completion of the Pre-Teachers'-College Course, First Year, or
- (b) the 888 Temporary Secondary School Certificates granted upon successful completion of the 10-week (1959) session of the 10-week and 5-week Course at O.C.E., or
- (c) the 49 Deferred Second Class Certificates issued upon successful completion of the first summer session of the In-service Course at the University of Ottawa Teachers' College.

TABLE 16—FULL-TIME TEACHERS IN ELEMENTARY SCHOOLS

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1958..... 33,074

ACQUISITIONS—September 30, 1958 to September 30, 1959:

From private elementary schools.....	72
Teachers' Colleges and First-Year Summer Courses.....	4,291
Letters of Standing.....	369
Former secondary-school teachers.....	71
Letters of Permission on September 30, 1959.....	528(1)
Certificated teachers re-entering profession.....	1,288
Others.....	201
Total. Acquisitions.....	6,820

WITHDRAWALS—September 30, 1958 to September 30, 1959:

To further education in teachers' colleges, universities, and other educational institutions	897
To teach in secondary schools, private schools, teachers' colleges, or schools outside Ontario.....	632
Employment in a non-teaching occupation.....	323
Marriage.....	385
Retirement.....	319
Left Ontario.....	186
Illness.....	114
Death.....	38
Resumption of household duties (married women).....	1,661
Others.....	98
Total, Withdrawals.....	4,653

ACQUISITIONS LESS WITHDRAWALS.

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1959.

EXPLANATORY NOTE:

1. This total shows only the number of Letters of Permission issued for the school year 1959-60 in the month of September.

SOURCE: Elementary-School Principals' September Statistical Reports, 1959.

TABLE 17—FULL-TIME TEACHERS IN SECONDARY SCHOOLS

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1958..... 9,573

ACQUISITIONS—September 30, 1958 to September 30, 1959:

From private secondary schools.....	31
From Ontario College of Education (all courses).....	1,020 ⁽¹⁾
Former elementary-school teachers qualified to teach in secondary schools.....	60
Qualified teachers re-entering profession who were not employed previously on full-time basis.....	195
Letters of Standing.....	66
Letters of Permission on September 30, 1959.....	267 ⁽²⁾
Others.....	40
Total, Acquisitions.....	1,679

WITHDRAWALS—September 30, 1958 to September 30, 1959:

To enrol in a university or other educational institution.....	81
To teach in an elementary school, private school, teachers' college, or school outside Ontario.....	145
Employment in a non-teaching occupation.....	129
Marriage.....	76
Retired.....	136
Illness.....	19
Death.....	24
Resumption of household duties (married women).....	133
Others.....	45
Total, Withdrawals.....	788

ACQUISITIONS LESS WITHDRAWALS..... 891

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1959..... 10,464

EXPLANATORY NOTES:

1. This total of 1,020 does not include approximately 200 persons who were employed by Boards on Letters of Permission during the school year 1958-59, who served as teachers during that school year, and who returned to the schools as teachers after successful completion of the 1959 ten-week summer course at the Ontario College of Education.
2. This total shows only the Letters of Permission issued for the school year 1959-60 in the month of September.

Notes: 1. Enrolment increases are calculated on September enrolments.

2. Building projects are counted in the year of completion.

3. No account is taken in this table of pupil-places lost as a result of the following factors; shift from urban to suburban areas, fire losses, replacement of temporary and obsolete accommodation, and abandonment of small buildings to permit centralized facilities.

**TABLE 59—EVENING CLASSES HELD IN SECONDARY SCHOOLS
1958-1959**

Evening classes were conducted in 181 centres throughout the Province for 93,568 pupils during 1958-59. The table below shows the percentage distribution of the enrolment in evening classes by subjects of study:

Subject	Percentage Distribution of Enrolment
Academic.....	21.3
Industrial.....	21.5
Commercial.....	19.1
Home Economics.....	16.5
Arts and Crafts.....	8.4
Agriculture.....	0.5
Other.....	12.7
Total.....	100.0

TABLE 67—TRANSPORTATION ASSISTANCE FOR PERSONS RESIDING IN THE TERRITORIAL DISTRICTS
1958-59

The Province of Ontario provided transportation assistance to 694 students during the school year 1958-1959. \$15,318.05 was paid to 471 students residing east of Sault Ste. Marie and 223 students residing west of Sault Ste. Marie. Of those assisted 246 were in the first year, 203 in the second year, 138 in the third year, 104 in the fourth year, 3 in the fifth year and 0 in the sixth year.

The institutions attended by these students were as follows:

Queen's University.....	191
University of Toronto.....	157
University of Western Ontario.....	138
University of Ottawa.....	62
Assumption University of Windsor.....	56
Osgoode Hall Law School.....	24
Ontario College of Education.....	21
Ontario Agricultural College.....	16
McMaster University.....	15
Macdonald Institute.....	9
Ontario Veterinary College.....	2
Sacred Heart College.....	1
Carleton University.....	1
Ontario College of Art.....	1

TABLE 75—4—ADDITIONAL STATISTICS

Number of Free Libraries, November 1st, 1959.....	279
Number of Association Libraries.....	210
Number of County and District Libraries.....	16
Total	505
Branch Libraries.....	58
Branches (urban and suburban).....	20
Bookmobiles (urban and regional).....	14
Bookmobiles (county and regional).....	14
Five new Free Libraries (Bath, Elliot Lake, Grantham Twp., Nipigon, North Grimsby, Twp.) were formed.	
Seven Association Libraries (Chapleau, Claremont, Cochrane, Cobbarie, King, Kirkfield (Now Eldon Twp.), Thessalon) became Free Libraries.	
One new Association Library (Whitefish Bay) was formed.	
A new Regional Library the Northeastern Regional Library, comprising the districts of Cochrane and Temiskaming was formed. It is served by contract with the	
Tekk Township Public Library, Kirkland Lake.	
Three inactive libraries (Chatworth, Linwood, White Lake) were removed from the list. The Gore's Landing Library was closed in September 1959.	
Two branches of the Toronto Township Public Library (Gardens and Malton) were closed and the area now served by bookmobile.	
Average local tax levy per capita	99 cents^s

NOTE: Details for individual libraries not shown above may be obtained from the Director of Public Library Service, 206 Huron Street, Toronto 5.
